## MAXI 200

- Saldatrice con tecnologia ad inverter. Leggero, compatto ed affidabile. Adatta per elettrodi rutilici, basici, inox, ghisa.
- Poste à souder avec technologie Inverter, léger, compact et fiable. Pour électrodes au rutile, basique, inox et fonte.
- Inverter technology welding machine, light, compact and reliable. Suitable for rutilic, basic, stainless steel, cast iron electrodes.
- Equipo de soldadura con tecnología inverter. Ligero, compacto y fiable. Adapta para electrodos rutilicos, básicos, inoxidable y de fundición.
- Schweißgerät mit Inverter Technologie, leicht, kompakt und zuverlässig. Für Rutil - Basic- Edelstahl und Gusseisenelektroden geeignet.
- Сварочный инвертор. Подходит для электродов с рутитовым, основным и целлюлозным покрытием, электродов для чугуна и нержавеющей стали. Встроенная функция аргоно-дуговой сварки наподнятой дуге.
- İnverter teknolojisine sahip kaynak makinesi, küçültülmüş ve hafif tasarımıyla güvenli kaynak makinesi. Rutil, bazik, paslanmaz ve döküm elektrotlarına uygundur.

## MIG 210

- Saldatrice a filo, MIG-MAG-TIG-MMA con controllo a microprocessore per la saldatura. Indicata per applicazioni in carpenteria e in carrozzeria, per la saldatura di lamiere zincate ad alta resistenza HSS, inox ed alluminio.
- Soudeuse à fil, MIG-MAG-TIG-MMA avec commande par microprocesseur pour le soudage. Convient pour les applications en menuiserie et en carrozzeria, pour le soudage de tôles galvanisées HSS haute résistance, inox et aluminium.
- Wire welder, MIG-MAG-TIG-MMA with microprocessor control for welding. Suitable for applications in carpentry and in bodywork, for welding high resistance HSS galvanized sheets, stainless steel and aluminum.
- Soldadora de hilo, MIG-MAG-TIG-MMA con control por microprocesador para soldadura. Adecuado para aplicaciones en carpintería y en carrozzeria, para la soldadura de chapas galvanizadas HSS de alta resistencia, acero inoxidable y aluminio.
- Drahtschweißgerät, MIG-MAG-TIG-MMA mit Mikroprozessorsteuerung zum Schweißen. Geeignet für Anwendungen in der Tischlerei und in Karosserie zum Schweißen von hochfesten verzinkten HSS-Blechen, Edelstahl und Aluminium.
- Сварочный аппарат МИГ-МАГ-ТИГ-ММА с микропроцессорным управлением для сварки. Подходит для применения в столярных работах и в Кузов для сварки оцинкованных листов HSS с высоким сопротивлением, нержавеющей стали и алюминия.
- Gazaltı kaynak makinesi inverter Dc Kaynak, AC-DC Kaynak, alüminyum ve tig kaynak yapabilme özelliği. Makaralı tel ve sürme torç kullanımına uygundur.

## UNITIG 200 HF PULSE

- Saldatrice con tecnologia a inverter per la saldatura TIG DC. Equipaggiata di alta frequenza per l'accensione della torcia.
- Poste à souder avec technologie Inverter pour la soudure TIG DC. Equipé de haut fréquence pour l'allumage de la torche.
- TIG DC welding machine with inverter technology. Equipped with high frequency.
- Equipo de soldadura con tecnología inverter para soldadura TIG DC. Equipado con alta frecuencia para el encendido de la antorcha.
- Schweißgerät mit Inverter Technologie für das WIG DC Schweißen. Ausgerüstet mit hohen Frequenzen für das Entzünden des Schlauchbrenners.
- Профессиональный сварочный инвертор для аргодуговой сварки TIG и электродной сварки на постоянном токе. Высокочастотный поджиг и автоматический газовый клапан. Большие разъемы для сварочных проводов, высокая эластичность и стабильность горения дуги, минимальное разбрызгивание металла, улучшенная система принудительного охлаждения, управляемая электроникой. Функции контроля силы дуги Arc Force, "горячий старт" и защита от прилипания электрода.

