ABOUT US

Established in 2005 in Çorlu, Tekirdağ, Cebeci Group has become a company preferred by the globally-known companies in Denim Industry, building its existence and experience on providing inner tubes produced by Michelin and various consumable goods used in Dry and Washing Processes. Thanks to the inner tube product supplied, Cebeci Group has been enabling the customers to get the best results on the goods they process and to manage the time effectively, contributing to their profits at the same time. Our day-by-day improving company that has begun to import and supply spare parts of ram type machines, keeps improving by adding new products to its structure.

MISSION

Our missions;

- To commit ourselves to providing the quality in optimum price and adopt it as a principle,
- To progress with having complete customer satisfaction as a pursued company in its sector,
- To carry on operations with our continuous investments and expanding market network.

VALUES

Values to lead our company to success;

- Maintaining the harmony with service, price and quality,
- Enabling our customers to manage time effectively,
- Meeting the complete customer satisfaction.

QUALITY POLICY

- To provide the quality management system to be defined, practised and maintained among all levels in company,
- To manage quality, time and economy with the goods supplied,
- To prepare a peaceful working atmosphere for employees,
- To provide the vocational education schedules for employees to raise their knowledge levels in order to provide our customers exact informations of our products accordingly.
- To make customer satisfaction analysis, giving special emphasis on feedbacks to customers.
- To make no concessions from integrity and honesty within the frame of community and professional ethics.

Why Michelin?	11

MICHELIN INNER TUBES

It is made of %100 butyl rubber without aromatic oils. Each can be used to process, at least, 6000 garments.

JACKET TUBES

It is made of %100 natural rubber.

TUBES (HEAT PROOF)

SAIP PLASTIC STAPLES ROLL (100.000 PCS)

It is made of plastics. High flexible tag pins. After stone-wash process, these tag pins don't cause any damages.

SAIP - TAGPIN GUNS & PLASTIC STAPLES & NEEDLES

AVERY DENNISON - TAGPIN GUNS & PLASTIC STAPLES & NEEDLES

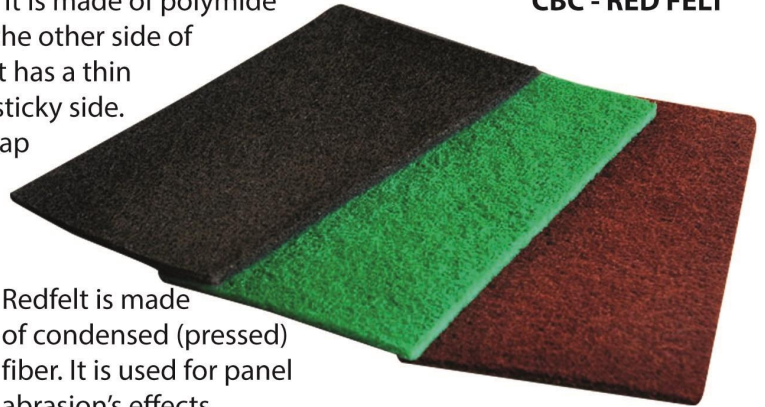

CBC - EPDM WITH TAPE

Its adhesive side of it is made of polyamide nylon textile and the other side of polietilen foam. It has a thin adhesive on its sticky side. It is used for scrap papers

CBC - RED FELT

Redfelt is made of condensed (pressed) fiber. It is used for panel abrasion's effects.

CBC - EPDM SPONGE

EPDM Sponge Mausepad is made of polietilen foam

CBC - PACKAGING TAPES

72mm x 72m

It is produced in any size requested

CBC - DOUBLE - SIDED TAPES

100mm x 25m

It is produced in any size requested

24mm x 18m
48mm x 18m

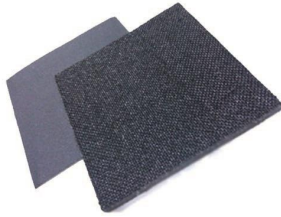

CBC - MASKING TAPES

It is produced in any size requested

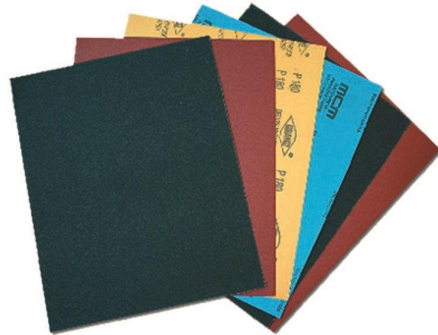

Double-sided tape consists of hot-melt glue and nylon. It is coated with thin adhesives on both sides.

