

PRODUCTION LINE

- **GANGSAW**
- **FURNACE (OWEN) LINE**
- **POLISHING LINE**
- **CUT TO SIZE**

GANGSAW

BY OUR 3 GANGSAW WE CUT OUR BLOCKS INTO THE SLABS ON 2CM AND 3CM. WE ARE CUTTING THE BLOCKS FROM OUR OWN QUARRY FOR MANY YEARS, SO WE ARE VERY EXPERIENCED ON THIS SELECTION AND MATERIAL.

FURNACE (OWEN) LINE

AFTER WE CUT THE SLABS IN 2CM AND 3 CM THEN THE SLABS GOES INTO THE OWEN LINE THAT WE HAVE 3 TOWERS LINE. BY THIS LINE SLABS ARE CONSUMING EPOXY IN A MAXIMUM WAY WITH THE HIGHEST QUALITY. ALSO WE ARE IMPLEMENTING BACKNET WHEN THE SLABS ENTER THE OWEN LINE.

POLISHING LINE

AFTER THE OWEN, SLABS HAVE THE EPOXY IMPLEMENTED BOTH SIDES AND ALSO BACKNET IMPLEMENTED. WITH THE POLISHING LINE AND OUR UV POLISHING WE ARE REACHING THE TOP QUALITY OF THE SLAB QUALITY ON THE FRONT SIDE. AND OUR CUSTOMERS ARE RECEIVING HIGHEST QUALITY SLABS.

CUT TO SIZE

AFTER ALL THE PROCESS OF SLABS, ACCORDING TO OUR CUSTOMERS PROJECTS OR REQUESTS WE ARE CUTTING THE SIZES AS THEY REQUESTED FROM US. OUR MOST PREFERRED SIZES ARE 2*30*60 AND 2*60*60 BY OUR CUSTOMERS.