## PLASMA 40 COMPRESSOR

- Soldatrice portatile per il taglio al plasma ad aria compressa. Utilizzata per il taglio veloce senza deformazione di alluminio, rame, acciaio inox, acciaio galvanizzato, ottone.
- Poste de soudage portable pour le coupage plasma avec de l'air comprimé. Utilisé pour une coupe rapide sans déformation de l'aluminium, le cuivre, l'acier inoxydable, acier galvanisé, laiton.
- Portable welding machine for compressed air plasma cutting. Used for fast cutting without deformation of aluminum, copper, stainless steel, galvanized steel, brass.
- Soldadora portátil para corte por plasma con aire comprimido. Se utiliza para el corte rápido sin deformación de aluminio, cobre, acero inoxidable, acero galvanizado, latón.
- Tragbare Schweißmaschine für das Druckluft Plasmaschneiden. Für schnelles Schneiden ohne Verformung von Aluminium, Kupfer, Edelstahl, verzinktem Stahl, Messing.
- портативный сварочный аппарат для плазменной резки со сжатым воздухом. Используется для быстрой резки без деформации алюминия, меди, нержавеющей стали, оцинкованной стали, латуни.
- Alüminyum, bakır, paslanmaz çelik galveniz, demir ve piriçte bozulmadan düzgün kesim yapmayı sağlar.

## TC 350

- Caricabatteria semiprofessionale 1 PH 12/24 V, ideale per batterie da 35Ah-660Ah ed avviatore da hobbista.
- Chargeur de batterie 1 PH 12 V, semi-professionnel, idéal pour charger les batteries 35Ah-660Ah avec démarreur pour le bricoleur.
- 1 PH 12 V, semiprofessional battery charger for charging battery 35Ah-660Ah with hobbyist booster.
- Cargador de batería semiprofesional 1 PH 12 V, ideal para baterías de 35Ah-660Ah y ayuda de arranque para hobbista.
- 1 PH 12 V, halbprofessionelles Batterie ladegerät, ideal zum Aufladen von 35Ah-660Ah Batterien, mit Anlasser für den Hobby Gebrauch.
- Полупрофессиональное однофазные пуско-зарядные устройства. Подходят для батарей емкостью до 12В. Идеально подходит для батарей емкостью до 35Ah-660Ah.
- Yarı profesyonel akü şarj makinesi 12 volt monofaz.

