SLAB FACTORY

Ensar Marble, founded in the year of 1995, is among one of the leading marble manufacturers in Turkey. Ensar marble has two production centres facilities. The first plant is located on an area of 12,000 m² land which has 4,500 m² closed area. The second one is located on an area of 70,000 m² land which has 6,000 m² closed area.

Ensar Marble obtains raw materials from its own marble and travertine quarries in order to process for its customers. Ensar has a wide variety of high quality products which are Tiles, Slabs, Antique Stones and Pattern Sets. Ensar is also selling block of marble and travertine from its own quarries.

Ensar marble cares about customer satisfaction as a permanent rule. In order to do that, we care about the highest level of quality control. We train our employees seriously on this issue from production to packaging. At every step of production process, we give our best attention on our products. Therefore Ensar is working with the latest technological equipments, very skillful employees and qualified management teams. In order to exist persistently in this market, Ensar aims to increase the quality of production for its future plans.

Ensar Marble believes that Research&Development is very important for natural stone industry. That is why Ensar tries to keep up with this changes every day while making with new investments in this industry. Ensar aims to provide the best solutions for market trends with varied selection of materials.

BUCAK TRAVERTINE QUARRY

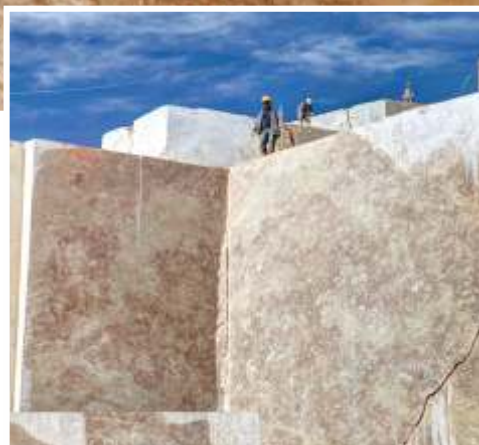

This quarry is located in Karaseki village which is 45 km away from Bucak province in the City of Burdur. Working conditions are available for 12 months period in our Bucak Quarry since the year of 2005. We have approximately 1,250 m³ block production capacity monthly. There are three kind of travertine selection extracted from this quarry which are noce, walnut and medium. The distance to the Port of Antalya is 70 km and the distance to the Port of İzmir is 480 km. Sales of blocks, slabs, tiles and all kind of cut-to-size products are available in our product list.

KORKUTELİ BEIGE QUARRY

This quarry is located in Taşkesiği village which is 40 km away from Korkuteli province in the City of Antalya. Working conditions are available for 12 months period in this quarry since the year of 1995. We have approximately 3,000 m³ block production capacity monthly. There are three kind of marble selection extracted from this quarry which are cream, cappuccino and rose beige. The distance to the Port of Antalya is 90 km and the distance to the Port of İzmir is 400 km. Sales of blocks, slabs, tiles and all kind of cut-to-size products are available in our product list.
