

MAVI DENİZ Environmental Protection Services Co.

ABOUT US

PROFILE

MAVI DENİZ Environmental Protection Services, our mission is to protect and preserve the ecosystems of our oceans, rivers, lakes, lagoons, streams and beaches globally through the innovation and development of pollution control to oil spill recovery solutions.

Based in İstanbul, Turkey, MAVI DENİZ Corporation, is an aggressive, privately held by Management Company.

In the early years, the main activity consisted of shipbuilding and repair under the BASARAN Group. Due to this beneficial cooperation, the company gained valuable experience and understanding of the strengths and limitations of the existing oil recovery market.

Mavi Deniz Environmental Protection Services established in Turkey, our ISO 9001 quality accreditation and our commitment in terms of the environment through our ISO 14001 certification, are major factors that are appreciated by our customers in Europe, Asia, Africa, and Middle East and throughout the world.

Our equipment and services are currently in use more than 25 different countries:

Spain, Russia, Georgia, Kazakhstan, Bulgaria, Romania, Bangladesh, Iran, Iraq, Sudan, Nigeria, Cyprus, United Kingdom, USA, Norway, Japan, Greece, Italy, Libya, Jordan, Niger, Netherlands, China, Singapore, Africa.

Mavi Deniz is the biggest specialized company in the region to conduct oil spill response and has a wide variety of state-of-the-art oil spill response equipment to provide high-quality oil spill response service both offshore and onshore. Mavi Deniz gives stand-by service 24/7 hour for emergency response in case of an accident.

Mavi Deniz gives support services for oil companies includes; provision of vessels to support drilling and oil transportation operations, transportation of cargo and passengers by offshore supply vessels, towing of vessels and other floating facilities, provision of fuel and cargo removal services, environmental monitoring and testing, provision of comprehensive diving services, including personnel, equipment and specialized vessels and other services as needed in oil and gas industry.

MAVI DENİZ can provide oil spill response training from Incident Management to operational/safety training for any given situation from major incident to smaller spills. Training can be included as part of a package or provided on an individual product basis.

The Company is well-established, financially sound, with a long history of providing high quality products to a diversified global customer base.
