## MISSION

Vakit Yapı's goal is to consolidate its place in the changing and growing global order. It is to shed light on the sector both in terms of business strategy and with new projects that have been or will be made. One of its main goals is to meet the needs of its customers in a timely manner and to keep the satisfaction of its customers at the highest level by preparing projects that are worthy of its brand and reliability in the sector.

## VISION

**The aim of Vakit Yapı is to renew and develop itself in every sector in which it operates.**

**In line with this purpose, to adopt innovation as a principle in the sectors in which it operates and to keep the understanding of quality at a high level. Its aim in the real estate sector, which is its main field of activity, is not to follow the innovations of the era, but to create new eras.**

- We started to work in the field of Contracting by supplying land with his own capital as a result of the experience and knowledge he gained by developing his commercial activities, which he started in 2010 with the aim of undertaking contracting works for the leading construction companies of the region.

- 
- VAKİT YAPI has a very experienced background in quality and innovative building projects in the sector. The company's construction arm works on projects that combine creative designs, luxurious details, inspiring spaces and superior architecture.
