

DELSA FILTER 2023

In 2005, in Osmaniye Organized Industrial Zone, KRON Filter San. ve Tic. A.Ş, production is here. As of the current situation, it produces over 3,500 filter types in a total of 20,000 m² closed area (open area 44.000 m²).

In a short time, it has completed the necessary infrastructure with Machinery, Molds and Equipment that can produce all kinds of Oil, Fuel, Air, Hydraulic, Cabin and Filter in the field of Automotive, Bus, Truck, Agriculture and Construction Machinery.

With the awareness that DELSA Filter's way of becoming an International Brand in the country and abroad is through quality, it has both Product Quality Certificates (TS,932,TS7407,TS5395) and System Quality Certificates (IATF 16949, ISO 9001, EAC, ISO 45001, ISO 14001). We showed our determination on the way.
