OLIVE ORCHARD

- Our 420,000m² orchard was established in 2009.
- Our orchard has 12,000 trees mainly consisting of Sari Ulak and Gemlik cultivars.
- we are one of the few companies producing olive oil and table olives and managing our own olive orchard at the same time, which gives us the advantage to monitor the olives from the beginning of their growth to harvesting to processing.

- Our 10,500m² factory was established in 2012
- It is equipped with the state of the art olive oil and olive production lines.
- The olive oil production line has the production capacity of 120 tons per day.
- The table olive production line has a capacity of 15 tons per day.
- This facility enables us to produce high quality products, which currently we export to 14 countries worldwide.

PREMIUM EXTRA VIRGIN OLIVE OIL

COLDPRESS:-Alerya branded products consist of cold press extra virgin which we call “Olive Juice”, it is graded as a prime and niche olive oil. Our main objective while producing this product is to make you feel and smell the delicious olive flavor.

FLAVOURED OLIVE OIL:-Our flavored Olive Oil is produced by adding herbs and fruits to the olive paste rather than mixing flavors to olive oil after the production. These olive oils allow you to truly taste the mouthwatering Bitter Orange, Basil, Red Pepper, Thyme and Lemon flavor.

EXTRA VIRGIN OLIVE OIL

- With an eye to bring you the finest olive oil to your table, we put in our greatest effort from harvest to processing and from filling to packaging, to present the olive oil to your liking.
- This olive oil has an ideal pleasant taste suitable for both dressing salads and preparing a wide range of meals.
- Aler strives to maintain a standard aroma, flavor and taste in each bottle.

PURE OLIVE OIL AND OLIVE POMACE OIL

PURE OLIVE OIL:-is a blend of refined olive oil obtained from diligently produced olive oil, with good quality extra virgin olive oil

- This type of olive oil offers the taste of extra virgin olive oil at an economical price. It is good for cooking and frying.

OLIVE POMACE OIL:-Olive pomace oil is the oil obtained by applying advanced refining techniques olive pomace.

- This olive oil is the economic alternative to the other grades of olive oils. We can also mix the olive pomace oil with extra virgin or virgin olive oil according to your desire to obtain a more preferable olive flavor taste.

OLIVES

SARI ULAK CRACKED GREEN OLIVES:-Sari Ulak olive, which is an indigenous cultivar in the Cukurova region in Adana is grown at high altitudes and in unique type of soil. It's one of the firm cultivars with a natural distinctive, fruity taste and vivid appearance.

SPLIT GREEN OLIVES:-Famous for its firm structure, Edremit olives are highly preferred by our customers of green olive varieties. The cracked olives are flavored using fermentation and debittered. Different from most producers, we produce Cere Edremit Green Olives using natural methods from harvesting to your tables.

SLICED OLIVES:- The pitted olives are sliced into nice regular pieces using special slicing machines. The sliced olives are then packed in a way that offers optimum freshness and uniform texture. These delicious olives make an ideal ingredient for a variety of dishes or pizzas.

OLIVES

PITTED OLIVES:-These high-quality olives undergo various processes before and after they are pitted. These processes result in delectable, tasty pitted olives that can be enjoyed without the danger and possible dental damage pits present. The taste of our pitted olives enhance flavor in meals.

STUFFED OLIVES:- The best olives are carefully harvested without damage and pitted. Afterwards, they are delicately hand stuffed with pepper, caper or garlic. Our stuffed olives are one of the favorite products for our customers because they are a combination of flavor making them delicious and suitable for appetizers and mezzes.

OLIVES

NATURAL GEMLIK BLACK OLIVES:-These olives are characterized by small seeds and thin skin easily separable from the pulp. Our naturally flavored olives processed with natural fermentation methods, are highly appreciated by our consumers because they maintains their flavor and nutritional values at the highest level.

DRIED GEMLIK BLACK OLIVES:-For this type of olives, we use the traditional rolling method which has been applied since earlier times yet almost forgotten. The Gemlik Dried Sele Olives takes a bit curly appearance due to the periodical rolling required for fermentation.
