

*"spread From Source
To The World"*

OUR FACILITIES

**179.000 M² PRODUCTION,
PROCESSING AND PACKAGING FACILITY**

Our products are produced in ISO 22000:2005, IFS and BRC certified, fully automatic processing and packaging facilities with a total area of 179 thousand square meters located in Turkey and world cities such as Istanbul, Izmir, Manisa, Mersin, Antalya, Denizli, Bursa, Isparta, Hatay, Samsun, Adana, Poland, Belarus, Bulgaria, and each product is produced with Uçak Kardeşler quality.

OUR GREENHOUSES AND GARDENS

**1.700.000 M² FULLY AUTOMATIC
GREENHOUSE**

**12.500.000 M² KIWI, GRAPE
AND CITRUS ORCHARDS**

Uçak Kardeşler, the largest producer in Turkey with over 1300.000 m² of fully automatic greenhouse systems, the majority of which are tomatoes, is also able to produce strawberries all season with strawberry greenhouses installed on a total area of 850 acres, including citrus production and 6.500.000 m² hydroponic agricultural greenhouses in different regions of Turkey.

OUR COLD STORAGE FACILITIES

**34.000 TON CAPACITY
COLD STORAGE FACILITY**

Uçak Kardeşler's cold storage facilities have special air conditioning and atmosphere control systems, with a capacity of 34 thousand tons. Uçak Kardeşler, which is in demand for a full year, can supply grapes from its warehouses in January and lamas lemons in July on the first day of freshness. The product you require is available in Uçak Kardeşler warehouses throughout the year in the freshness where it is collected from the garden.

OUR LOGISTICS AND PLASTIC CRATES

155 TRAILER TRUCKS WITH REFRIGERATED TRAILERS

Uçak Kardeşler has a huge logistics network with the ability to transport 24/7 with a fleet of more than 150 refrigerated trucks located on site. Uçak Kardeşler also produces its own plastic cases that are harmless to human health with 14 plastic injection machines located in its facilities, thereby reducing costs to a minimum, creating a more competitive price for the products it offers to its customers and providing a great advantage to its solution partners.

STRAWBERRIES 4-SEASONS HYDROPONIC PRODUCTION

350.000 M² HYDROPONIC • 500.000 M² REGULAR PRODUCTION

Uçak Kardeşler company has strawberry greenhouses covering an area of 850 thousand square meters, including 350 thousand square meters of hydroponic agricultural greenhouses, and can produce 4.500 tons of domestic strawberries all season. Furthermore, project is being done on the shocking (IQF) facility, which will have an area of as thousand square meters and a capacity of 5 thousand tons and will be completed by the end of 2022.
