

*"Premium Quality Fresh Apples From Turkey To All Over The World"*

[www.barff.com.tr](http://www.barff.com.tr)

**FRUIT  
OF  
FERTILE  
SOILS**

Our company established in 1992, as a fresh fruits and vegetables supplier in Ankara Wholesaler Market which is in capital city of Turkey by our father Arif ÇAMAŞIRCI. Recently our company continues its existence and operations in the most perfect way. BARFF have created a apple orchard in Karaman – Turkey which is about 400 decares and continues steady growth perfectly. We have began to exhibit our fresh and healthy premium Turkish apples in World Market under the brand of “BİBERCİ ARİF FRUITS (BARFF)” in 2018.

As a BİBERCİ ARİF FRUITS (BARFF),

To add more value to Turkish apples and other Turkish fruits; we have gained the mission to introduce and exhibit our apples, which are grown in our country and in our own plantation, in the competitive world market by using all our opportunities in the most beautiful way.

In addition, we are pleased to be a pioneer producer and continue our steady growth by closely following the developing technology and agricultural facilities and by applying them in our plantation.

Barff is a company specialized in storage and sale of apples. The apples are stored, assorted and packed in the establishment to further be sold to wholesale points and supermarkets.

The apples come from the best apple-growing areas of Anatolia, and they are subject to accurate monitoring already at the production stage. In close cooperation, apple-growing experts controls each processing cycle, from the supply to the delivery of packaged goods to final clients.

Constant upgrades of the equipment allow for increasing the capacity of sorting and packaging. Moreover, the advanced storage technologies guarantee fresh goods at any moment.

Owing to the years of experience in the field, the company can assure the highest quality that has always featured.

Thank you,

Best regards...

*Generations of apple cultivation that have continued for generations ...*

# GALA

**HARD,  
JUICY AND  
SWEET**

Gala  
Gala trees are powerful, bear fruit quickly and regularly, but the trees require regular pruning in order to achieve sizeable fruit. Fruit size is medium, 40-60% of the skin is striped orange-red. Flesh is firm and crisp, with a sweet flavour, and juicy. Suitable for long-term storage.

FERTILE  
SOILS**

**WORLD'S  
LEADING APPLE  
MANUFACTURER**

# GRANNY SMITH

**CRUNCHY FLESH,  
JUICY, SLIGHTLY  
ACIDIC**

## Granny Smith

Trees are strong and consistently bountiful. Fruit size is medium, with a spherical shape. Quality and type is unique. The variety has a green, oily and slightly corrugated skin, crunchy flesh, juicy, and slightly acidic, but aromatic also. Very susceptible to Oldium and spotting. Can be stored up to ten months in good condition; Early harvested fruit are subjected to "warm" treatment.

## Features

Crunchy flesh, juicy, slightly acidic. Suitable for storing.

# RED DELICIOUS

FRUIT FLESH IS  
CREAM

## Red Delicious

It is good for storing and durable to harvesting and transporting. Medium-Large size and elongated conical shape. Fruit flesh is cream White, morely soft, not so juicy, slightly sour, aromatic and sweet taste; performs best qualifications on right harvesting time.

## Features

Bright red, cream color fruit flesh, durable to storing.

# LANDS THAT ENLARGE OUR DREAMS

# JEROMINE

**SWEET AND JUICY**

Jeromine  
Trees are thin and medium strength. Grows in an upright position. Crossbreed of Early Red One. Fruits are dark red in colour, and have a bright skin. Highly attractive due to its colour. Suitable for storing. Medium firmness, juicy and sweet taste. Harvest starts in mid September

Features  
Bright red colour, firm, sweet and juicy.

# GOLDEN DELICIOUS

THE FLESH IS TIGHT,  
A LITTLE SOUR,  
VERY JUICY AND  
HAS PLEASANT  
SMELL

Golden Delicious  
Golden delicious apple is a kind of winter apple. The fruit is medium-sized, rounded and conical. The stalk is very long. The skin is dull yellow-green, very rusty and sparsely speckled. The flesh is tight, a little sour, very juicy and has pleasant smell. The average weight is 136 grams.

**FRESH  
APPLES**

## FUJI

**FIRM FLESH, JUICY,  
AND SWEET**

### Fuji

Trees grow laterally and upright , are very strong and produce consistent high yield crops. Fruit size ranges from medium to large, and colouration goes from yellow with orange tinges and red stripes. Fruit flesh is firm and crunchy, with sweet flavour and low acidity. Full, round taste and ripens after Granny Smith.

### Features

Firm flesh, juicy, and sweet..Suitable for storing.

# PINK LADY

FRUITS ARE  
MEDIUM SIZED,  
LONG CYLINDRICAL

Pink Lady  
Trees are semi-steep and very strong. Development on scrub and semi-dwarf rootstocks is good. Fruits are medium sized, long cylindrical. Fruit peel is pink on light yellow. The fruit reaches a perfect aroma when consumed a few months after harvest.
