Corporate Presentation

Fast, sustainable & high quality solutions for your standart & custom design products

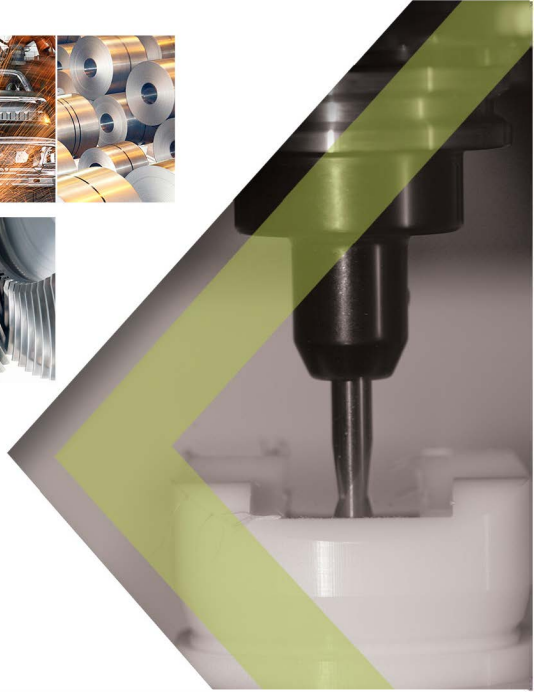

• Petrochemical • Iron & Steel • Construction • Food Industry
• Machinery Industry • Automotive • Marine • Heavy Equipment

ABOUT US

Ketefsan was founded as a family company in 1999 for producing high quality products from engineering plastics for all industrial applications. KETEFSAN extends the product range and production capacity every day with its investments on manufacturing.

KETEFSAN is basically performing design and manufacturing of finished (rod, tube, sheet form) standart and custom made - for purpose products of ENGINEERING PLASTICS in scope of State-of-Art Machining, according to drawings and samples with highest tolerances.

Also performing design and manufacturing of specific products as spare parts for ELECTROSTATIC POWDER COATING and ENAMEL POWDER COATING GUNS.

Grow Your Business with Ketefsan

Mission

Our mission is to fulfill the expectations of our customers at highest level by developing our product and service quality continuously and creating strong emotional bonds for generating customer loyalty.

Vision

Our vision is to become a pioneer, trustworthy company which increases its productivity and industrial efficiency constantly at our domestic and global market.

Your Global Partner

With all our experience in state - of - art machining;
we produce globally proved quality and trust

With our customer oriented concept;
We deliver the most convenient solutions
like production, technical service and
consultation to our customers by our
experience in manufacturing,
proven quality and innovative
engineering approach.

- **Experience**
- **Commitment**
- **Sincerity**
- **Reliability**
- **Competence**
- **Trust**

Russia - Ukraine - Azerbaijan - Iran
Israel - Greece - Germany - Italy
France - Estonia - England

Semi finished, finished & custom design
Machined Engineering Plastics
products for all industrial applications.

Products

Semi - Finished Products

- PTFE (TEFLON) • POM (DELTRIN) • PE(POLYETHYLENE)
- PA6 (POLYAMIDE) • PA6G(CAST- POLYAMIDE)
- PP (POLYPROPYLEN) • PVC(POLYVINYLCHLORIDE)

Applications

- Sealing Elements (Gaskets, O-Rings, V-Rings, Piston-Mill Seals, Valve sets, Diaphragms)
- Piston Rings(Hydraulic Rings, Wear Rings)
- Bearings(Tape Bearings, Guides)
- Bellows
- Gears
- Industrial Bakery Parts(Piston, Sheaves, Roller)
- Spare Parts For Electrostatic Powder Guns
- Machinery Parts(Expansion Joints, Sheaves, Pulleys)

Sectors

- Petrochemical • Iron & Steel • Construction • Food Industry
- Machinery Industry • Automotive • Marine • Heavy Equipment

Powder gun spare parts for all brands
off electrostatic powder -
enamel powder coating systems.

Products (Standart Group)

- Tribo & Corona
- Spare Parts for Enamel Powder Coating Guns
- Sprayhead and Nozzles for your special painting applications
- Filter Groups
- Paint Hoses
- Pneumatic Equipments

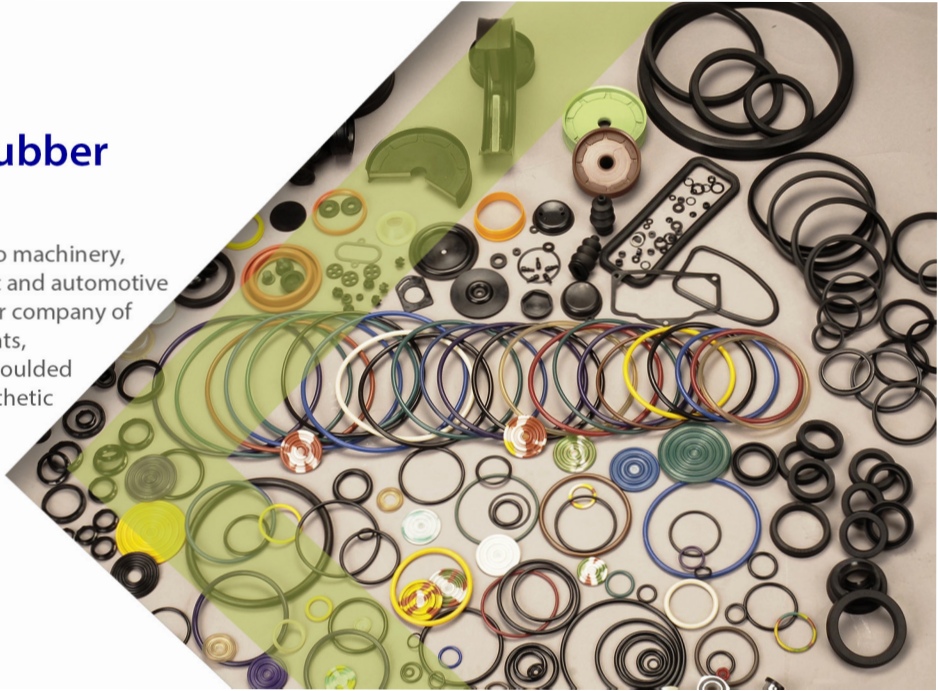

Brands

- Gema • Wagner • Nordson
- Electron • Omega • Strong • Mikron

Technical Rubber Products

KETEFSAN is serving to machinery, hydraulic – pneumatic and automotive industries as a supplier company of rubber sealing elements, gaskets and various moulded rubber parts from synthetic rubbers (NBR, HNBR, Silicone, FKM-Viton, CR-Chloroprene, EPDM, SBR, ECO and more).

Quality Policy

Ketefsan Engineering manufactures products in compliance with EU specifications and international standards.
