Baran Plastic Cleaning and Cosmetic Products

BARAN

Baran Plastic Cleaning and Cosmetic Products

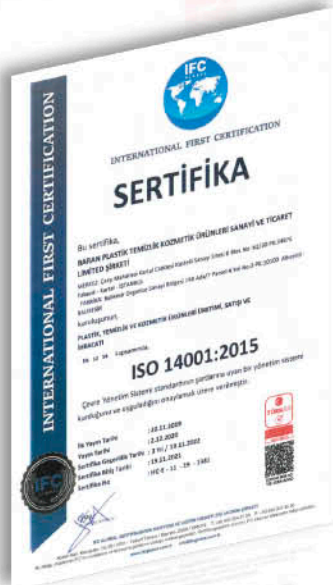

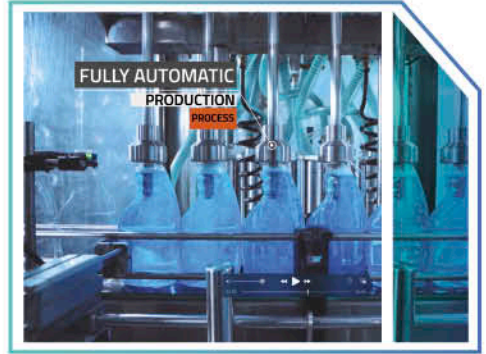

Since its establishment in 1991, Baran Plastik Cleaning and Cosmetic Products has been one of the leading manufacturers of cleaning products that it has produced for retail market groups both in the domestic and export field.

With its 5000 m² closed area and 11000 m² plant, it has an annual production volume of 3400 mt of solids and 3250 mt of liquid, and can sell to every region of the world.

It provides solutions to your needs by offering toilet bowl, reservoir blocks and household chemicals alternatives with "private label" products that offer hygiene and comfort for your houses.

Our company, which has a wide range of products with a transparent, reliable, quality management approach, carries out the entire process of the products it produces, from raw material to final product, within its own business.

Together with its R&D investments, machinery equipment and professional work team, it brings together sustainable quality with the consumer at the most fair price.
