CERTIFICATES

- ◇ All our projects meet up with set regulations and they go through control performance which is why we have **EN1090**
- ◇ Our welded parts go through magnetic, ultrasonic and radioactive tests to ensure that they meet up with the appropriate specifications which is why we have **ISO 3834-2**
- ◇ We do not only produce according to our customers' needs and wants. We make sure their specifications align to set regulations and suggest how the highest quality can be delivered in every project so we have **ISO 9001:2015**
- ◇ We value confidentiality. We carry out our business on the basis of always ensuring availability **ISO 27001:2013**

Our other certificates will be sent to you upon request

Cycle for Risk Management

Frequent training and communication are the basis for a safe working environment.

WAREHOUSE - AFGHANISTAN

SHOPPING MALL - TURKEY

An aerial photograph of a large stadium under construction in Turkey. The image shows the complex steel truss structure of the stadium's roof and seating bowl. The seating areas are partially visible, with some sections appearing to be covered in red material. The stadium is situated in an open area with some surrounding infrastructure visible in the distance. The text "STADIUM - TURKEY" is overlaid in the center of the image.
