“THE MEANING OF LUXURY”

2023
COLLECTIONS

Brand Story

The story of GABBA began more than 50 years ago, with a passionate family man who praised Inegol's furniture throughout Turkey by knocking doors and having tea with shopkeepers of all regions. This furniture master was Ali Fener, who shared his years of mastery and valuable craft with his children, who then continued and advanced the tradition of quality furniture making to this day.

Gabba is the outcome of a valuable style which creates unique combinations, selecting and matching the most precious materials. Gabba works with talented designers who can interpret this style in the best way and the utmost expertise.

Gabba Factory, Inegol / Turkiye

Timeline

1978 - Ali Fener started to manufacture furniture in a small workshop in Şebinkarahisar district of Giresun Province, Turkey. Bedroom furnitures were the main component of his production.

1980 - By taking risk with pursue of excitement, he moves from Şebinkarahisar to İnegöl, the prominent city of Turkey's furniture production. Ringing the curtain up on furniture manufacturing in İnegöl, he takes a closer step to his dreams. This journey leads to the dawn of Gabba at the same time.

1990 - In addition to manufacturing, Ali Fener started to directly sell furniture in order to hold the high ground in the furniture retail market. He invested almost all of his earnings to establish a 300 sqm workshop. This workshop was an investment to the future of GABBA.

1998 - The first overseas sales furniture started with Greece.

2000 - As the capacity of production grew, Ali Fener and his team moved to a 12.000 sqm production area and started to manufacture sofas. Despite all challenges, Fener family offered top-quality furnitures to the retail market.

2001 - In May 2001, a new 65.000 sqm factory was established in Inegol and the brand of GABBA was born with great magnificence...

2003 - GABBA continued to bring a new flow of energy to the world of furniture manufacturing as the first abroad store opened in Hungary, with the help of hard work and powerful strategies. After passing this important bridge, GABBA was set to become a world brand.

2022 - Having started with the collective effort of the Fener family in late 70's and opening up to the world in early 2000's, GABBA continues to increase its brand value with rising momentum. Today, GABBA has stores in 69 countries across the world and in all cities of Turkey.

Respect for Nature

“*In nature, nothing is lost.
Everything changes.*”

A child wearing a helmet and a striped shirt is riding a bicycle in a field. The child is seen from behind, and the background is a soft-focus landscape. The overall tone is warm and nostalgic.

They are only kids!

“ *They have the right
to be children too.* ”

We believe that our children must be kept safe from economic exploitation and unfavorable actions that affect their education, health and development adversely. For this reason, we are here to fight against child labor. We want children to be at school and playgrounds, not in an industrial workshop. We wish our kids to be growing up with safety and their fundamental rights.
