Biota Laboratories

Since the first day of its establishment, Biota Laboratories has been moving forward in developing products and creating international brands with its expertise to offer long-term solutions to health and beauty problems using botanical ingredients.

Biota Laboratories is a leader in its field and has many respected brands that offer innovative, effective, and nature-based products. All of Biota Laboratories' products are based on collaborations with Türkiye's distinguished universities and clinical tests conducted by international product testing companies.

By combining nature's unlimited potential with the most modern technology, Biota Laboratories brings health and beauty together.

Türkiye, which has one of the richest floras in the world, boasts at least 10,000 different plant species, out of which 3,200 are endemic. Biota Laboratories harnesses this tremendous richness and diversity for the betterment of humanity. Combining know-how and advanced technology, Biota exports its products to sixty countries, including the US, Brazil, Germany, and Poland.

Biota Laboratories is represented in more than 24,000 pharmacies in Türkiye through local brands such as BIODER, BIOXCIN, NUTRAXIN, and BIOBABY. While protecting its leadership, Biota Laboratories offers solutions to the diverse needs of consumers at various sales locations with botanical and natural products.

Biota Laboratories provides solutions through R&D research that caters to the expectations and needs of customers, following a policy of high quality and perfection that combines technology with nature. The guiding principles of the R&D department are herbals, innovation, and discovery. Several hundred advanced trials are conducted every month in the R&D department.

Biota Laboratories introduces all its products only after an extensive R&D period. R&D studies at Biota Laboratories receive a significant share of the company budget. Therefore, investigating many plants' health and beauty benefits is possible.

Production

Biota Laboratories conduct production with formulations developed by its R&D Center in a 35,000 m² facility.

Comprehensive quality control suitability analyses of raw materials, semi-finished and finished products are performed in our Quality Control Laboratories.

Biota's food supplement production area operates with HEPA-filtered, positively pressurized manufacturing zones featuring "Interlock" entry and a closed system.

Our productions are meticulously planned and executed under modern infrastructure, quality certifications, and world standards, supported by necessary information technologies, equipment, and devices, all overseen by our expert and well-trained team.

GMP - ISO22000/HACCP - Helal

Biota R&D Center

Biota R&D Laboratories serve as an approved R&D Center by the Ministry of Science, Industry, and Technology, engaging in cosmetics, dermocosmetics, and dietary supplements.

Our center has experts from various professions, including chemical and food engineers, chemists, botanical specialists, molecular biologists, and other related disciplines. Our Scientific Advisory Board, comprised of renowned academics from leading Turkish universities, regularly supports our R&D Center. Additionally, our Medical Department carries out clinical studies and efficacy and safety testing processes. All licensing activities are also conducted within the scope of our R&D Center. Biota R&D Center operates in an 800 m² area with six independent laboratories.

Plant Research Center, Cosmetic Product Development Laboratory, Instrumental Analysis Laboratory, Packaging R&D Laboratory, and Product Performance Laboratories. The center possesses advanced equipment and devices, including HPLC-MS-MS, GC-MS, Real-Time PCR for molecular biology, and DNA-RNA protein imaging systems.

In collaboration with universities and supported by TÜBİTAK (The Scientific and Technological Research Council of Türkiye), new product development projects are carried out in this center. Scientific publications in international journals, posters, and oral presentations at conferences are conducted by our center.

About Bioxcin

- 🌿 Bioxcin products have been available for sale in pharmacies since 2006.
- 🌿 Derives its power from 59 elements in nature and the human body.
- 🌿 Works with an approach that combines technology, nature, and science.
- 🌿 Exports to over 65 countries worldwide and continues working in the industry with 100% herbal and natural solutions.
- 🌿 Has an expert team consisting of Turkish scientists and dermatologists.
- 🌿 Has products that have been clinically tested by leading independent laboratories worldwide and reputable universities in Türkiye and the world.
- 🌿 Biota R&D Laboratories develop the formulations of the products.
- 🌿 Clinical studies, efficacy, and safety tests are conducted in the medical department. It also collaborates on joint projects with universities and TÜBİTAK (The Scientific and Technological Research Council of Türkiye).
- 🌿 Conducts work in the Biota R&D Center, which has six independent laboratories covering an area of 800 m².

Hair Care

FASTER EFFECT WITH LIPOSOME TECHNOLOGY

CLASSIC

Bioxcin Herbal Shampoo

Product Description:

Bioxcin Herbal Shampoo is an ideal product for those experiencing hair loss issues or want to protect the health of their hair. This shampoo contains BioComplex B11 that strengthens hair roots, nourishes the scalp, and ensures hair looks healthy and shiny. Additionally, through the liposome technology, active ingredients targeting hair loss reach the scalp more rapidly and effectively, preventing hair loss.

