

Research

In the rapidly changing textile industry, we prioritize comprehensive research and analysis of modern trends and innovations to adapt to changes and deliver the finest raw fabric.

Design

We closely scrutinize current fabric trends and fiber innovations and offer exquisite weaving design options for the entire textile industry.

Development

We constantly search for the most complete solution to manage innovation and continuous improvement while achieving efficient and sustainable production.

Production

Our production prioritizes delivering complete confidence in the final product through high quality, on-time delivery, trust, and consistency with full conformity to international standards.

Types of Fabrics

Our weaving facility is capable of producing fabrics for formal and casual fashion, shirting fabrics, and home textile products that aim to deliver excellence in every detail.

We manufacture a wide range of fabrics with different weaving techniques, such as;

- **Sateen**
- **Canvas**
- **Plain**
- **Twill**
- **Dobby**
- **Double Face**
- **Ottoman**
- **Ripstop,**
- **Herringbone**
