

OKUMUŞ ÇAY VE GIDA SAN TİC AŞ

It was established in 1985 after granting authorization to private sector for tea production. Involved in timber trade and construction in Istanbul since 1946 its founder Mr. Ali Okumuş had noticed the lack of capability of the factories of Çaykur and laid the foundation for the tea factory in his village that he had left as a child.

CORPORATE

Vision

Produce quality and healthy teas by increasing the black tea considered as the national drink in Turkey. Elevate the value of Turkish tea in the world tea sector and increase the reputation of Turkish tea in the international markets.

Mission

Produce healthy and quality black tea at the highest level by using our equities effectively and efficiently with the latest and most advanced technology. To increase the value of and dignify Turkish considering the prosperity of our employees and suppliers. To contributed to development of our national tea sector.

Our History

Our founder departed Mr. Ali Okumuş said "I will establish a factory in my village if the tea production would be privatized someday" as he saw the efforts had been wasted by pouring the green tea to the creeks around since they were not purchased by the state owned factories which purchased limited amount of tea. In this manner the youth would be employed instead of slumbering at the local cafes and women would be employed, children would be happy; and above all the village once he mentioned "I walked out from there with my local pile shoes" would shine; and the voices of the machinery would mix with the voice of the creek.

After granting permission to the private sector in 1985 kept his promise of "establishing a tea factory" Mr. Ali Okumuş laid the foundation of Okumuş Çay ve Gıda San.Tic.A.Ş. at Çayeli. The first production could be made only at the 3rd shoot. Ali Okumuş after seeing the first product believed that he had the product of the efforts and problems experienced. He should find a name for the tea. He decided to name the tea as "Güzel Çay" that means "Beautiful Tea" as a name representing the beautiful energy of the region.

Today, the managers of Okumuş Çay ve Gıda San.Tic.A.Ş. and all parties involved in the process, Including the producers providing the green tea and the dealers selling the black tea to the consumers, believe in the fact that Turkish tea will have its deserved place in the world sincerely.

This difficult journey started in 1985 with 600 tons of processed tea; today is continued with the production capacity of 7.500 tons of processed tea, 300 employees and 15.000 producers.

QUALITY POLICY
