**The Largest & Fully
Integrated**
Edible Oil Processing
Plant In Turkey

Growing with Love of Pure Flavor

With more than 25 years of vast experience in the international commodity trade through its affiliated companies around the World. AVES shows a prominent efficacy in the international trade for vegetable oil, meals, oilseeds and grains apart from biodiesel production, vegetable oil and petroleum storage and managing offshore marine terminal "SAVKA".

AVES has the largest fully integrated edible oil & biodiesel processing plant that covers 120 thousand square meters area in Mersin-Turkey, with a crushing capacity of 1,500 ton/day, refining 700 ton/day and 1,100 ton/day by two separate bottling units of 5 production lines, along with 1,000,000 ton/annual production capacity of vegetable oil varieties, residues and biodiesel.

The factory is equipped with storage silos of 84,000 cubic meters capacity and oil storage tanks of 28,000 cubic meters capacity. Factory also has a smart pallet rack storage system which is built on 3,000 square meters with a storage capacity over 5,000 euro pallets.

Our main brand "SAFYA" has enjoyed a gratifying reception in the markets abroad; thanks to AVES staff, who pays a close attention to all the stages starting the cropping process all the way to your dining tables. AVES has the third biggest oil and vegetable oil storage of Turkey established on an area of 220,000 cubic meters located in Mersin. AVES has a significant logistic (loading/discharge) advantage compared to its competitors due to its offshore marine terminal; "SAVKA". AVES completes its competitive chain of supply with location near of Mersin port.

**350.000 tons/year
(Bottling)**

**200.000 tons/year
(Refinery)**

**450.000 tons/year
(Crushing)**

AVES has two separate filling units furnished with the materials all of which are fit for foodstuff processing and the machinery and equipment of the highest quality. Factory can fill 1.100 tons per day on 5 production lines.

AVES has been certified from;

- ISO 9001: 2015 for its Quality Management System
- FSSC 22000 Food Safety
- ISO 14001: 2015 for the Environment
- OHSAS 18001: 2007 for the Occupational Health Safety
- ISO 27001 : 2013 Information Security
- TS 886 Edible Sunflower Oil Product Certificate
- TS 888 Edible Corn Oil Product Certificate
- TS 14214 : 2014 Liquid Petroleum Products Oil Acid Methly Esters
- TSE COVID-19 SAFE PRODUCTION , KOSHER and HALAL and Certificates
- AVES is an "A-1" FOSFA member since year 2010.

The highest quality raw and auxiliary materials are being analysed at AVEs's laboratory 24/7 with the latest technology at each stage of production.

aves

84,000 cubic meters of silo and **28,000** cubic meters of oil storage capacity

SAVKA Offshore Port & Terminal; One and Only in Turkey

For succesfull brand identity, ease of pouring, safe handling and good haptic perception slim waisted form is being designed. For unification of the label area with form aesthetically oil drop abstraction on label area is being created. All these concepts combining graphics, form, usability and aesthetics guaranteed success in sales.

For structural resistance of pet packaging we designed sunflower seed reliefs on surfaces. From the lid to shoulder, dynamic and relief neck like design also created a strong and resistant body for topload and vacuum problem. The form creating sense of possession is innovative, challenging but being easily produced.

All of our products;

It is produced in a facility that has certificates.

OUT-OF-HOME CONSUMPTION

Series

WILL BE
**INDISPENSABLE
FOR CHEFS!**

Safya Cuisine Chef has been specifically developed for the Out-of-Home Consumption and Professional Kitchens. **4-Piece Pet Product is a First in Professional Kitchens.**

Advantages

1

A formula specially developed for professional kitchens, prevents foaming or splashing during frying, which are the main cause of oil loss.

2

It is very resistant to high temperatures. It does not fume or burn.

3

With 6-stage flawless production, the products are light and odorless.

4

Since there are no barcodes on the labels, the bottles cannot be offered as one bottle to the markets.

5

The product, which is offered for sale as a 4-pet, provides the advantage of fresh use.

6

With the transparent packaging, the amount of use can be precisely adjusted.

7

In the use of pet packaging, do not encountered problems such as dust, moisture, rust and mold as in tin packaging.

8

Easy handle due to special box design.