EPDM with velcro & STICKER SANDPAPER
 Sticker sandpaper is sticked to the velcro side of EPDM, having an appropriate surface.

SANDPAPERS

- | | |
|--------------|-------------|
| 230 x 280 mm | P60 |
| 230 x 280 mm | P80 |
| 230 x 280 mm | P100 |
| 230 x 280 mm | P120 |
| 230 x 280 mm | P150 |
| 230 x 280 mm | P180 |
| 230 x 280 mm | P220-P1200 |
| 230 x 280 mm | P1500-P2000 |

SANDPAPERS ROLLS

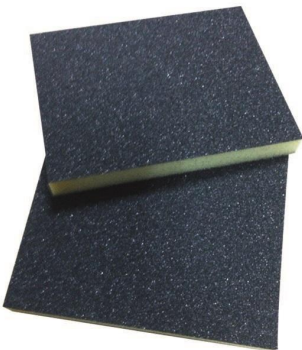

- | | |

| 100 mm x 50 m - 800 mm x 50 m | P80 |
| 100 mm x 50 m - 800 mm x 50 m | P100-P600 |

SPARE BRUSHES

7 cm x 5 cm.

SANDING TOOLS

ABRASIVE BLACK SPONGE

- | | |
|------------------|-----|
| 98 x 123 x 10 mm | 180 |
| 98 x 123 x 10 mm | 220 |
| 98 x 123 x 10 mm | 320 |
| 98 x 123 x 10 mm | 400 |

Abrasive sponges are coated on two sides with silicon carbide. The carrier material is sponge. It is generally used in resin finishes and on the 3D whiskers. The material is very soft. It enables user to have soft 3D whiskers spectre and is used for resin finishs panel abrasions.

ABRASIVE SPIRAL BANDS

Abrasive spiral bands are provided in different diameters and grit sizes. They enable users to sand hard to reach areas

- 6 x 13 mm
- 8 x 13 mm
- 9 x 13 mm
- 10 x 30 mm
- 12 x 30 mm
- 13 x 30 mm
- 15 x 30 mm
- 20 x 30 mm
- 25 x 30 mm
- 30 x 30 mm
- 40 x 30 mm
- 50 x 30 mm
- 60 x 30 mm

GRINDING TOOL

Technical Specifications

25000 Rotation/Min

Air Pressure 6,2 Kg/cm

Air consumption
0,4 Atü

Perfect air tool for detailed grinding and many other applications

GRINDING STONES

Grinding Stone/Form B

- B-01 3 x 8
- B-02 4 x 8
- B-03 5 x 10
- B-04 6 x 12
- B-05 6 x 16
- B-06 8 x 12
- B-07 8 x 16
- B-08 10 x 10
- B-09 10 x 15
- B-10 10 x 20
- B-11 10 x 25
- B-12 12 x 12
- B-13 12 x 20
- B-14 12 x 30
- B-15 16 x 16
- B-16 16 x 20
- B-17 16 x 30
- B-18 16 x 40
- B-19 20 x 20
- B-20 20 x 30
- B-21 20 x 40
- B-22 25 x 25
- B-23 25 x 32
- B-24 25 x 40
- B-25 25 x 50
- B-26 30 x 30
- B-27 30 x 40
- B-28 30 x 50
- B-29 40 x 40

Grinding Stone/Form A

- A-01 12 x 4
- A-02 16 x 4
- A-03 16 x 8
- A-04 20 x 4
- A-05 20 x 8

- A-10 25 x 20
- A-11 30 x 4
- A-12 30 x 8
- A-13 30 x 16
- A-14 30 x 20
- A-15 40 x 6
- A-16 40 x 10
- A-17 40 x 16
- A-18 40 x 20
- A-19 50 x 10
- A-20 50 x 16
- A-21 50 x 20
- A-22 60 x 16
- A-23 60 x 20