Ingredients:

BioComplex B11, Honey, Liposomal actives

How to Use:

Apply to wet hair with a massage, keep it for 1-2 minutes and rinse well.

300 ml

LIPOSOME TECHNOLOGY

The actives affecting the hair are strengthened with Liposome technology. Liposome technology provides the actives to reach the hair roots more quickly and effectively.

FOR DRY NORMAL HAIR
FOR OILY HAIR

FASTER EFFECT WITH LIPOSOME TECHNOLOGY

FORTE

Bioxcin Forte Shampoo

Product Description:

Bioxcin Forte Shampoo is a specially developed product for people experiencing intensive hair loss problem or want to protect their hair. This shampoo contains BioComplex B11 that nourishes hair roots, revitalizes the scalp, and promotes stronger and healthier hair growth. Additionally, active ingredients enriched with liposome technology penetrate the hair roots more effectively and provide quicker assistance in preventing hair loss.

Ingredients:

Concentrated BioComplex B11, Procyanidin, Honey, Liposomal actives

How to Use:

Apply to wet hair with a massage, keep it for 1-2 minutes and rinse well.

300 ml

LIPOSOME TECHNOLOGY

The actives affecting the hair are strengthened with Liposome technology. Liposome technology provides the actives to reach the hair roots more quickly and effectively.

Clinical Studies

Bioxcin Forte Serum

Product Description:

Bioxcin Forte Serum is a specially developed product for people experiencing intensive hair loss problems or want to protect their hair. This serum, with its herbal formula BioComplex B11, strengthens hair roots, moisturizes the scalp, and supports healthier and vibrant hair growth. Moreover, active ingredients enriched with liposome technology penetrate the scalp more deeply, providing a more effective assistance in preventing hair loss. By using Bioxcin Forte Serum regularly, you can maintain the volume, strength, and shine of your hair.

Ingredients:

Concentrated Biocomplex B11, Procyanidin, Honey, Liposomal actives

How to Use:

A generous amount of serum is applied to the scalp area where hair loss is occurred. It is gently massaged into the scalp with circular motions for at least one minute to ensure thorough absorption. It is not rinsed out until the next wash. For best results, it is recommended to use regularly in conjunction with Bioxcin Forte Shampoo.

3x50 ml

LIPOSOME TECHNOLOGY

The active ingredients affecting the hair are strengthened with liposome technology. Liposome technology enables active ingredients to reach the hair faster and more effectively.

BLACK GARLIC FOR STRONGER AND THICKER HAIR

BLACK GARLIC

Bioxcin Black Garlic Shampoo

Product Description:

Bioxcin Black Garlic Shampoo contains 100% black garlic extract and provides comprehensive hair care. Black garlic strengthens hair roots, nourishes the scalp, and supports healthier and vibrant hair growth. Additionally, black garlic adds volume, shine, and softness to the hair. Bioxcin Black Garlic Shampoo also includes other natural components such as Biocomplex B11 herbal extract, bio-active peptides, and ivy extract. These components help prevent hair loss, contribute to thicker and fuller-looking hair, and promote healthy hair growth.

Ingredients:

Biocomplex B11, Black Garlic Extract, Ivy Extract, Bio-Active Peptides

How to Use:

Apply to wet hair with a massage, keep it for 1-2 minutes and rinse well.

300 ml

THICKER AND FULLER-LOOKING*

Hair from the first use**

QUANTUM

Bioxcin Quantum Bio-Activ Shampoo

Product Description:

Bioxcin Quantum Bio-Activ Shampoo contains peptides composed of 18 amino acids that adhere to the hair strands, resulting in a thicker and fuller appearance. Additionally, Bioxcin Quantum Bio-Activ Shampoo includes Biocomplex B11 plant extract, which strengthens hair roots, nourishes the scalp, and supports healthier and vibrant hair growth. By using Bioxcin Quantum Bio-Activ Shampoo regularly, you can enhance the fullness, strength, and shine of your hair.

Ingredients:

Biocomplex B11, Bio-Activ Peptides

How to Use:

Apply to wet hair and gently massage. Leave it on the hair for 1-2 minutes before thoroughly rinsing.

300 ml

BIO-ACTIV PEPTIDES

Bio-activ Peptides have ingredients equivalent to hair peptides and provide targeted repair to the hair.

