

Karimex was established in 2008 in Ordu, the world hazelnut capital. Adopting the principle of customer orientation in its establishment, our company has been processed with its know-how, more than 30 years of experience, expertise and continues its way in natural hazelnut raw materials.

Our company, which has been continuously renewing its production lines and growing its capacity and technology investments every year since its foundation, also invests in additional quality and management systems. In this context, it continues its activities with high-quality assurance and management systems such as BRC, IFS and FSSC22000.

Our company, which operates in the retail sector as well as industrial hazelnut raw materials, is preparing products in the Middle East, North Africa, South Asia and Russia markets with its own brands and P / L productions.

Our company, which has started to produce organic certified hazelnut with the investments it has made since 2018, is increasing its quantity in this market every day

Karimex will continue to serve Turkish hazelnuts to world markets by adding added value to Turkish Hazelnuts and exporting these products with unmatched quality.
