HAYER for domestic and abroad because...

Haver Farma İlaç A.Ş. was established in 2009 in Istanbul to present products, that are in accordance with global standards, to the local and international health markets in order to present its services effectively.

Our activities include not only providing marketing and services, but also expanding its product portfolio daily with its expert regulatory team. While being active in every step of manufacturing, **Haver** offers its products and services at a level in parallel with world standards by adapting new technologies every step of the way, from manufacturing to marketing. As of today, **Haver** is active in every region in Turkey and expanding abroad exponentially. We will continue to improve our domestic and international position with value placed on our employees, our environment, and sustainable growth.

Haver provides its products for various therapeutic groups including but not limited to: Analgesics, spasmolytics, anticoagulants, mucolytics, antiinfectives, enemas, cardiovasculars, antiemetics, bronchodilators, local anesthetics, sedatives, vitamins.

Haver cooperates only with established manufacturers that utilize quality and technology to their full extent. Our partners are GMP (Good Manufacturing Practices) certified and have been offering their goods and services locally and abroad.

The company that has the biggest share in our CMO portfolio is the leading parenteral solution manufacturer of Turkey. Osel, established in 1917, has been meeting the demands of domestic and foreign markets for decades. Possessing cGMP, GLP, ISO 9001:2000, ISO 13485:2003, and CE certificates, its manufacturing quality is superb.

Our Quality Policy

To offer services in ethical and legal parameters caused by the value we place to the public health and the human life.

To evaluate the requests submitted by our customers as fast as possible before meeting their demands while focusing on customer satisfaction.

To become an strong and effective services company with its experienced teams.

Our Service Policy

To research new markets in order to develop new fields of activity for both ourselves and our partners as well as increasing our presence in our current fields.

To examine carefully the regulations of foreign markets and to inform our relevant partners accordingly.

To offer consultation services to our manufacturing partners during international registration periods.

To supply products requested by our customers as economically and as fast as possible

To offer consultation services for promotional and marketing materials for our exported goods

To remain up to date with domestic and international regulations by following up with all relevant laws and guidelines in order to further develop its product portfolio.