Grinding Stone/Form C

- C-01 25 x 8
- C-02 30 x 8
- C-03 40 x 10
- C-04 50 x 12

Grinding Stone/Form D

- D-01 8 x 20
- D-02 10 x 25
- D-03 12 x 20
- D-04 16 x 25
- D-05 20 x 35

Grinding Stone/Form E

- E-01 5 x 5
- E-02 5 x 10
- E-03 8 x 16
- E-04 8 x 20
- E-05 10 x 20
- E-06 10 x 30
- E-07 12 x 25
- E-08 12 x 30
- E-09 12 x 40
- E-10 16 x 16
- E-11 16 x 32
- E-12 16 x 40
- E-13 20 x 20
- E-14 20 x 30
- E-15 20 x 40
- E-16 25 x 25
- E-17 25 x 32
- E-18 25 x 40
- E-19 32 x 32
- E-20 32 x 40
- E-21 32 x 50

Grinding Stone/Form F

- F-17 8 x 16
- F-18 13 x 20
- F-19 20 x 32
- F-20 20 x 40

SPONGE BALLS

It is made of sponge rubber. It enables user to have different random effects on garments and is usable for hypo and kmno5

SERRATED WASHING BALLS

It is a serrated and hard washing ball

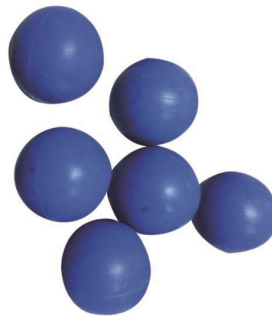

SILICONE BALLS

It is made of a kind of silicon

SPONGE CUBES

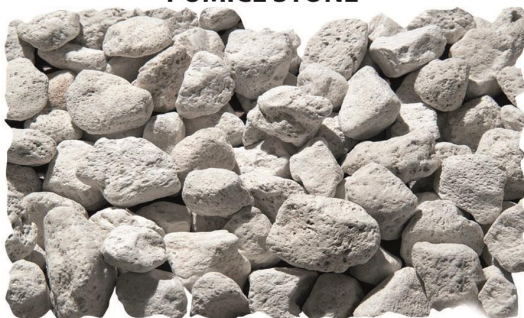

It is made of sponge rubber. It enables user to have different random effects on garments and it is used for hypo and kmno4

FISHERMAN NET

It is made of polyesters, cotton and lycra. It enables user to have cracs effects on garments and is also usable for sustainable ozone finish

PUMICE STONE

Pumice stone is a kind of porous volcanic aggregate stone, used with the purpose of denim washing. It consists of lightweighted aggregates.

BAG NET

KNITTED FABRIC

SPONGE GLOVE

It is used for kmno4 and pigment. Sponge is controlled easily.

RANDOM TOWEL

It is 100% polyesters. It enables user to have different random effects on garments and is usable for hypo and kmno4. It can be used for fifty times, at least.

It is made of polyesters, cotton and lycra. It enables user to have crack effects on garments. Life time is 150 minutes of stone wash time.

SPRAY GUN 4001S

It is a good resin and kmon4 spray gun

SPRAY GUN G70

SPRAY GUN H2000

It is used for on the whiskers kmon4 and pigment dye sprays applications.

H -827 SPRAY GUN

SPRAY GUN DEVILBISS

Devilbiss spray guns are the best one among the spray guns in its class.

SPRAY GUN E70

SPRAY GUN

SPRAY GUN

SPRAY GUN S710

CHEMICAL BRUSHES

Brushes are made of plastics, galvanized metal sheet and pvc nylons. It is used after resin sprays good feadering.

WHY MICHELIN ?

Model	Lifetime of Michelin Tubes		Number Of Pieces Handling Per Day		Number Of Pieces Handling Along The Lifetime	
	Scraping	Spraying	Scraping	Spraying	Scraping	Spraying
7.50.16 JJ (SMALL)	10	13	290	320	2900	4160
7.50.20 JJ (MEDIUM)	16	19	310	325	4960	6175
8.25.20 KJ (BIG)	20	24	330	350	6600	8400

- » Above mentioned figures guaranteed for 8 hours of working a day according to our worldwide clients survey in 2013
- » Each unit will be divided to be used for two legs of the manikin.
- » Lifetime is double in comparison with local made tubes. It saves you money and time.
- » It is very flexible product due to butyl material in it, and it fills up the jeans perfectly and gives no open space.
- » It has perfectly clean surface leaves no scrape marks during the process.
- » High durable product for applying chemicals on it.
- » Product has great durability in different weather conditions, product won't be effected by storage.
- » Michelin inner tubes are produced only for textile purposes.

