Company Profile 2022

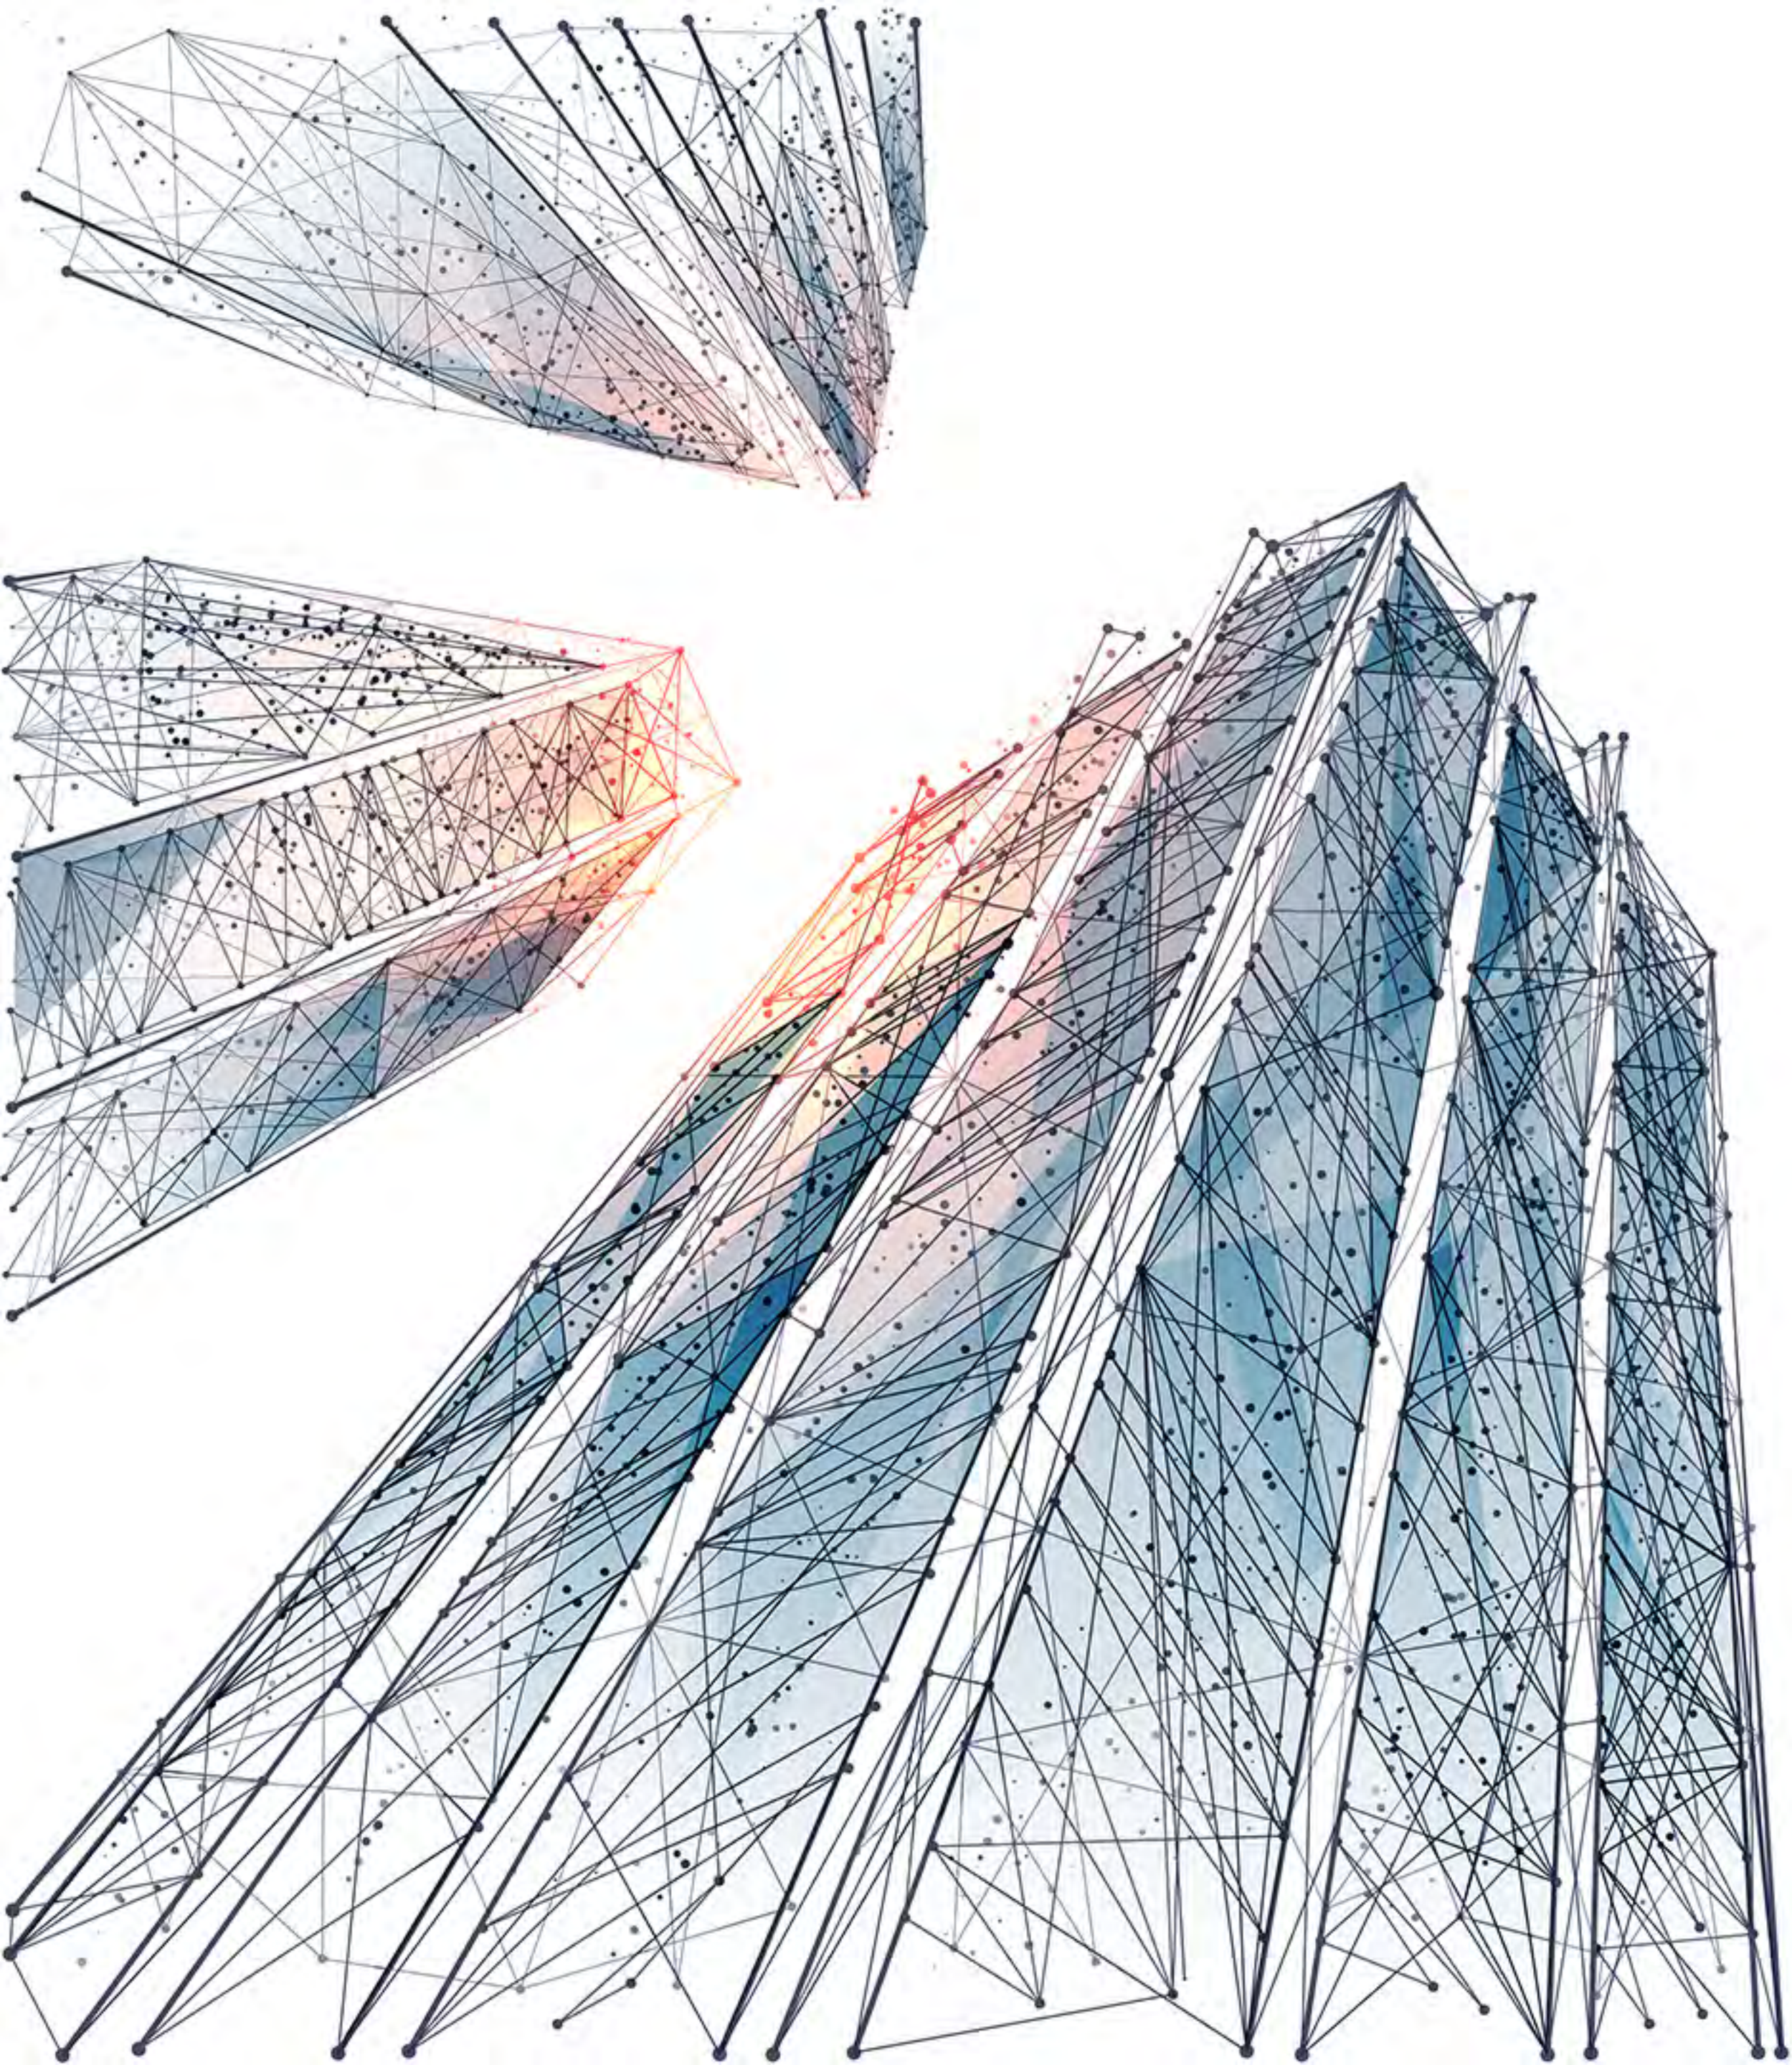

WHO WE ARE

About Us

Our Company has twenty years of experience serving discriminating apparel customers in Turkey, Europe and the US. We produce 800,000 meters per month of innovative piece dyed fabric for leading brands and retailers Globally.

