**Barrier Film Technology  
Standard Quality**

## About Us

We have been producing packaging solutions since 1970, it started with Polietilene productions and built our own Know-How and converted our production into barrier packaging.

Ak Sedef Plastik is a third generation family company, with a production plant and warehouse in Kocaeli and a contact office and warehouse in Istanbul.

Bottom Film with EVOH

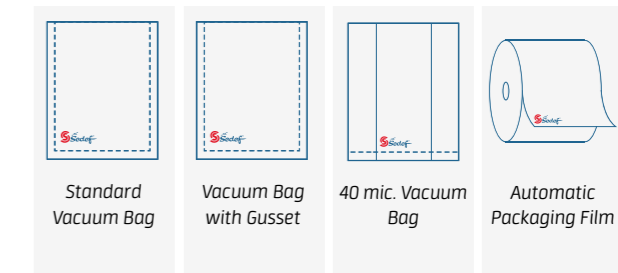

Middle or High Barrier

## Vacuum Packaging for Non-Food Products

We use vacuum and barrier packaging for non food /industrial packaging for it's unique puncture resistance and strength properties. Mostly we use vacuum bags for techical/ non food products packaging without vacuum; with decreasing the thickness of material for

- 1- Keep the package atmosphere clean and dry.
- 2- Reduce the packaging material amount and cost
- 3- To package with more sustainable and enviroment friendly way
