## ABOUT US

### RIISING STAR OF LOGISTICS SECTOR

Laying its foundations related to the sector in 90's **LOGITRANS** started its activities in 2006 by establishing its current management structure, work team, and receiving its trademark registration certificate.

With the primary goal of providing transparent, innovative services to international companies from a single center, **LOGITRANS** vision is to become a Turkish company, which completed its branding process, continues providing integrated end-to-end logistics services in global market in an environmentally friendly manner.

The company provides storage, customs clearance, e-commerce integration solutions, e-export, B2B, B2C delivery solutions as well as multimodal and intermodal solutions tailored to the needs of the customers in addition to road, railway, marine and airline services across a wide market network including Asia and Europe with its rich fleet, expert staff, Turquality support and international experience.

## OUR MISSION AND OUR VISION

### MISSION

We are providing transparent, innovative logistics solutions to international companies from a single centre.

### VISION

To become a Turkish company, which completed its branding process, continues providing integrated end-to-end logistics services in the global market in an environmentally friendly manner.

## OUR SERVICES

### ROAD FREIGHT

**LOGITRANS** provides partial and complete vehicle transportation services in continents with its young and dynamic staff. Our company develop fast, top quality and reliable transportation solutions with its wide service network, extensive and strong agencies, operational expertise, customer and solution oriented service mentality. We provide special solutions for several sectors including textile, automotive and construction. All of your logistics needs are solved with the expertise of **LOGITRANS** thanks to customs clearance and insurance services, cross transportation models, 3 country transportations and internal transport services.

#### Some of our services

- Complete and partial transportation services to all countries, particularly to Russia, CIS (Commonwealth of Independent States), East Europe.
- Customs clearance procedures for complete and partial loads in Ukraine, Russia and Kazakhstan.
- Out of gauge load transportation services on a global and local scale.
- Cross transportation models in the whole Europe, Asia and CIS geographies.
- Unbonded warehouse services in Kazakhstan, and both unbonded and bonded storage services in Turkey and Georgia.
- Internal transportation (inland haulage) services in Russia and Kazakhstan.

## OUR SERVICES

### WAREHOUSE SERVICES

**LOGITRANS** provides unbonded and bonded storage services through its warehouses in İstanbul Asian Side, Kazakhstan and Georgia by blending the capabilities of its experienced personnel with warehouse software and advanced information technologies infrastructure. Preserving the load to be delivered or received throughout the process, safe transfer of the load in cross transportation processes, managing inland haulage processes are among the several fields in which the company provides service

**Logitrans** provides end-to-end solutions in all processes of logistic operations with WMS, TMS, CRM software developed by its software team, and its integration infrastructure. In this way, the company ensures that all processes are flexible, accurate and measurable thanks to the management of customer operations, particularly storage services, and shipment operations.

### CUSTOMS CLEARANCE SERVICES 1/2

**Logitrans** is a company that is capable of providing services on an international scale, completing its cutting edge technology investments in customs clearance operations with its ethical management mentality, dynamic and experienced team. In addition to İstanbul management and operational services, we carry out all kinds of customs consultancy services that our customers need at the customs administrations in cities and provinces with excessive work load through our branches and contact offices. We provide consultancy and various services with advantageous prices in International Logistics, Domestic Shipping, Bonded General Warehouse, Free Storage, Foreign Trade, Insurance and Informatics fields to customers, for which we carry out customs procedures.

#### Some of our services

- Import Customs Clearance
- Export Customs Clearance
- Incentive Consultancy
- Technical Arrangements
- Legislative counselling
- Translation Services
- Collateral Solutions
- Legal Counselling
- Interactive Services
- Courier Services Some

### **CUSTOMS CLEARANCE SERVICES 2/2 WHAT ARE THE ADVANTAGES OF LOGITRANS?**

- Customs clearance procedures for complete and partial loads in Ukraine, Russia and Kazakhstan.,
- "Professional Liability Insurance" developed for customer satisfaction,
- Consultancy service regarding customs legislation/tariffs/applicable laws,
- Preliminary studies for imported products and comprehensive reporting process on all commercial activities,
- Online work tracking and access to digital archive data.

## OUR SERVICES

### PARTIAL TRANSPORTATION

**Logitrans** is ahead of its competitors also in partial transportation thanks to its experience and quality assurance like in all the other services. Logipartial is an advantageous solution offer to all customers who seek optimum solutions in international transportation, particularly in CIS and European countries. Managing customs clearance, insurance and storage service from its own corporate center within the scope of 360-degree service mentality, **Logitrans** stands out from its rivals by providing storage, inland haulage and transfer services.