Our business partners see our products as “trend setting” and value our ability to anticipate their needs, share their aesthetic vision and respond quickly to market needs.

— Vision & Mission

Our Vision ■

Our objective is to add value through the development of innovative fabrics made with consistently great quality at competitive prices,

Our Mission ■

Provide professional service on an international basis to exceeded our customer's expectations.

QUALITY POLICY

Quality Policy

Cotton Fabric focuses on providing consistent quality from yarn through to finished fabric. We ensure that the finished garment performs to customer's exacting requirements and we provide tremendous after sale support.

We believe strongly that the building blocks of great quality arise from talented and contented employees who perform at an extremely high level in a safe working environment that treats each employee with respect and helps them grow professionally.

Are manufactured with pride in Turkey. Our product expertise includes cotton, cotton/lycra, cotton/polyester, viscose, tencel, modal, yarn dyed, gabardine, satin, linen, canvas, poplin, flock, foil print, coated and jacquards that are presented regularly to our business partners as trend setting designs and collections for their constantly evolving product needs.

PRODUCTION

Production

DESIGN & COLLECTION

Our experienced research and development team are constantly creating new designs, new finishes and new base fabrics on their own and in streamlined, efficient communication with our business partners to ensure our customer's remain on fashion's leading edge.

WEAVING

We operate the most modern weaving equipment in the industry and we manufacture yarn counts from 80/1 to 8/1.

DYEING PLANT

Our modern dyeing plant is constructed to provide a vast array of industry leading processes while maintaining the highest level of worker safety and environmental standards. Our facility can dye, print, coat, laminate and in addition we have unique capabilities in terms of creating special hand feels and colorization processes.

LABORATORY

Our laboratories can perform all of the tests required by customers on a global basis. Our labs have been accredited by the most demanding European standards as described in SGS and Ecotex terms.

QUALITY CONTROL

Delivering consistently great quality is at the core of our corporate values. We take great pride in exceeding our customer's expectations and we are proactive in focusing on the performance of our product in the finished garment.

SHOWROOM

We proudly display our products in stylish showrooms to showcase the hand feel and aesthetics that separate Cotton Fabric from its competitors.

ENVIRONMENT

Sustainability

As Cotton Fabric, being a vertical company collaborating with different mills located in Turkey and Pakistan we are giving maximum importance to create authentic woven and denim collections to meet all requirements of our precious customers and to give them the best service. In our denim collections we use slasher dyed and rope dyes processes. In woven fabrics we can make any sulphure, reactive, pigment, indanthrene, yarn dye on our fabrics upon request. Cotton Fabric also have strong and qualified service on the print and coating processes applied on the fabrics. From the beginning of our establishment we had always had prioritized our sustainability strategy. To keep under control, the usage of the water in cotton production we increased the usage of BCI cotton, Recycle Cotton and Organic Cotton in our production and we received our registers and certificates of GOTS, OCS, RCS, GRS for our qualities. We also increased the usage of regenerated viscose fibers (modal, tencel, etc.) in our production as an alternative to cotton fabrics. As an alternative to cotton, we continue our research and developments on the idea of constructing linen and hemp fibered fabrics which will be less harmful during production to the environment.

R&D Works

Market Leadership

We work closely with our customers to interpret evolving fashion trends around the world. We attend all of the relevant fabric and garment shows. We have been recognized as a market leader in terms of development and trend presentations. We are adept at developing versions of important trends for the different price segments in the market and our R&D group pride themselves on their ability to develop with the end user in mind.
