

Alsancak Forest Products; It produces all kinds of veneer and timber products (imported/domestic) needed by the consumer by processing the raw materials (logs) it procures directly from home and abroad. Alsancak Forest Products contributes to the country's economy with the large number of employees it employs in its factory producing timber/veneer in Düzce. It also provides foreign currency inflow to our country by exporting a large part of the industrial goods it produces abroad.