Minimum product transportation ensure continuity in advantageous prices through the management of delivery process from the central transfer warehouse in İstanbul Orhanlı, until the country of loading requested

### Some of our services

- Partial transportation service to all destinations, where we provide service, CIS and European countries being in the first place.
  - Real transit time estimation and checks
  - Storage and loading operations
  - Inland haulage and transfer services
  - Warehouse-to-door delivery service
- Logitrans** 360-degree service mentality provided with insurance, customs clearance and storage services

## OUR SERVICES

**YOU CAN FOCUS ON YOUR BUSINESS...  
LET LOGITRANS CARRY ALL YOUR LOADS AND RISKS!**

### INSURANCE SERVICES 1/2

Your load is under the assurance of **Logitrans'** New Value-Added Service **LOGITRANS TRUST INSURANCE** for your full confidence in your commercial activities. We secure all your shipping risks that you may encounter in your shipments with ALL RISK policy guarantees. Enjoy the luxury of managing all your damages from a single center with our professional claims consultants. It is your right to carry out your commercial activities in confidence for all your logistical needs. In line with this sense of confidence, it is our fundamental duty to carry the products we receive from you safe and sound until the delivery point, and insure your products in case of damages because of a driver or vehicle related negligence.

We zeroize the unexpected damages and losses in your transportation processes within the scope of **Logitrans** Trust Insurance eliminating all the concerns that you might have.

#### Why Should You Use LOGITRANS Trust Insurance?

- **LOGITRANS TRUST INSURANCE** is within the scope of ALL RISK, the most comprehensive policy among all Shipping Policies.
- **Logitrans** provides advantageous prices due to the agreements that the company has drawn up with insurance companies.
- In case of possible damage, manage all your damage processes from a single center with professional team support, thanks to our expert team

### INSURANCE SERVICES 2/2

**Do I need Logitrans Trust Insurance when I have CMR insurance for international shipments?**

CMR insurance is not insurance for the loaded goods. In cases where the carrier is found guilty according to the CMR convention, it also guarantees the liability arising within the limits specified by the convention. **Logitrans** Trust Insurance, on the other hand, it guarantees all risks that may be encountered in transportation with ALL RISK policy coverages.

**Does CMR insurance cover all the damage?**

CMR insurance does not cover all the damage. In CMR convention, the responsibility of the carrier is calculated on the basis of Weight of the Load \* 8.33 \* SDR formulation. Like all currencies, SDR exchange rate also varies according to exchange rate conditions. In this case, the amount to be paid by the carrier in case of damage to the cargo with a load value of 10.000.0 \$ and a total of 10 kg is calculated as:  $0 * 8.33 * 1.39422 = 116.13 \$$ .

**Can I transport without Logitrans Trust Insurance?**

**Logitrans** Trust Insurance is a customer-oriented plus service, which is recommended for products transported by **Logitrans** vehicles and is offered at very reasonable costs for the market. This service is provided for the purpose of minimizing customer's share of exposure in case of adverse conditions in the process of load transportation. You sure can proceed with your transportations without purchasing **Logitrans** Trust Insurance option, insure your products through another company or send the goods without any insurance.

## OUR SERVICES

### FAIR TRANSPORTATION

With the globalization of the world, the importance of fairs has increased even more and it has even become obligatory for some business lines.

As **LOGITRANS**, we provide logistical support to our customers for the fair they want to attend worldwide. From the delivery of the products to the storage of empty containers, we also apply customs clearance and insurance operations within the scope of 360-degree service.

#### Some of our Services

- Door-to-fair delivery
- Storage of empty containers
- Insurance services
- Management of customs processes

### SPECIAL PROJECT TRANSPORTATION

**LOGITRANS** attaches a significant importance to special project transportation in its range of services. **LOGITRANS** delivers out of gauge goods with excessive tonnage and/or bulky volumes within optimum periods and lower costs thanks to its experience in this field.

Based on the fact that each out-of-gauge transportation process has its own dynamics, **LOGITRANS** develops a transportation plan specific to each project. In this way, the company achieves the goal of delivering products safely and without any problems

#### Some of our services

- Multimodal and heavy cargo solutions
- Storage and transfer solutions
- Crane rental, material fixing services
- Project specific insurance products
- Management of customs processes  
Receiving transit certificate and necessary permits for out-of-gauge and project specific transportation procedures

## OUR SERVICES

### LOGITRANS EXPRESS TRANSPORTATION

There are some urgencies in trade, such as a small piece of machinery that needs to be sent immediately or a fabric chart, which can cause major problems if it does not reach the fair. As always, **LOGITRANS** comes to your rescue with such situations with limited time and budget, this time at express speed.

Choose **LOGITRANS** to avoid losing time and for enjoying affordable prices at the airport.

You can contact us to get detailed information about the routes determined in line with your requests, especially Romania, the Balkans and Europe, and to find out more about the price offers.
