Logistics Presentation

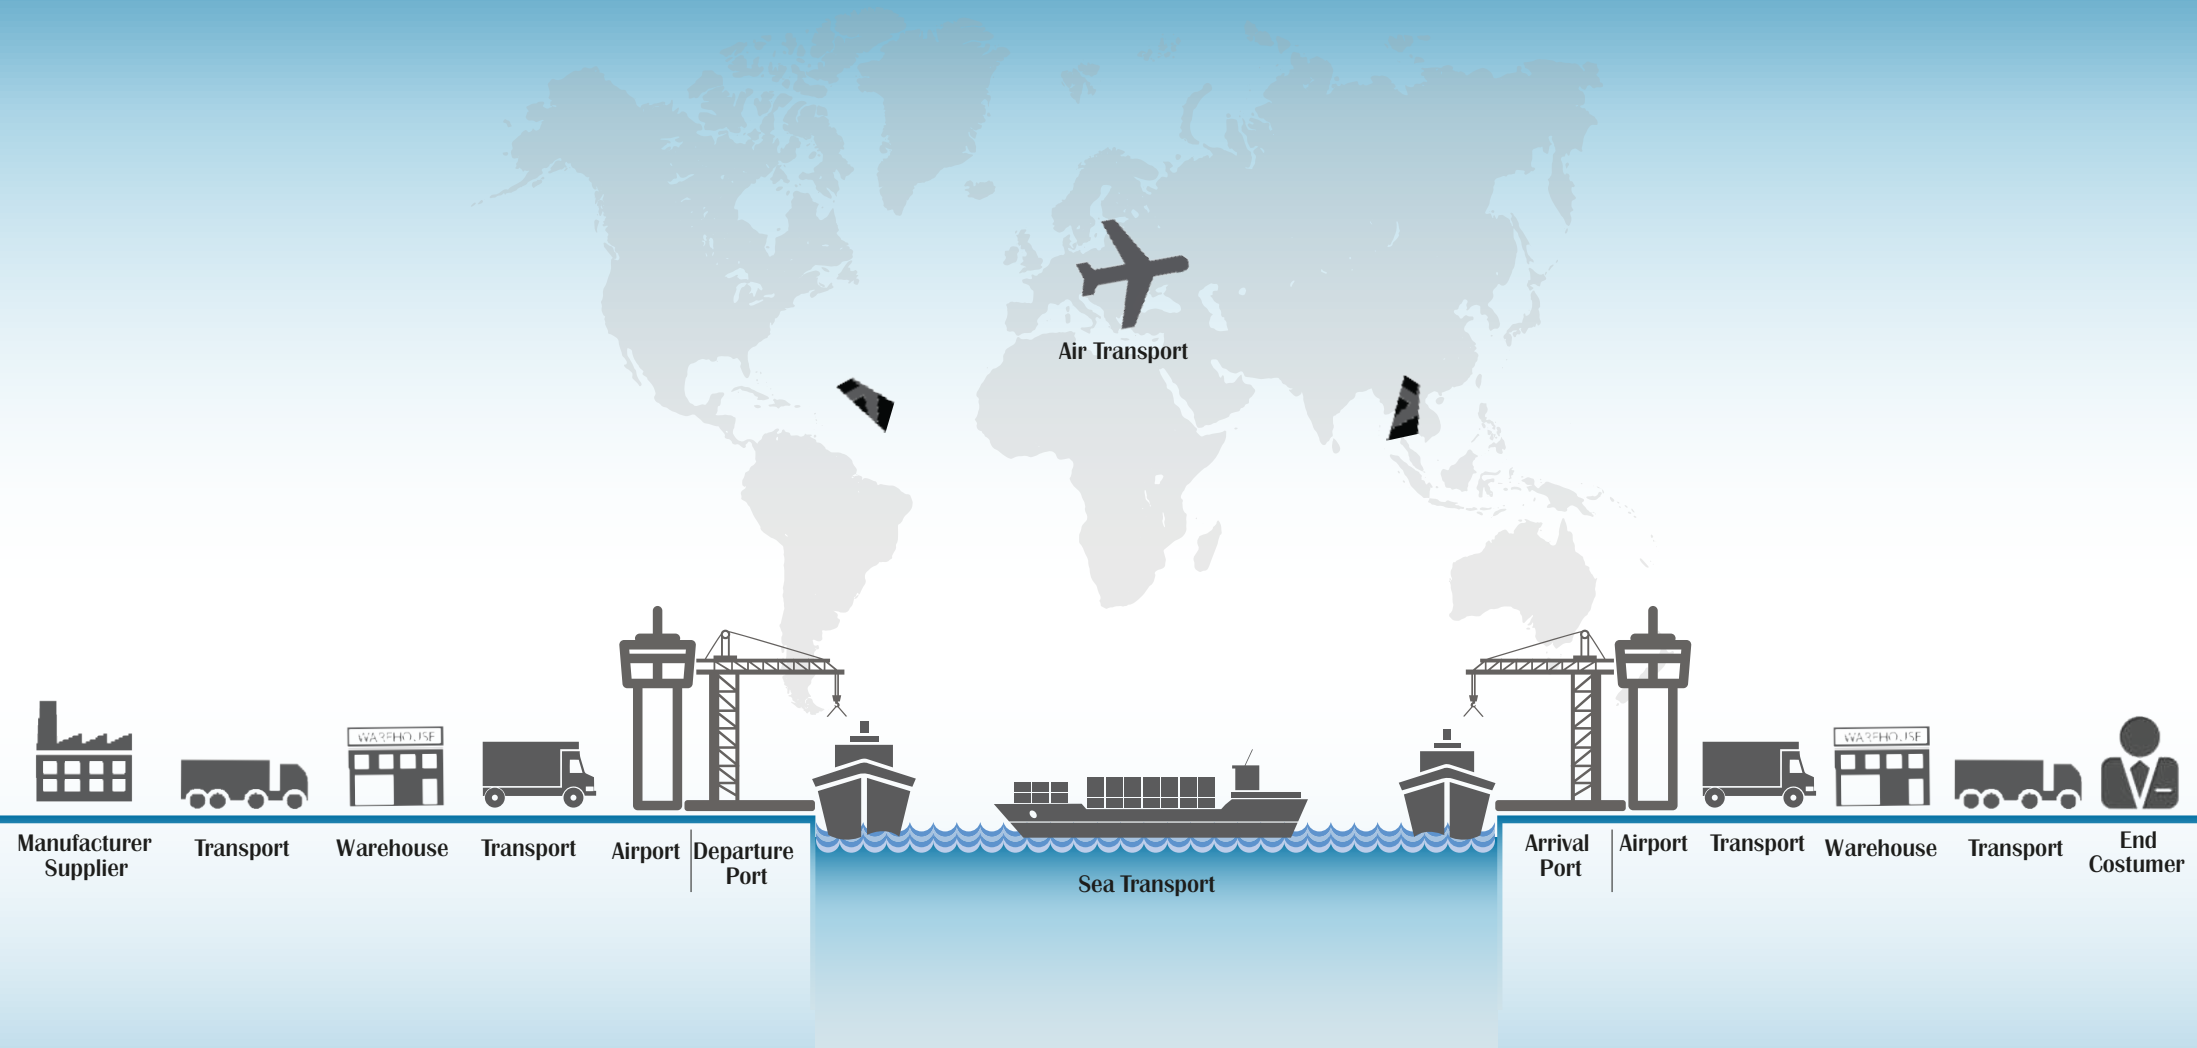

Acto is a Turkey oriented logistics company founded by its board members who decided to improve their 10 years of experience under Acto brand. As a legal entity, Acto is a young and dynamic company and adopted adumbration of the love of the work they do to their customers and business partners as a principle along with their everlasting experience and background in the logistics sector.

This is the covenant of Acto which can provide service thanks to their own offices in Istanbul and Izmir Airports, which can provide service from their main seaport which is Ambarlı and all other seaports to all their customers:

No Acto family member will ever settle in less that the “best solution” sheltering under any excuse or reason during their service demanded by our customers and they will never consider such solutions even as an alternative. Such an approach does not mean that we ignore the fact that Acto is supposed to make a profit, it actually confirms our mission which we truly believe. Provided that your job is on the rails, our one will be as well.