## POWER 1600

- I** Avviatori portatili a batteria, adatti all'avviamento a 12 V di auto (fino a 40 Ah). Collegati alla presa accendisigari del mezzo, mantengono sottotensione tutti i circuiti nel cambi batteria, o altresì una fonte di energia a 12 V in casi di emergenza. Non danneggiano l'elettronica del veicolo e consentono di effettuare numerose operazioni di avviamento prima della conseguente ricarica. E' possibile ricaricare\* POWER attraverso l'apposito alimentatore collegato alla tensione di rete, oppure attraverso la presa accendisigari del mezzo. Completati di alimentatore 230 V AC 12 V DC, cavo positivo-negativo con pinze, lampada da 3,6 W, spina e cavi per accendisigari. Il modello POWER 1600 è dotato di compressore con capacità di comp. 260 PSI.
- II** Démarreur portable avec batterie, adapté pour le démarrage à 12V des voitures (jusqu'à 40Ah). Connecté à l'allumecigare du véhicule, en maintenant tous les circuits sous tension lors le hangement de la batterie. En cas d'urgence ils sont une source d'alimentation 12V. Ils n'endommagent pas les composants électroniques du véhicule et permettent d'effectuer nombreuses opérations de démarrage avant d' devoir être rechargée. L'appareil POWER peut être chargé avec l'adaptateur d'alimentation fourni, connecté à la tension du réseau ou à l'allume-cigare du véhicule. Fournis avec alimentation 230V AC 12 V DC, cables positifs et négatifs avec les pinces, 3,6 W lampe, prise et le câble pour allume-cigare. Le modèle POWER 1600 est équipé de compresseur avec 260PSI de capacité.
- III** Portable, battery - powered starters, suitable for 12 V starting of cars (Max 40 Ah). When connected to the cigar-lighter outlet they maintain the voltage on all circuits during battery charges, they are also a 12 V. They do not damage the electronic of the vehicle to make a large number of starting operations before being recharged. POWER can be recharged\* using the special power supply, connected to themain network, or using the cigar lighter outlet of the vehicle. Complete with 230 V AC 12 V DC, power supply, positive-negative cables with clamps, 3,6 W lamp, plug and cables for cigar lighter. The POWER 1600 model has a compressor and its maximum compressor capacity is 260 PSI.
- IV** Arrancador de batería portátil, adecuado para el arranque a 12 V de coches (Hasta 40). Conectado a la toma del encendedor de cigarrillos central, mantiene bajo tensión todos los circuitos en los cambios de batería; además es una fuente de energía de 12 V en casos de emergencia. No dañan la electrónica del vehículo y permiten efectuar numerosas operaciones de arranque antes de la siguiente recarga. Es posible recargar\* POWER a través del relativo alimentador, conectándolo a la tensión de red o a través de la toma del encendedor de cigarrillos. Equipados con alimentador 230 V AC 12 V DC, (POWER 1600-2100), cables positivo negativo con pinzas, lámpara de 3,6 W, enchufe y cables para encendedor de cigarrillos. El modelo POWER 1600 se equipa con compresor con capacidad de 260 PSI.
- V** Tragbare batteriebetriebene Starter, geeignet für das 12V Starten von Autos (bis 40AH). Angeschlossen an den Zigarettenanzünder des Fahrzeugs, hält beim Batteriewechsel alle Stromkreise unter Spannung. Ist in Notfällen eine 12V Energiequelle. Beschädigt die Elektronik des Fahrzeugs nicht und erlaubt zahlreiche Start-Vorgänge, bevor es wieder aufgeladen werden muss. Das POWER - Gerät kann mittels dem mitgelieferten Netzteil an die Netzspannung oder über den Zigarettenanzünder des Fahrzeugsaufgeladen angeschlossen werden. Komplett mit Netzteil 230V ac 12 V DC, positive und negative Kabel mit Zangen, 3,6 W Lampe, Stecker und Kabel für Zigarettenanzünder. Das Modell POWER 1600 ist mit Kompressor von 260PSI Kapazität ausgerüstet.
- VI** Портативные стартеры с батарейным питанием, подходящие для запуска автомобилей с напряжением 12 В (макс. 40 Ач). При подключении к розетке прикуривателя они поддерживают напряжение на всех цепях во время заряда аккумуляторов, они же 12 В. Они не повреждают электронику автомобиля, чтобы совершать большое количество пусковых операций до подзарядки. ПИТАНИЕ можно заряжать\* от специального блока питания, подключенного к сети, или от розетки прикуривателя автомобиля. В комплекте 230 В переменного тока 12 В постоянного тока, блок питания, плюс-минус кабели с зажимами, лампа 3,6 Вт, вилка и кабели для прикуривателя. Модель POWER 1600 оснащена компрессором, максимальная производительность которого составляет 260 фунтов на квадратный дюйм.
- C** Taşınabilir şarj edilebilir akü takviye cihazı 12 volt 40 amper aküler için uygun kullanılabilir. Araç çakmak çıkışına bağlandığında araç aküsünü takviye yapabilmek ve diğer araç elektrik sistemine zarar vermeden şarj edilebilir özelliği ile aynı zamanda şarj ederken araçtaki başka elektrik bağlantılarını da kullanılabilmek 12 volt dc 230 volt ac gibi harici cihaz çalıştırılabilmek özelliği bulunmaktadır. Ayrıca + ve - kablo bağlantı maşaları , 3,6 watt lamba, çakmak çıkışına uygun bağlantı kablo ve soketi ve Power1600 içinde 250 psi hava basıncı sağlayan kompresörde bulunmaktadır.
