≡ DIVERSITY & WOMEN EMPOWERMENT

2020 Fortune Turkey - 50 Most Powerful Working Women

Mrs. Diane Arcas is in the 31st place as the Vice Chairman of the Board of Arkas Holding and Chairman of the Executive Board for Arkas Logistics.

ARKAS awarded by Chamber of Commerce and Wista Turkey as “Maritime Company Providing The Most Female Employment”

Women’s Empowerment Principles (WEPs)

Arkas Holding is among 45 corporations in Turkey that signed “**Women’s Empowerment Principles (WEPs)**” in 2010, established by UN Global Compact and UN Women offering a set of principles and guidance to promote gender equality and women’s empowerment in the workplace & community.

Diversity in Arkas

Ratio of women in Arkas offices is ranging between 35-37% over the last 4 years. **In managerial roles this ratio goes up to 48%** which is high above the averages in Turkey as well as global companies.

Despite tough conditions at the sea, and the male-dominance in the maritime industry, Arkas is the first company in Turkey to bring up a female captain in its vessels. Today in total 18 women work in Arkas fleet in different roles as a Captain, 2nd, 3rd or 4th Captain, Chief Engineer, 2nd and 3rd Engineer. Arkas has the highest number of female employees in the industry and has been awarded by Chamber of Commerce (TMMOB) , Chamber of Chief Engineers (IMEAK) , Wista Turkey for “Supporting Women at Sea” and “Providing The Most Female Employment in Maritime Industry”.

CORPORATE SOCIAL RESPONSIBILITY

ARKAS ART CENTER

ARKAS
ART CENTER

The section of the French Honorary Consulate building in Izmir was turned over by the French government to Arkas Holding for a 20 year period for cultural and artistic purposes.

Following a year of restoration, Arkas Art Center was opened in November 2011.

The Arkas Art Center is not only located in a historical building that has been restored for the benefit of Izmir, it is also the first art center in the city to exhibit paintings done by a number of international painters. The center continues its efforts to organize quality exhibits, to contribute to the development of Izmir's cultural life and to ensure that old and young alike have an appreciation for art.

Arkas Art Center receives the "Art Institution of the Year" award on its 10th Year, 2021

September, 2019

CORPORATE SOCIAL RESPONSIBILITY ENVIRONMENT

TURMEPA II

The social responsibility project “Arkas TURMEPA II”, launched in cooperation between Arkas Holding and TURMEPA in 2006, aims to protect the bays of Cesme from pollution in the Aegean. ARKAS TURMEPA II waste collection boat, built and operated by Arkas Holding, makes a major contribution to the prevention of pollution.

Protecting the seas, which absorb a major part of the global heat, from wastewater plays a role in the conservation of the marine ecosystem. Furthermore, studies show that seas produce 50 to 70% of the oxygen we need. This indicates that Arkas Turmepa II waste collection boat and similar projects contribute to the continuity of land life as well.

Arkas Turmepa II Collects 100 Thousand Liters of Waste in the 2021 Season

Arkas TURMEPA II will continue to keep the bays of Cesme clean in 2022 season as well.
