There is Trust in Our Chemistry

ABOUT US

Amon Kimya is a subsidiary of Öz süren Group Companies, established in 1985.

Our company imports, produces, supplies, storage and logistics activities of chemicals and industrial - medical gases, which are the main inputs of the Cleaning, Textile, Food, Iron - Steel, Glue, Paint, Glass, Packaging, Paper and Cosmetics, Cement, Thermal Power Plants and Fertilizer Industries. There are tanker trailers that comply with ADR standards, ISO tanks used in maritime transportation, and container carrier trailers that can transport all kinds of chemicals. It supplies raw materials to many companies in Turkey and abroad with its expert team in hazardous material transportation. We continue to increase our activities by constantly improving our R&D investments in these sectors. Our company, which imports and exports chemical and liquid fertilizers in the fertilizer sector, supplies chemicals and fertilizers used in the agricultural sector in Turkey.

It continues on its way with the vision of becoming a leading company in the supply and storage of chemical raw materials, fertilizer, agriculture, food, mineral and plastic - polymer and commodity products with its investments in Type A Bonded Warehouses and production in Hatay, İskenderun and Erzin.

In addition to aiming to be a leading company in the sector with the documents it receives and the standards it implements, customer-oriented work and investments in R&D within the framework of the importance it attaches to international quality, Amon Kimya aims to become a global trader by contributing to the international supply chain and expanding its customer, marketing and distribution networks day by day.

AMON MECHANICAL

Our company designs and manufactures pressure vessels in the machinery sector, LPG Trailers with ADR, Ammonia Trailers with ADR, LPG and Ammonia Storage Tanks, LNG Storage Tanks, Nitrogen Storage Tanks, Argon Tanks, Carbon Dioxide Tanks, Cryogenic Evaporators and Tanks, Chlorine Tanks, Chemical It produces quality products in accordance with world standards in line with the suggestions and requests of its customers in matters such as Material Transport Tanks and Trailers, LPG Filling Facilities, Construction and Equipment of Chemical Facilities, Manufacturing and Assembly of Steel Construction Structures, Manufacturing and Assembly of Hydroelectric Power Plants and Pipelines.

AMON CHEMICALS

ACETIC ACID
ALUMINIUM SULPHATE
AMMONIUM CHLORIDE
ANHYDROUS AMMONIA %99.9
AQUA AMMONIA %25
CALCIUM HYPOCHLORITE
CALCIUM CHLORIDE
CARBONDIOXIDE %99.999
CAUSTIC SODA FLAKES %98-99
CAUSTIC SODA LIQUID %46-50
CITRIC ACID
DI ETHYLENE GLYCOL
ETHYL ACETATE
FERRIC CHLORIDE
HYDROCHLORIC ACID
HYDROGEN PEROXIDE %50, %60
LABSA
MONO ETHYLENE GLYCOL
NITRIC ACID %56
SLES
SODIUM BI CARBONATE (SODA ASH)
SODIUM HYPOCHLORITE
SODIUM NITRATE
SODIUM SILICATE
SULPHURIC ACID
SULPHUR
POTASSIUM HYDROXIDE
PHOSPHORIC ACID %75, %85
R410A GAS

AMON FERTILIZERS

AN 33% - AMMONIUM NITRATE

AMON AS 21% - AMMONIUM SULPHATE

DAP(18-46) DI AMMONIUM PHOSPHATE

MAGNESSIUM SULFATE

MAP – MONOAMMONIUM PHOSPHATE

MOP- POTASSIUM CHLORIDE

NPK (15.15.15)

NPK (20.20.0)

SOP- POTASSIUM SULFATE

TSP- TRIPLE SUPER PHOSPHATE

UREA 46% - PRILLED, GRANULER OR AUTOMATIVE

UAN 32%

AMON AGRICULTURE

1. WHEAT

2. CORN

3. BARLEY

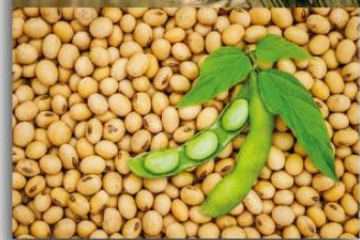

4. SOYBEANS

5. SUNDAY SEEDS

6. SUNFLOWER SEED MEAL

7. WHEAT BRAN

8. DDGS

AMON LOGISTICS

Our company, Amon Kimya, provides 13,000m² Type A Bonded Warehouse services on an area of 22,000 square meters in Erzin, Hatay region. It provides bonded storage of all Fertilizers, Grains, General Cargos, Liquid-Bulk and Packaged products coming to Iskenderun and Ceyhan Ports.
