

IoTtech

IoTtech Biliřim Danıřmanlık Limited Őirketi

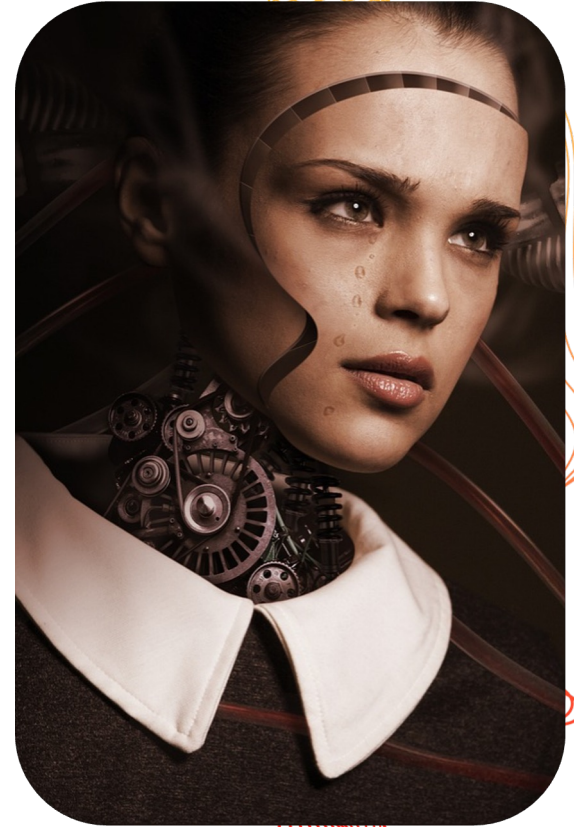

IoTech: Innovative Software Solutions

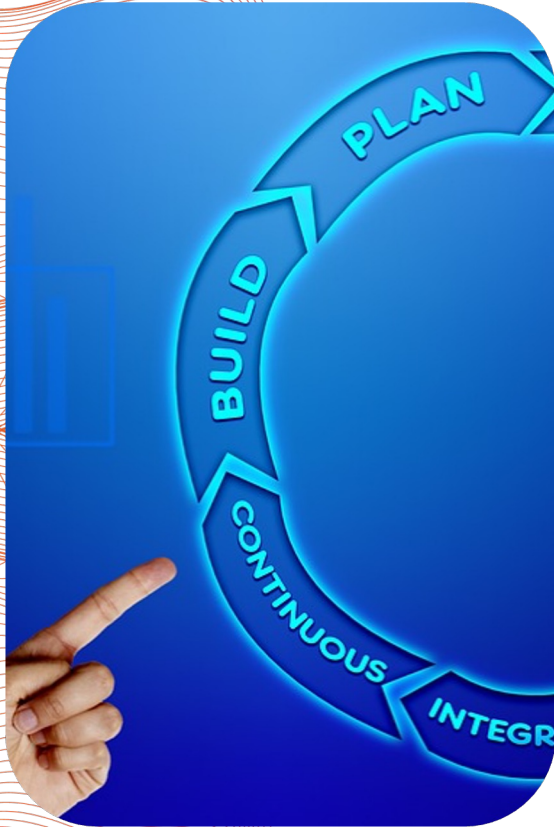

In 2018, IoTech was established with the backing of an affiliate company that specialized in SAP consulting. The initial objective was to develop non-SAP business products and applications that catered to the general requirements of SAP clients. Over time, our team expanded, and we broadened our focus to encompass numerous areas including web and mobile application development, data management, AI solutions, mobile game development, VR game development, and blockchain technologies. Additionally, we have also created VR healthcare applications that cater to the needs of patients undergoing psychiatric, psychological, and physiotherapy treatments.

IoT Tech: Innovative Software Solutions

IOTTECH provides tailored software solutions that help businesses automate their operations, reduce costs, and increase productivity. Our team of experienced professionals is committed to delivering the highest quality of service to our clients.