FOR DRY NORMAL HAIR
FOR OILY HAIR

Bioxcin Quantum Bio-Activ Serum

Product Description:

Bioxcin Quantum Serum contains higher concentrations of active ingredients compared to shampoo and offers targeted repair for the hair. Bio-Activ Peptides adhere to the hair strands, resulting in thicker and fuller-looking hair from the first use. Biocomplex B11 strengthens hair roots, nourishes the scalp, and supports healthier and vibrant hair growth. By using Bioxcin Quantum Serum regularly, you can maintain the fullness, strength, and shine of your hair.

Ingredients:

Biocomplex B11, Bio-Activ Peptides

How to Use:

Apply a generous amount of serum to the scalp area where hair loss is experienced. Gently massage the scalp in circular motions for at least one minute to ensure thorough absorption. Do not rinse until the next wash. For best results, regular use in combination with Bioxcin Quantum Shampoo is recommended.

300 ml

BIO-ACTIV PEPTIDES

Bio-active Peptides have ingredients equivalent to hair peptides and provide targeted repair to the hair.

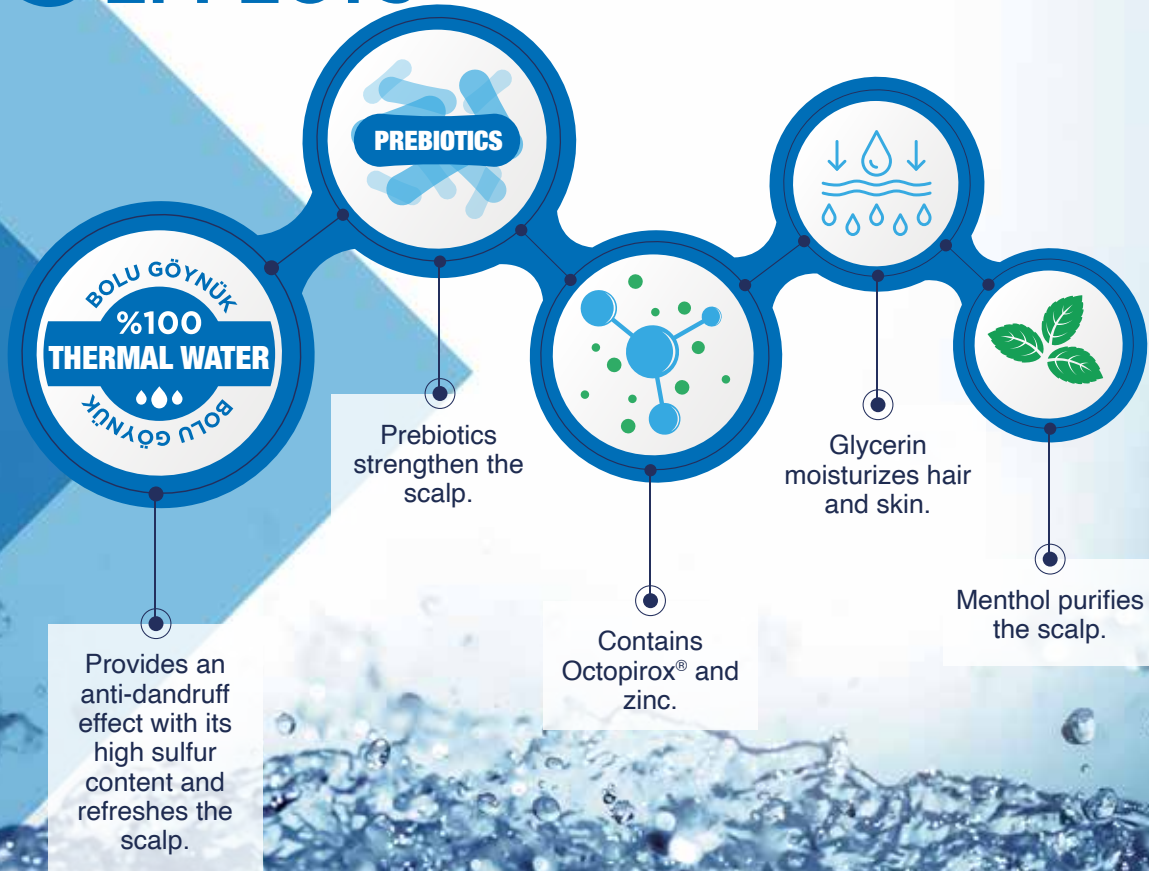

Up to 100% EFFECTIVENESS AGAINST DANDRUFF PROBLEM*

ANTI DANDRUFF

5 DIFFERENT INGREDIENTS EFFECTS

Bolu Göynük Thermal Water Properties

- Contains 1.3 mg/L of sulfur. It is particularly effective in anti-dandruff and acne products.
- Does not contain microorganisms. It is a sterile water.
- Ideal for acne products and skin blemishes.
- Rich in Boron (51 mg/L) and Silicon (63 mg/L).
- Soothes and protects the skin.
- It is in the class of moderately mineral waters. It is a hypothermal water.
- Contains 100% natural minerals.
- Provides a healthy appearance to the skin through its mineral content.

