ECONOMY

High performance and environment-friendly Isuzu engine

The engine features low fuel consumption, low noise and strong power.

The hydraulic system provides good operability.

DURABILITY

X-shaped under carriage

It enhanced the strength against twist. Mud drainage performance has increased and cleaning is now carried out with ease.

Traveling body

Sloop design center-frame and side-frame have been arranged in straight lines. Mud drainage performance is up.

Reinforced arm, boom, bucket.

COMFORTABILITY

Comfortable operating space

Ergonomic wide comfortable operating space has been designed to fit operator.

Multi point ventilation air conditioner

High capacity multi point ventilation air conditioner is standard, enabling operators to feel a multi directional air conditioning effect.

MAINTENANCE

Wide openable engine cover

The fully openable engine cover provides great access to various components. Daily maintenance such as air filter cleaning, engine oil replacement become easier.

The high capacity radiator provides superior cooling performance.

Engine error code on the display supports efficient maintenance.
