ABOUT US

“A JOURNEY THAT STARTS WITH A DROP”

As ENDEMIKS TARIM A.Ş., we focus on the cultivation of fresh fruits and vegetables. Additionally, we produce frozen fruit juices to offer our customers fresh, natural, and healthy beverages.

Since our establishment, we have always worked to maintain the highest level of quality and do our best to meet our customers' expectations. We also share our expertise with our farmers in agricultural activities such as correct soil processing techniques, irrigation methods, and fertilizer use. We deliver our fruits and vegetables to our factory after special collection and selection procedures. We immediately press them with cold-pressed technique while they are still fresh. Our fruit juices are made only from the freshest and most delicious fruits, and our special shock-freezing process preserves the vitamins and nutrients.

Moreover, you can be sure that they do not contain any artificial sweeteners or preservatives. As a company, we prioritize our environmental awareness and adopt sustainable production methods. In this way, we offer both healthy and environmentally friendly products to our customers. If you want to do business with us, you can benefit from our customer satisfaction-focused service and our highest quality products. We are pleased to welcome anyone who wants to expand their business or adopt a healthy lifestyle among our customers.

FUTURE IS IN
NATURALITY

The word 'NATURALITY' is rendered in a bold, dark teal, sans-serif font. Each letter is partially filled with a different fruit: the 'N' contains a slice of grapefruit, the 'A' contains a slice of orange, the 'T' contains a slice of orange, the 'U' contains a slice of orange, the 'R' contains a slice of orange, the 'A' contains a slice of orange, the 'L' contains a slice of lemon, and the 'I' contains several strawberries. The background features light blue and white geometric shapes.

Product Information

"Our carefully selected fresh pomegranates are harvested from our fields and processed with utmost care in our factory. Firstly, the pomegranates are washed and sorted in a hygienic environment to separate the seeds. Then, using the cold-pressed technique, the seeds are carefully squeezed to create natural and delicious pomegranate juice without any human contact. To maintain the nutritional value, aroma, and flavor of our products, they are shock-frozen at -40 degrees as Fresh Frozen products. This ensures that the freshness of our pomegranate juice is preserved up to 99%. Our pomegranate juice is stored in -18-degree freezers and delivered to you with the utmost care and safety. Enjoy the refreshing taste and healthy benefits of our pomegranate juice that will add color to your life."

Unsere sorgfältig ausgewählten frischen Granatäpfel werden auf unseren Feldern geerntet und in unserer Fabrik mit größter Sorgfalt verarbeitet. Zunächst werden die Granatäpfel in hygienischen Umgebungen gewaschen und von ihren Kernen getrennt. Anschließend werden die Kerne mit der kaltgepressten Technik ohne menschlichen Kontakt vorsichtig gepresst, um natürlichen und köstlichen Granatapfelsaft herzustellen. Um den Nährwert, das Aroma und den Geschmack unserer Produkte zu erhalten, werden sie als Frisch Eingefroren Produkte bei -40 Grad schockgefroren. Dadurch wird die Frische unseres Granatapfelsafts zu 99% erhalten. Unser Granatapfelsaft wird in -18 Grad Gefriergeräten aufbewahrt und Ihnen mit größter Sorgfalt und Sicherheit geliefert. Genießen Sie den erfrischenden Geschmack und die gesunden Vorteile unseres Granatapfelsafts, der Ihrem Leben Farbe verleiht.

Product Information

Our oranges, which are collected from the fields, are carefully processed at our factory. First, our oranges are washed in hygienic environments. Then, they are squeezed using a cold-press technique without any human contact to transform them into natural and delicious orange juice. To preserve the nutritional values, flavors, and aromas of our products, they are produced as Fresh Frozen by being shocked at -40 degrees. This way, the freshness of our orange juice is preserved by 99%. Our orange juice, which is kept in -18 freezers, is stored carefully and presented to you safely. Add color to your life with the refreshing taste and healthy benefits of our orange juice.

Unsere Orangen, die auf den Feldern gesammelt werden, werden sorgfältig in unserer Fabrik verarbeitet. Zunächst werden unsere Orangen in hygienischen Umgebungen gewaschen. Anschließend werden sie ohne menschlichen Kontakt mit der Kaltpress-Technik gepresst, um in natürlichen und köstlichen Orangensaft verwandelt zu werden. Um den Nährwert, Geschmack und Aromen unserer Produkte zu erhalten, werden sie bei -40 Grad schockgefroren und als Frisch Eingefroren produziert. Auf diese Weise bleibt die Frische unseres Orangensafts zu 99% erhalten. Unser Orangensaft, der bei -18 Grad gelagert wird, wird sorgfältig aufbewahrt und sicher präsentiert. Bringen Sie mit dem erfrischenden Geschmack und den gesunden Vorteilen unseres Orangensafts Farbe in Ihr Leben.

Product Information

Our lemons, collected from the fields, are carefully processed in our factory. Firstly, our lemons are washed in hygienic environments. Then, they are squeezed using the cold press technique without any human contact. By adding natural beet sugar, they are transformed into natural and delicious lemonade concentrate. To preserve the nutritional values, flavors, and scents of our products, they are produced as Fresh Frozen by being shocked at -40 degrees. This way, our lemonade concentrate's freshness is preserved by 99%. Our lemonade concentrate, stored in -18 freezers, is carefully kept and presented to you safely. Add 4 liters of water to 1 liter of our lemonade concentrate to make it ready, and add color to your life with its refreshing taste and healthy benefits.

Die Zitronen, die auf den Feldern gesammelt werden, werden sorgfältig in unserer Fabrik verarbeitet. Zunächst werden unsere Zitronen in hygienischen Umgebungen gewaschen. Dann werden sie durch die Kaltpressungstechnik ohne Berührung ausgepresst. Durch die Zugabe von natürlicher Zuckerrübe wird es in ein natürliches und leckeres Zitronenlimonadenkonzentrat umgewandelt. Um die Nährstoffe, Aromen und Düfte unserer Produkte zu erhalten, werden sie bei -40 Grad schockgefroren und als Frisch eingefroren hergestellt. Dadurch wird die Frische unseres Zitronenlimonadenkonzentrats zu 99% erhalten. Das bei -18 Grad gelagerte Zitronenlimonadenkonzentrat wird sorgfältig für Sie aufbewahrt und sicher präsentiert. Verdünnen Sie unser Zitronenlimonadenkonzentrat mit 4 Litern Wasser pro 1 Liter Konzentrat und verleihen Sie Ihrem Leben mit seinem erfrischenden Geschmack und seinen gesunden Vorteilen Farbe.
