#YOURSTORY

The story of Almila started 10 years ago in a 90sqm workshop with the dream of designing high quality and pleasant rooms full of surprises. Rooms where children will write bold stories. This dream wrote the very first lines of this story.

Every word they wrote that day, has made them Turkey's highest quality baby, kids and teen furniture with a production area of 30.000sqm today. Almila has made the brand name known all over the world.

Believing that success is an absolute result, it has become a popular brand with high employment power, exporting to +50 countries and having +300 sales points around the world. Together with their belief that dreams can be designed in rooms, they gave life to Almila Life. Today, Almila Life adds design to lives with its 5 different categories.

Almila is a story of faith and persistence. This story, which a team that dreams of growing up in more beautiful rooms dared to write, inspires the dreams of +100,000 children today.

For a vision of delivering a green and habitable future to the children, in Almila;

With **Solar Power Plant (SPP/GES)**, all electricity consumption in the facility is generated through renewable energy sources.

With the **Biomass Power Plant**, the waste generated in the production processes are collected and converted into a source of heating material. In this way, the entire heating need of the facility is provided by the biomass power plant.

The **ISO 9001 Quality Management System** is used while implementing its mission of producing innovative and environmentally friendly products in harmony with nature.

Renewability and sustainability investments will continue so that every child can write their own story in the future with **#YourStory**, which is the founding motto of Almila, with the purpose of leaving a habitable world made possible with sustainability, to the children.