Bursa Osmangazi Thermal Water Properties

- It is rich in potassium, calcium, and magnesium. These minerals are part of the skin's natural moisturizing factors (NMF) and prevent water loss due to their hygroscopic properties.
- It is also rich in oligoelements such as copper and zinc.
- Suitable for sensitive skin.
- Rich in bicarbonate (549 mg/L) and silicon (128 mg/L).
- Soothes and protects the skin.
- It is a moderately mineralized water and is hyper-thermal.

100 ml

BEYOND THE SKIN CARE

SKIN EXPERT

Bioxcin Skin Expert Ester Vitamin C %15 Reviving Serum

Product Description:

Bioxcin Ester Vitamin C Reviving Serum helps provide antioxidant effects and supports improvement in skin tone, giving a radiant and glowing appearance from the first use. Going beyond traditional skincare, it helps preserve the natural structure of the skin and achieve a radiant look. Formulated to be suitable for all ages and skin types, the Revitalizing Serum contains a high concentration of Ester Vitamin C, up to 15%, which helps protect the skin against free radicals and assists in correcting skin tone irregularities. Ester Vitamin C is more stable and effective compared to ascorbic acid. It remains intact in cosmetic formulas and helps deliver all the benefits of Vitamin C to the skin.

Ingredients:

Ester Vitamin C, Niacinamide (Vitamin B3)

How to Use:

After cleansing your skin in the morning and evening, apply an adequate amount of Bioxcin Ester Vitamin C Serum to your face, neck, and décolletage area using circular motions for a massage.

Don't forget to complete your skincare routine with a suitable Bioxcin Sunscreen for your skin.

It is suitable for all skin types.

30 ml

Bioxcin Skin Expert Hyaluronic Acid %3 Intense Moisturizer and Plumping Serum

Product Description:

Bioxcin Intense Moisturizer and Plumping Serum supports moisturizing the skin and reducing the appearance of aging signs with its 3% hyaluronic acid content.

Going beyond traditional skincare, it helps preserve the natural structure of the skin and achieve a radiant appearance.

Formulated to be suitable for all ages and skin types, the intensive moisturizing and plumping serum combines the excellent combination of hyaluronic acid and panthenol to create a synergistic effect that fills the gaps between skin cells, helping the skin regain lost moisture and plumpness.

Ingredients:

Hyaluronic Acid, Panthenol (Vitamin B5)

How to Use:

After cleansing your skin in the morning and evening, apply an adequate amount of Bioxcin Hyaluronic Acid Serum to your face, neck, and décolletage area using circular motions for a massage.

Don't forget to complete your skincare routine with a suitable Bioxcin Sunscreen for your skin. It is suitable for all skin types.

30 ml

Bioxcin Skin Expert Collagen %5 Anti-Wrinkle and Firming Serum

Product Description:

Bioxcin Anti-Wrinkle And Firming Serum goes beyond traditional skincare to help preserve the skin's natural structure and achieve a radiant complexion. Formulated to be suitable for all ages and skin types, Bioxcin Anti-Wrinkle and Firming Serum combines the excellent combination of Retinol and Coenzyme Q10 to synergistically stimulate skin cells. The concentrated formula helps reduce existing wrinkles and supports the skin against the formation of new wrinkles. It assists in diminishing the appearance of fine lines and preventing the loss of elasticity. Clinical studies have observed that Bioxcin Anti-Wrinkle and Firming Serum increases collagen synthesis by up to 8 times.*

Ingredients:

Collagen, Retinol (Retinol palmitate) and Coenzyme Q10

How to Use:

After cleansing your skin in the morning and evening, apply an adequate amount of Bioxcin Collagen Serum to your face, neck, and décolletage area using circular motions for a massage.

Don't forget to complete your skincare routine with a suitable Bioxcin Sunscreen for your skin.

It is suitable for all skin types.
