# WHO WE ARE

Depar Group SOLi Lighting, founded in 1984, is a high-tech enterprise and ISO 9001 :2008, ISO140001 and OHSAS18001 certified and registered company. Currently, we have three fabrication areas of more than 10,000 square meters. Our company has advanced LED luminaire manufacturing and test facilities such as auto soldering and SMD machines, programmable constant temperature and humidity testing machine. High temperature aging oven, ultraviolet weather-proof machine, salt mist spraying testing machine. Lighting surge simulator, IP68 waterproof test machine, electrical testing device such as integrating spheres and distribution photometer. AOI tester, RoHS scanner, and an independent EMI laboratory as well. We also have a professional trained QC team to ensure the quality of all the products. And all the products are CE certified as well as the raw materials are RoHS compliant. SOLi-Lighting enjoys a high reputation as a LED light manufacturer throughout USA, Europe, Africa and the Middle East.

SOLi Lighting devotes itself to developing new products with state-of-the-art technologies. Our 10 people R&D team has abundant experience in industrial design, electronic driver, heat simulation analysis, optical lens design, light control system. Most of our products are self-designed with private molds. We quarterly develop more than 2 new products and 4 customized products. All our designs follow EU electrical safety standards. A customized design can be provided in 30 days tailored to the customer's request. SOLi Lighting focus on LED lighting and has been providing military, industrial, commercial, Ex-proof and residential lighting products for more than a decade.

We have grown to a large-scale manufacturer qualifying as vendor for UNOPS, US Military, Turkish Military, Turkish State, Nigerian State and so on, and have been recognized by hundreds of international partners and contractors. Soli Lighting has already provided inspiration for thousands of designers, architects, and engineers all over the world. With our customer, we actively explore the ideas in military lighting, area and stadium lighting, architectural, residential, commercial, industrial lighting and special auxiliary lighting.

One of our factories located in Ankara - Turkey equipped for the production of industrial lighting systems, military power systems and solar light towers with highly experienced engineers.
