

“Miraculous Touch of Nature”

Biosoapy

Santek Medikal Kozmetik LTD is the only authorized dealer of Kaan Medical Company in the Aegean Region, focusing on drug level monitoring tests (TDM) drug tests (DAU) and drug level monitoring tests (ISD) used in organ transplantation.

Our company, established in 2002 as "Santek Medikal Ltd" in İzmir, Turkey, has been focusing on health care and beauty as its prior mission. We have taken a step for this mission in 2012 and we finally started to produce our natural soaps under BIOSOAPY brand in 2013, basing on all the knowledge and experience we have acquired during this process.

What we care most is the human health and we work continuously to create benefits for a healthier life. We also care about the environment and prioritize the concept "natural". Our company, with the motto of "natural"; has been working to increase its product variety and quality by continuing its R&D activities for BIOSOAPY brand, with its experienced staff.

There are 10 different types of BIOSOAPY BASIC soaps which are completely natural. BIOSOAPY WELLNESS soaps have 6 different types, with natural formulations to provide natural and effective solutions to skin disorders.

BIOSOAPY, producing natural soaps, has ISO-9001: 2008 Quality Management System Certificate, ISO-22716: 2007, GMP Good Manufacturing Practice Certificate. The raw materials used in the production and the analysis and control of the produced soaps are realized in quality standards. Our company has developed an innovative technique for soap production. It has successfully carried out an R & D project with a focus on human health and in cooperation with TUBITAK. Our soaps, which are compatible with every skin type, have been tested with allergy and skin tests at Yeditepe University in Istanbul, Turkey.

BIOSOAPY is a hand made soap which does not contain any additives, alcohol, synthetics and colourants, as it is made up of completely natural components. Our products are a good source for aromatherapy; not only for the skin but also for the hair, thanks to its natural aromatic oils . BIOSOAPY brand has been created with the aim to increase the quality of human life. We work to ensure you of a beautiful skin and healthy hair and we will continue to be your trustworthy solution partner. We always offer you the "natural quality" coming directly from the nature.

BIOSOAPY AC-X WELLNESS SOAP

BioSoapy® AC-X Wellness Soap helps to treat the acne zones with a curative, absorbing and keratolytic effect, thanks to its composition of a special formula including clay, sulfur, black cumin oil. It provides ultimate care on the restored skin and it helps to have a healthy look.

EFFECTS :

Anti- bacterial : It soothes the acne zone, with the natural zinc, magnesium, calcium in the clay minerals and anti-bacterial effect of Black Cumin Oil. It helps to protect the skin by increasing the elasticity and softening it, while providing an anti-aging effect owing to Goat Milk's composition, that is rich in protein.

Natural Active Ingredients:

Sulfur : It dries and peels off the acne zone thanks to its keratolytic properties.

Clay : It cleans the skin by absorbing the dirt, sebum and toxins thanks to its natural kaolin ingredient.

Black Cumin Oil : It has anti-bacterial and bio-regulatory properties and it helps to treat the acne zones.

Goat Milk Soap : Vitamins A, B, C and Calcium in Goat Milk are easily absorbed in the skin and thus leads to a soothing effect on the dry skin as well as acne and redness problems.

Argan Oil : It is a rich source of Omega 6, which is useful for acne problems. It helps to nourish the skin and supports its oil balance, thanks to Omega 6 and Omega 9 components found in Argan Oil.

Ingredients: Sodium Olivete, Sodium Palm Kernelate, Sulfur, Kaolin, Nigella Sativa Seed Oil, Argania Spinosa Kernel Oil, Caprae Lac, Aqua

Usage : Apply BioSoapy® Wellness AC-X Soap on the problematic area and all through your body by foaming it with plenty of water. Wait about 2-3 minutes before rinsing to get better results.

BIOSOAPY PSO WELLNESS SOAP

Biosoapy® PSO Wellness Soap; helps to treat psoriasis by supporting the protein structure of skin, while helping to renovate it. Black Cumin Oil; well known for its antipsoriatic activity, helps to reduce the symptoms of psoriasis and Juniper Tar, which is well known for the rapid rejuvenescence which helps to quicken the renovation of skin.

EFFECTS :

Helps to reduce the skin flakes :

Alpha linoleic acid, found in Black Cumin Oil helps to regenerate the protective layer of the skin and reduce the skin flakes.

Effective on the scalp : With its garlic components, it helps to reduce the intensity of the dandruff on the scalp and prevent it to reappear. It also helps to alleviate the negative effects of psoriasis on the hair.

Natural Active Ingredients:

Black Cumin Oil : The natural Timoquinone antiinflammatory properties help to reduce the symptoms of nigellon and thymolin allergies, creating an antihistaminic effect. Black Cumin Oil, well known for its antipsoriatic activity, helps to treat psoriasis.

Garlic : Its natural components of aliin, allicin, ajoene, vitamins and minerals have an antioxidant, antifungal, antibacterial, antimicrobial and antiaging properties. It is said to be effective on psoriasis and it supports the cure in pharmaceutical applications.

