*Good food from nature*

Mare is a family owned food company, specialised on Mediterranean foods. We have been working on Mediterranean foods, olives and pickled peppers particularly. Our family has been in the olive and olive oil business in all aspects; farming, processing, marketing and exporting for the past four generations. We have a 100 year old olive tree in our field, which is cultivated by our great grand father.

We have two production facilities in Turkey; one in Izmir, one in Bursa, as well as two exclusive industrial and agricultural centres. We make the processing and packaging of olives, peppers, pickles, olive oil etc. We also have olive fields in both Izmir and Bursa.

As well as our domestic market in Turkey, we have been making exportations to Europe. We have solely authorised distributors in United Kingdom, Switzerland, Poland, Serbia, Sweden and in Benelux (Belgium, Netherlands & Luxembourg).

As mentioned above, our main product range is Mediterranean foods; olives, olive oil, roasted aubergines, roasted peppers, garlic pickles, pepper pickles and jalapeño pickles. We also offer vine leaves, lemon dressing, pomegranate sauce, vinegars, jams, tahini and molasses.

In addition, we supply some catering size products: jalapeños, Greek peppers, roasted aubergine, pitted olives for salads and sunflower oil. Chickpeas, white beans and other pulses we sell in 25kg bags.
