

INDUSTRIAL SOLUTIONS

COMPANY PROFILE

BRIEF

HIC is an active company in in the Middle East & North Africa in production, distribution, installation and maintenance of high quality crane systems and machinery.

HIC serving a wide range of customers, including manufacturing and process industries.

HIC is a "one-stop-shop" providing supplies, services and expertise. From project inception - to execution - to completion. Thus it offers clients with just one contact and supply point for all their specific needs.

Our production line includes overhead cranes, galvanising plants and equipments, and transfer cars.

Our supply chain services include turn-key fabrication projects, production lines, industrial machines, industrial materials, metal working machines and media broadcasting solutions.

Our reliable service and competitive rates are called to deliver you unmatched customer experience.

Just provide us with the information about your needs and our specialist will follow and provide you the best solution.

OUR TEAM

The company is managed by a team of professionals that has both management expertise as well as substantial experience in the relevant sectors in which its customers are engaged in.

Through its constant efforts to meet clients' ever-changing demands, **HIC** has gained an international reputation for Integrity, professionalism, and excellence.

The company has built up a network of operations throughout most of the Middle East, North Africa and recently, Central Asia.

Consequently, it has been able to actively assist in the development of business interests for many international companies and has developed solid business relationships over the years.

Customer services all around the world,
right around the clock.

RESPONSIBLE

HIC is a by-word for safety,
confidence and
cost effectiveness.

Our responsibility to our customer.

Specialists trained by us advise you on which products are right for your application. Planning, calculation and order processing are fast.

The lasting safety and cost-effectiveness of your machinery are very important to us. Qualified and competent service specialists, professionally trained, look after your systems throughout its service life, all around the world and right around the clock.

SERVICES

WE HELP YOUR STAFF TO KEEP UP TO SPEED.

Our services extend from world-wide prompt spare parts supply to individual, system-orientated maintenance using modern diagnostic apparatus, to annual inspections to ensure national accident prevention regulations are met.

Training courses and seminars in our own training centre also form part of the extensive services offered by HIC CraneSystems.

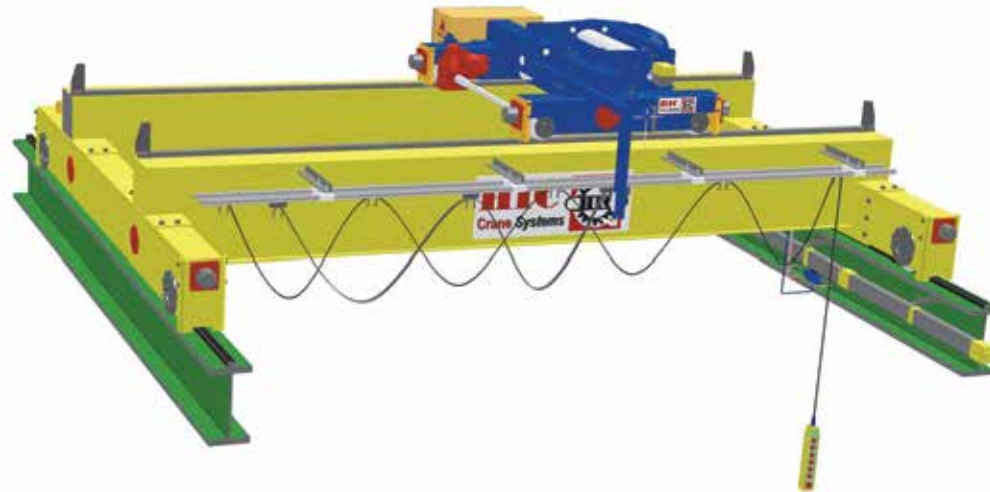

VISION

Our vision is to be the first choice for machinery supply in our region; using our knowledge and experience to make our customers' operations safer and more productive.

MISSION

Training courses and seminars in our own training centre also form part of the extensive services offered by HIC CraneSystems.
