CARRIÈRE DE TRAVERTIN

Travertine Quarry

Notre carrière est située à Kula, à environ 130 km du port d'Izmir. D'une superficie de 900.000 m², allant à 300 mètres de profondeur, c'est une réserve de 270.000.000m³, cette carrière est probablement la plus grande sur Terre. Les 3 sélections principales du marché mondial du travertin sont extraites à partir de cette même carrière :

Ivoire (Extra Light) - Light Classique - Noce

Tous disponibles en vein-cut et cross-cut. Grâce à un effectif de 150 employés produisant 24 heures sur 24, 7 jours sur 7, CEMAR peut garantir la livraison en toute sécurité de toute quantité avec sa production annuelle de matière première de 110.000 m³. De plus, pour relier la production au port d'Izmir, nous disposons de notre propre flotte composée de 10 camions.

Our quarry is located in Kula, Turkey about 130 km to the port of Izmir. Covering an area of 900.000m², going 300 meters deep, it is a reserve of 270,000,000 m³, it's probably the biggest travertine quarry on Earth. All three main colors of global travertine market are extracted from the same quarry:

Ivory (Extra Light) - Classic Light - Noce

All available as vein-cut or cross-cut. Thanks to a workforce of 150 employees producing 24 hours a day, 7 days a week, CEMAR can guarantee the safe delivery of any quantity with its annual raw material production of 110,000 m³. In addition, for connecting production with the Port of Izmir, we have our own fleet consisting of 10 trucks.