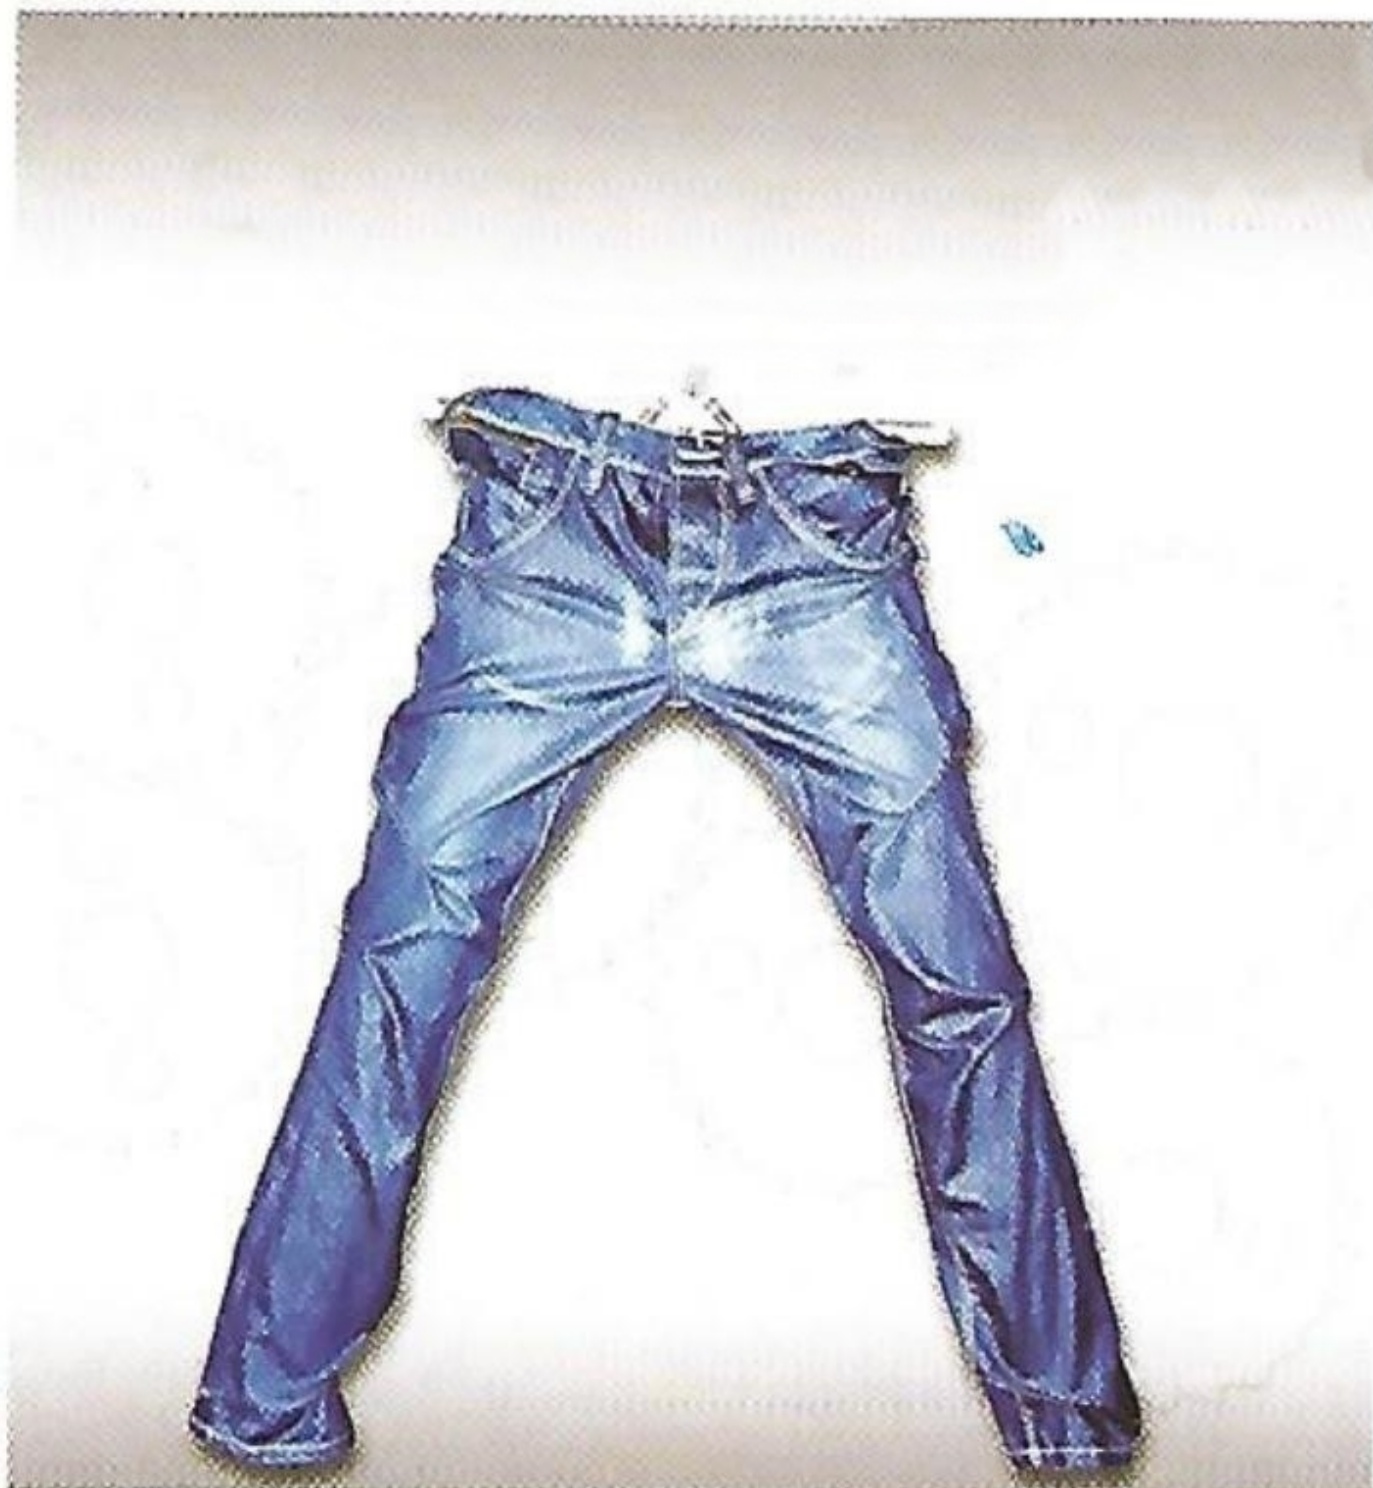

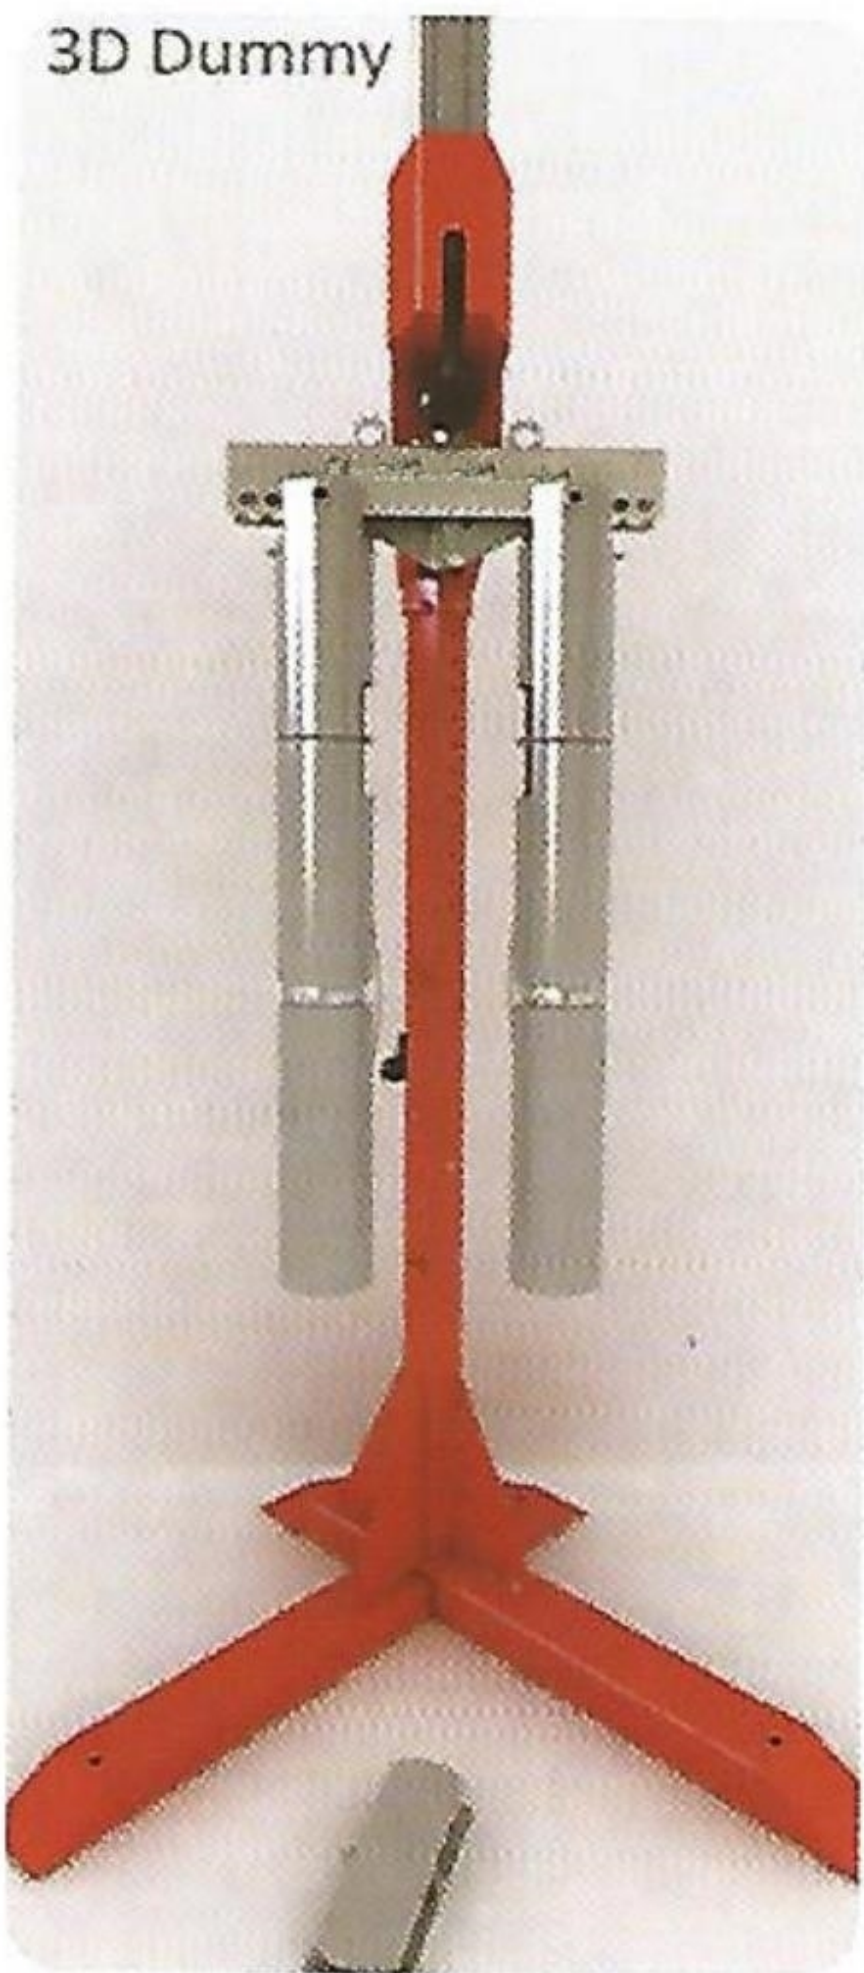

3D Fixation mannequin

Easy to use

You can make 3D effect by courtesy of rotative legs and knees

Fixation Mannequin (Leg Crinkle)

Weight: 3 kg

Leg Length: 90 cm

Adjustable Waist