Goat Milk : Vitamins A, B and C and Calcium in its composition, which facilitate the absorption of skin; make it a natural anti-inflammatory substance that helps to reduce psoriasis and skin rashes.

Juniper Tar : It is used as topical antipruritic in chronic dermatological disorders such as pruritus. It relieves the skin by helping to reduce itching and redness by a soothing effect.

Ingredients: Sodium Olivete, Sodium Palm Kernelate, Nigella Sativa Seed Oil, Allium Sativum, Juniperus Communis, Caprae Lac, Aqua

Usage : Apply Biosoapy® Wellness PSO Soap on the problematic area and all through your body by foaming it with plenty of water. Wait about 2-3 minutes before rinsing to get better results.

BIOSOAPY RENOVATE WELLNESS SOAP

Biosoapy® Renovate Wellness Soap; rich in unsaturated fatty acids, which play an important role in skin rejuvenation and nutrition, helps to have a younger skin. Vitamin E in Argan and Olive oil, helps to increase the production of collagen that gives skin elasticity and delay the symptoms of aging. It also helps to quicken healing of the wounds and brighten the skin while helping to reduce the wrinkles.

EFFECTS :

Helps to reduce the aging symptoms :

A special combination that provides a protection against harmful free radicals; helps to slow down the aging symptoms, such as fine lines and wrinkles. Omega 3, Omega 6 and Omega 9 in its composition, nourish and moisturize the skin.

Useful for Softening and Moisturizing :

Thanks to its high protein content, it helps to have a restorative effect while keeping the skin soft and moisturized.

Natural Active Ingredients:

Goat Milk : Thanks to its rich composition consisting of natural Vitamins A, B1, B2 (riboflavin), B6, B12, C, D, E, K, niacin, zinc and calcium as well as minerals, amino acids, citric acid, unsaturated fatty acids, proteins and various enzymes; it helps to create an anti-inflammatory, moisturizing and nourishing effect on the skin.

Argan Oil : Owing to its natural Omega 9, Omega 6 and high vitamin E in it, it moistens the skin with an anti-inflammatory, anti-oxidant and anti-aging effect, helping to reduce the wrinkles; nourish the skin and hair. It also helps to maintain the oil balance of skin, with its anti sebum characteristics.

Olive Oil : Thanks to its natural squalene, squalane and Vitamin E content; it helps to moisturize and soften the skin in a healthy way, without changing the oil-producing functions of the skin. It also helps to delay the aging symptoms.

Black Cumin Oil : Omega 6 and Omega 3 ingredients help to nourish and protect the skin; renovating the protective layer on the skin and reducing the skin flakes. It also helps skin to protect its moisture and balance its oil production function while helping to maintain its elasticity. It helps to reduce the negative effects of aging and skin lesions thanks to its anti-inflammatory properties.

Ingredients : Sodium Oliviate, Sodium Palm Kernelate, Caprae Lac, Argania Spinosa Kernel Oil, Olea Europaea Fruit Oil, Nigella Sativa Seed Oil, Aqua

Usage : Apply BioSoapy® Wellness RENOVATE Soap on the problematic area and all through your body by foaming it with plenty of water. Wait about 2-3 minutes before rinsing to get better results.

BIOSOAPY SEBIX WELLNESS SOAP

Biosoapy® SEBIX Wellness Soap; is especially used to help the treatment of Seborrheic dermatitis seen on the scalp. The Sulfur helps to dry off the problematic area, where the oil balance has changed; and peel it off the skin. Monoterpene compounds in Juniper Tar help to relieve itching and redness, while Black Cumin Oil helps to reduce the scabbing on scalp.

EFFECTS :

Effective on Seborrheic Dermatitis

Its special formula helps to kill oily, red, scaly and granular fungi that causes seborrheic dermatitis and helps to remove it from the skin surface.

Healthy and Strong Hair

Juniper Tar helps to have an antimicrobial effect on the area where it is applied. It also has positive effects on the decrease of hair loss and increase of hair growth.

Natural Active Ingredients:

Sulfur : Thanks to its keratolytic, anti seborrheic and antimicrobial properties; it helps to support seborrheic treatment, by removing the problematic area, drying and peeling it off the skin.

Juniper Tar : Thanks to the monoterpene compounds such as natural alpha-pinene, beta pinene and malic acid in its composition, it helps to relieve the problematic skin by its antiseptic, anti-inflammatory, antibacterial, antimicrobial, sedative effect on the itchy, red and flaking oily skin; which provide a feeling of comfort.

Black Cumin Oil: The natural nigellone and thymol antihistaminic in its composition, help to reduce the negative symptoms of allergies. Timoquinone, Omega3- and Omega-6 fatty acids help to treat seborrheic dermatitis by preventing infections and allergies with their anti-inflammatory effect.

Ingredients : Sodium Oliviate, Sodium Palm Kernelate, Sulfur, Juniperus Communis, Nigella Sativa Seed Oil, Aqua

USAGE : Apply Biosoapy® Wellness SEBIX Soap on the problematic area and all through your body by foaming it with plenty of water. Wait about 2-3 minutes before rinsing to get better results.

