

**HAYER**

## ABOUT US

### **The Success Story of a Local Pharmaceutical Company with Products Preferred in National and International Markets; HAVER FARMA**

“Haver Farma İlaç, which started to operate under the name of “Tıbbi Müstahzarlar Laboratuvarı (*Medical Preparations Laboratory*)” in a small room of a mansion at Kuleli Hastane Sokak in Çengelköy in 1917, took its place in the sector as the first “Parenteral Solution” manufacturer of Turkey. In 1949, it added four individual units to the laboratory and was transformed into a modern pharmaceutical plant, and in 1950, it was named “Haver Laboratuvarı (*Laboratory*)”. Over the years, it extended its range of products and continued to manufacture in its premises in Çengelköy for a long time. In 1982, when it was taken over by Camcı Family, it moved to its modern facility in Beykoz with an outdoor space of 22 thousand sqm and an indoor space of 32 thousand sqm under the name of “Haver İlaç San. ve Tic. A.Ş.” While aiming to increase its capacity category and number of employees with its well-established history, domestic production competence, qualified manpower and investments based on high value-added technology, our organization targets to further expand its share in the markets in which it operates by company acquisition, R&D investments, growth strategy in TSG area and exportable products.”
