

THE EUROTAINER FLEET

A Global Fleet of 48000+ Tank Containers and Small Portable Tanks in 150 Types and Sizes

LIQUID TANKS

Chemical & Food Grade
10000 to 35000 liter capacity
20 foot standard and Swap Body types

GAS TANKS

Low, Medium & High pressure
7 to 34.4 bar
16000 to 25000 liter capacity
T50 type

CRYOGENIC TANKS

20000 to 46000 liter capacity
20 and 40 foot types
145 to 348 PSI pressure
Extended hold times

"SPECIAL" TANKS

Lined and coated tanks
Temperature controlled tanks
Composite/carbon fibre tanks

SMALL PORTABLE TANKS

450 to 10000 liter capacity
Vertical tanks, cylinders, spheres and 10 foot ISO tanks.

BENEFITS OF LEASING WITH EUROTAINER

Eurotainer's fleet of tank containers and small portable tanks meet and exceed the requirements of bulk liquid and gas shippers:

/ The widest range of capacities from 450 to 46000 liter capacity equipment

/ A dedicated fleet for food and beverage products

/ The lowest tare weights possible for equipment built to handle the rigors of international shipping

/ A variety of optional components to meet the unique transport and storage requirements of your product

/ Tank containers and small portable tanks built with a wide variety of global approvals

/ New containers designed and constructed with the latest technology under a regular building program

/ Technology solutions including electronic tracking using satellite, GPS or cellular systems to determine asset location; automated measurement of product level, temperature, pressure and loaded quantity.

Eurotainer is the global leader in tank containers (UN Portable tanks). Offering the most diverse fleet of tank containers available combined with a worldwide network of offices, maintenance and inventory locations.

LIQUID TANKS GAS TANKS CRYOGENIC TANKS "SPECIAL" TANKS SMALL PORTABLE TANKS

T Codes	T2–T19	T50	T75	T9–T23	T11, T12, T14, T22, T50
Capacities (litres)	10000 to 26000	16000 to 25000	20000 to 46000	10000 to 26000	450 to 10000
Dimensions (L x W x H)	20' x 8' x 8'6"	20' x 8' x 8'6"	20' x 8' x 8'6" and 40' x 8' x 8'6"	20' x 8' x 8'6"	Various
Material	Stainless steel	Carbon and Stainless steel	Carbon and Stainless steel	Stainless steel and Carbon fiber with polyethylene interior	Carbon and Stainless steel
Tank Type	Full frame & beam	Full frame & beam	Full frame & beam	Full frame & beam	Vertical & horizontal
Commonly Transported Products	Hazardous and non-hazardous cargoes. Chemicals, lubricants, agricultural products, mining chemicals, petrochemicals. Segregated fleet for food and beverage products	Liquefied gases, chlorine, sulphur dioxide, anhydrous ammonia, butane/butylene, dimethylamine, ethyl chloride, LPG/propane, refrigerant gases	Argon, nitrogen, oxygen, carbon dioxide (CO ₂), ethane, liquefied natural gas (LNG), ethylene	Acids, hydrogen peroxide, ammonium nitrate, temp controlled products and products classified as high purity, pyrophoric, lethal, corrosive, poison or toxic by inhalation, etc.	Hazardous and non-hazardous cargoes, high purity products, pharmaceuticals
Heating/Cooling Systems	Insulated, steam heating	Sunshield	Super insulation, vacuum	Super insulation, glycol heating & cooling, electric heating	Not standard. Options available.
Pressure Ratings (MAWP)	1.5 to 4 bar	7 to 34.4 bar	145 to 348 PSI pressure	2.7 to 10 bar	Varies by tank type
Optional Accessories	Top and bottom valves. Down piped air lines, handrails, linings/coatings, GPS and telemetry systems	Zinc lining, side discharge valves, level gauge, pharma grade equipment, GPS and telemetry systems	Pumps and flow meters, GPS and telemetry systems	ASME U Stamp approval, fire safe valves, bolted manways, lining/coating, GPS and telemetry systems	Insulation, heating and cooling systems, additional forklift pockets, linings, frames, ladders & walkways, GPS and telemetry systems
Approvals	All global approvals specific to tank type. Could include UN Portable Tank, IMDG, CSC, ACEP, RID/ADR, US DOT/CFR 49, Chlorine Institute, P200, ASME U Stamp, SELO, Transport Canada, TIR and others.				

A tank container cannot operate optimally without a team to support it. Since the 1970s our commercial and technical staff is amongst the most experienced in the industry. Eurotainer is a founding member of ITCO and is ISO 9000 certified. Our experts will work closely with you to define your technical, commercial and operational requirements to ensure the equipment supplied will meet and exceed those requirements and comply with domestic and international regulations. Go to www.eurotainer.com to contact your local representative.