BIOSOAPY ARGAN SOAP

Biosoapy® Argan Oil Soap nourishes, moisturizes and protects all skin with a perfect ratio of high omega 6 and 9 fatty acids in its content. Its high vitamin E content is antioxidant. Vitamin E delays aging symptoms by healing on the damaged and dry skin. It is effective against dry skin, acne, psoriasis, eczema, wrinkles, hair loss and worn hair

EFFECTS

Natural solution to hair loss :

Thanks to Omega 9, which is found in the Argan Oil, it nourishes the hair and allows it to grow faster. It increases the strength of hair, making it stronger against external factors. It helps to maintain oil balance of skin as well as scalp with its anti-sebum effect.

High antioxidant effect : Argan oil contains 200-300% more vitamin E than olive oil. It promotes skin rejuvenation by showing high effect against free radicals.

Moist and flexible skin : The unsaturated fatty acids in Argan Soap provide a fresh and healthy appearance by increasing the moisture retention ability.

Wound healer : Its antioxidant and anti-inflammatory effects help to repair the damaged skin, supporting wound healing.

NATURAL ACTIVE COMPONENTS

Omega 6: It has antioxidant properties, it rejuvenates the protective layer of the skin and reduces flaking.

Omega 9: It softens the skin with its high moisture retention property, has an anti-inflammatory effect.

Vitamin E: Protects the skin against free radicals that cause aging of skin by showing high antioxidant properties.

D-7 Stigmaterol: It has a healing effect on the irritated skin and wounds

Product Ingredients: Sodium Olivete, Sodium Palm Kernelate, Sodium Cottonseedate, Argania Spinosa Kernel Oil, Aqua.

USAGE: Apply Biosoapy® Argan Soap to your skin / hair by foaming with plenty of water. Wait about 2-3 minutes before rinsing for better results.

BIO SOAPY GOAT MILK SOAP

Biosoapy® Goat Milk Soap helps to nourish and moisturize skin with unsaturated fatty acids, vitamins, minerals and proteins found in the natural goat milk. It relieves the sensitive skin types which have eczema, rash and redness problems. Due to Goat Milk's similar structure to skin's pH + level; it gently cleanses the skin without drying the skin's protective layer and helps to have a firmer look on the skin.

EFFECTS

Skin Dryness, eczema and psoriasis.

Vitamins A, B and C and Calcium in its composition, which makes the absorption of skin; has a soothing effect on skin dryness, eczema, psoriasis and skin redness.

More Flexible and young skin

It cleanses the skin from free radicals to increase flexibility, prevents premature aging. It cures the appearance of dark and brown spots on the skin.

Sensitive and allergic skins

It gently cleanses sensitive and allergenic skin without peeling and drying with its rehydration and softening properties.

NATURAL ACTIVE COMPONENTS

Alpha hydroxy acid : It disintegrates the structure that holds the dead layer of skin, removes from the skin, plumping and smoothing the skin.

Caprylic acid : It brings the surface tension of the skin to optimal conditions with its structure similar to skin pH. It moisturizes the skin, ensure the other ingredients in the soap to be absorbed.

Vitamin A: Antioxidant effect slows the signs of aging on the skin

Zinc: It accelerates the restructuring of the collagen fibers, allowing the skin to look more flexible and smooth.

Product Ingredients: Sodium Oliviate, Sodium Palm Kernelate, Sodium Cottonseedate, Caprae Lac, Aqua.

USAGE: Apply Biosoapy® Goat Milk Soap to your skin / hair by foaming with plenty of water. Wait about 2-3 minutes before rinsing for better results.

A younger and more flexible skin: The donkey milk, composed of rich ingredients like protein, phospholipids, minerals and vitamins; helps the skin to firm, smoothen and rejuvenate.

Purifies the skin by removing dead cells:

The lactic acid found in donkey milk, removes the dead skin cells and helps to form the new cells. It also supports to reduce the scars and wrinkles, while helping the skin to gain its natural color.

A natural support for the skin lesions:

Thanks to its protein structure which has an anti-inflammatory and antibacterial properties; the Donkey Milk helps to reduce the skin irritation & rash and fight against acne, eczema and psoriasis.

Natural Active Ingredients :

Lactoferrin; Lactoferrin is a natural protein found in mother's milk as well as donkey milk. It shows an antibacterial effect on the bacterias and supports the healing of acne problems.

Lysozyme; Lysozyme, found in the donkey milk, is a natural, powerful anti-microbial.

Vitamin C: Helps to strengthen the collagen production of skin and remove fine lines and wrinkles. Vitamin C is also effective against the free radicals thanks to its antioxidant properties

Casein; helps to relieve the inflammation, redness and itchiness on the damaged skin and supports the skin structure.

Ingredients: Sodium Oliviate, Sodium Palm Kernelate, Sodium Cottonseedate, Donkey Milk, Aqua.

Usage: Apply Bio Soapy® Donkey Milk Soap to your skin / hair by foaming it with plenty of water. Wait about 2-3 minutes before rinsing for better results.
