ACA, which dates back to 1960, integrated its experience in the sector with today's technology and transformed into ACA Teknik İnşaat Mimarlık Ticaret A.Ş. in 2013.

Its dynamic, energetic and exciting structure, which always works to achieve the best results with a perfectionist approach, has made ACA a direct supplier of many rapidly growing, constantly developing national and global companies.

ACA took its place among the **100 Fastest Growing Companies** by increasing its growth rate by more than 100% in the last 5 years.

The logo for Aselsan, featuring the word "aselsan" in a bold, blue, sans-serif font.The logo for Cargill, featuring the word "Cargill" in a black, serif font with a green leaf-like graphic above the "i".The logo for ENERJISA, featuring the word "ENERJISA" in a bold, black, sans-serif font with a blue circle around the "A".The logo for ŞİŞECAM, featuring a stylized graphic of blue and red lines forming a square-like shape to the left of the word "ŞİŞECAM" in a blue, sans-serif font.The logo for Nestlé PURINA, featuring a red and white checkered square icon to the left of the text "Nestlé PURINA" in a grey, serif font.The logo for RAVINI, featuring a stylized graphic of a yellow and black shape to the left of the word "RAVINI" in a black, serif font.The logo for BEST, featuring the word "BEST" in a bold, blue, sans-serif font inside a blue circle.The logo for HAYAT HOLDING, featuring a stylized graphic of a green and blue globe to the left of the text "HAYAT HOLDING" in a blue, sans-serif font.The logo for esas, featuring a red heart-like shape to the left of the word "esas" in a bold, blue, sans-serif font, with "GAYRİMENKUL" in a smaller font below it.The logo for MITEDEFENCE, featuring a stylized graphic of a blue and white circle to the left of the text "MITEDEFENCE" in a blue, sans-serif font.The logo for Zsr, featuring a stylized graphic of a blue circle to the left of the text "Zsr" in a bold, blue, sans-serif font.The logo for SARSILMAZ, featuring a stylized graphic of a blue and white shape to the left of the text "SARSILMAZ" in a blue, sans-serif font.The logo for Kula, featuring a stylized graphic of an orange and white shape to the left of the word "Kula" in a blue, cursive font.

Acting with an environmentally friendly approach in every project it carries out and in all areas of activity, **ACA takes care to use energy efficiency and natural resources in the most effective way** by carefully selecting all the materials it uses. It constantly calculates its carbon footprint and strives to reduce it.

Embracing the motto "**Ready for the Future Today**" ACA has transformed into a conglomerate by incorporating companies into its structure. Guided by its corporate values, ACA aims to be an institution that its employees and stakeholders are proud to be associated with. It strives to set the pace for the industry and contribute to Turkey's development by implementing these values across all its business processes.

ACA attaches great importance to social responsibility projects and takes an active role for **a sustainable future**. Adopting an environmentally friendly approach, ACA prioritizes practices such as energy saving and recycling in its projects. ACA strives for **a more fair and livable world** by blending its commercial success with social responsibility awareness. With this awareness, it continues its work to leave **a better world to future generations**.

ACA®

Occupational Health and Safety

ACA attaches great importance to the field of Occupational Health and Safety (OHS) and applies the highest standards in all its activities.

ACA aims to be an exemplary company in the sector by prioritizing the health and safety of its employees above all else. With this awareness, it continues its work to create **a sustainable working environment.**

ACA's sensitivity to OHS is not just about complying with the law. **We believe that investing in its human resources and looking after the well-being of its employees is the key to long-term success.**

Known for its perfectionist approach, ACA aims to provide perfect workmanship in every project and keep **customer satisfaction at the highest level**. The company guarantees to achieve this goal with its quality control procedures and experienced team of engineers and technicians. ACA is a certified company in areas such as quality management systems, environmental management systems and occupational health and safety management systems. The company also ensures that all materials and products used in its projects meet the highest quality standards.

ACA is also a company **specialized in defense industry structures**. In this context, it has successfully completed various defense industry projects such as military facilities, research and development centers, production facilities, ballistic test centers and ammunition depots.

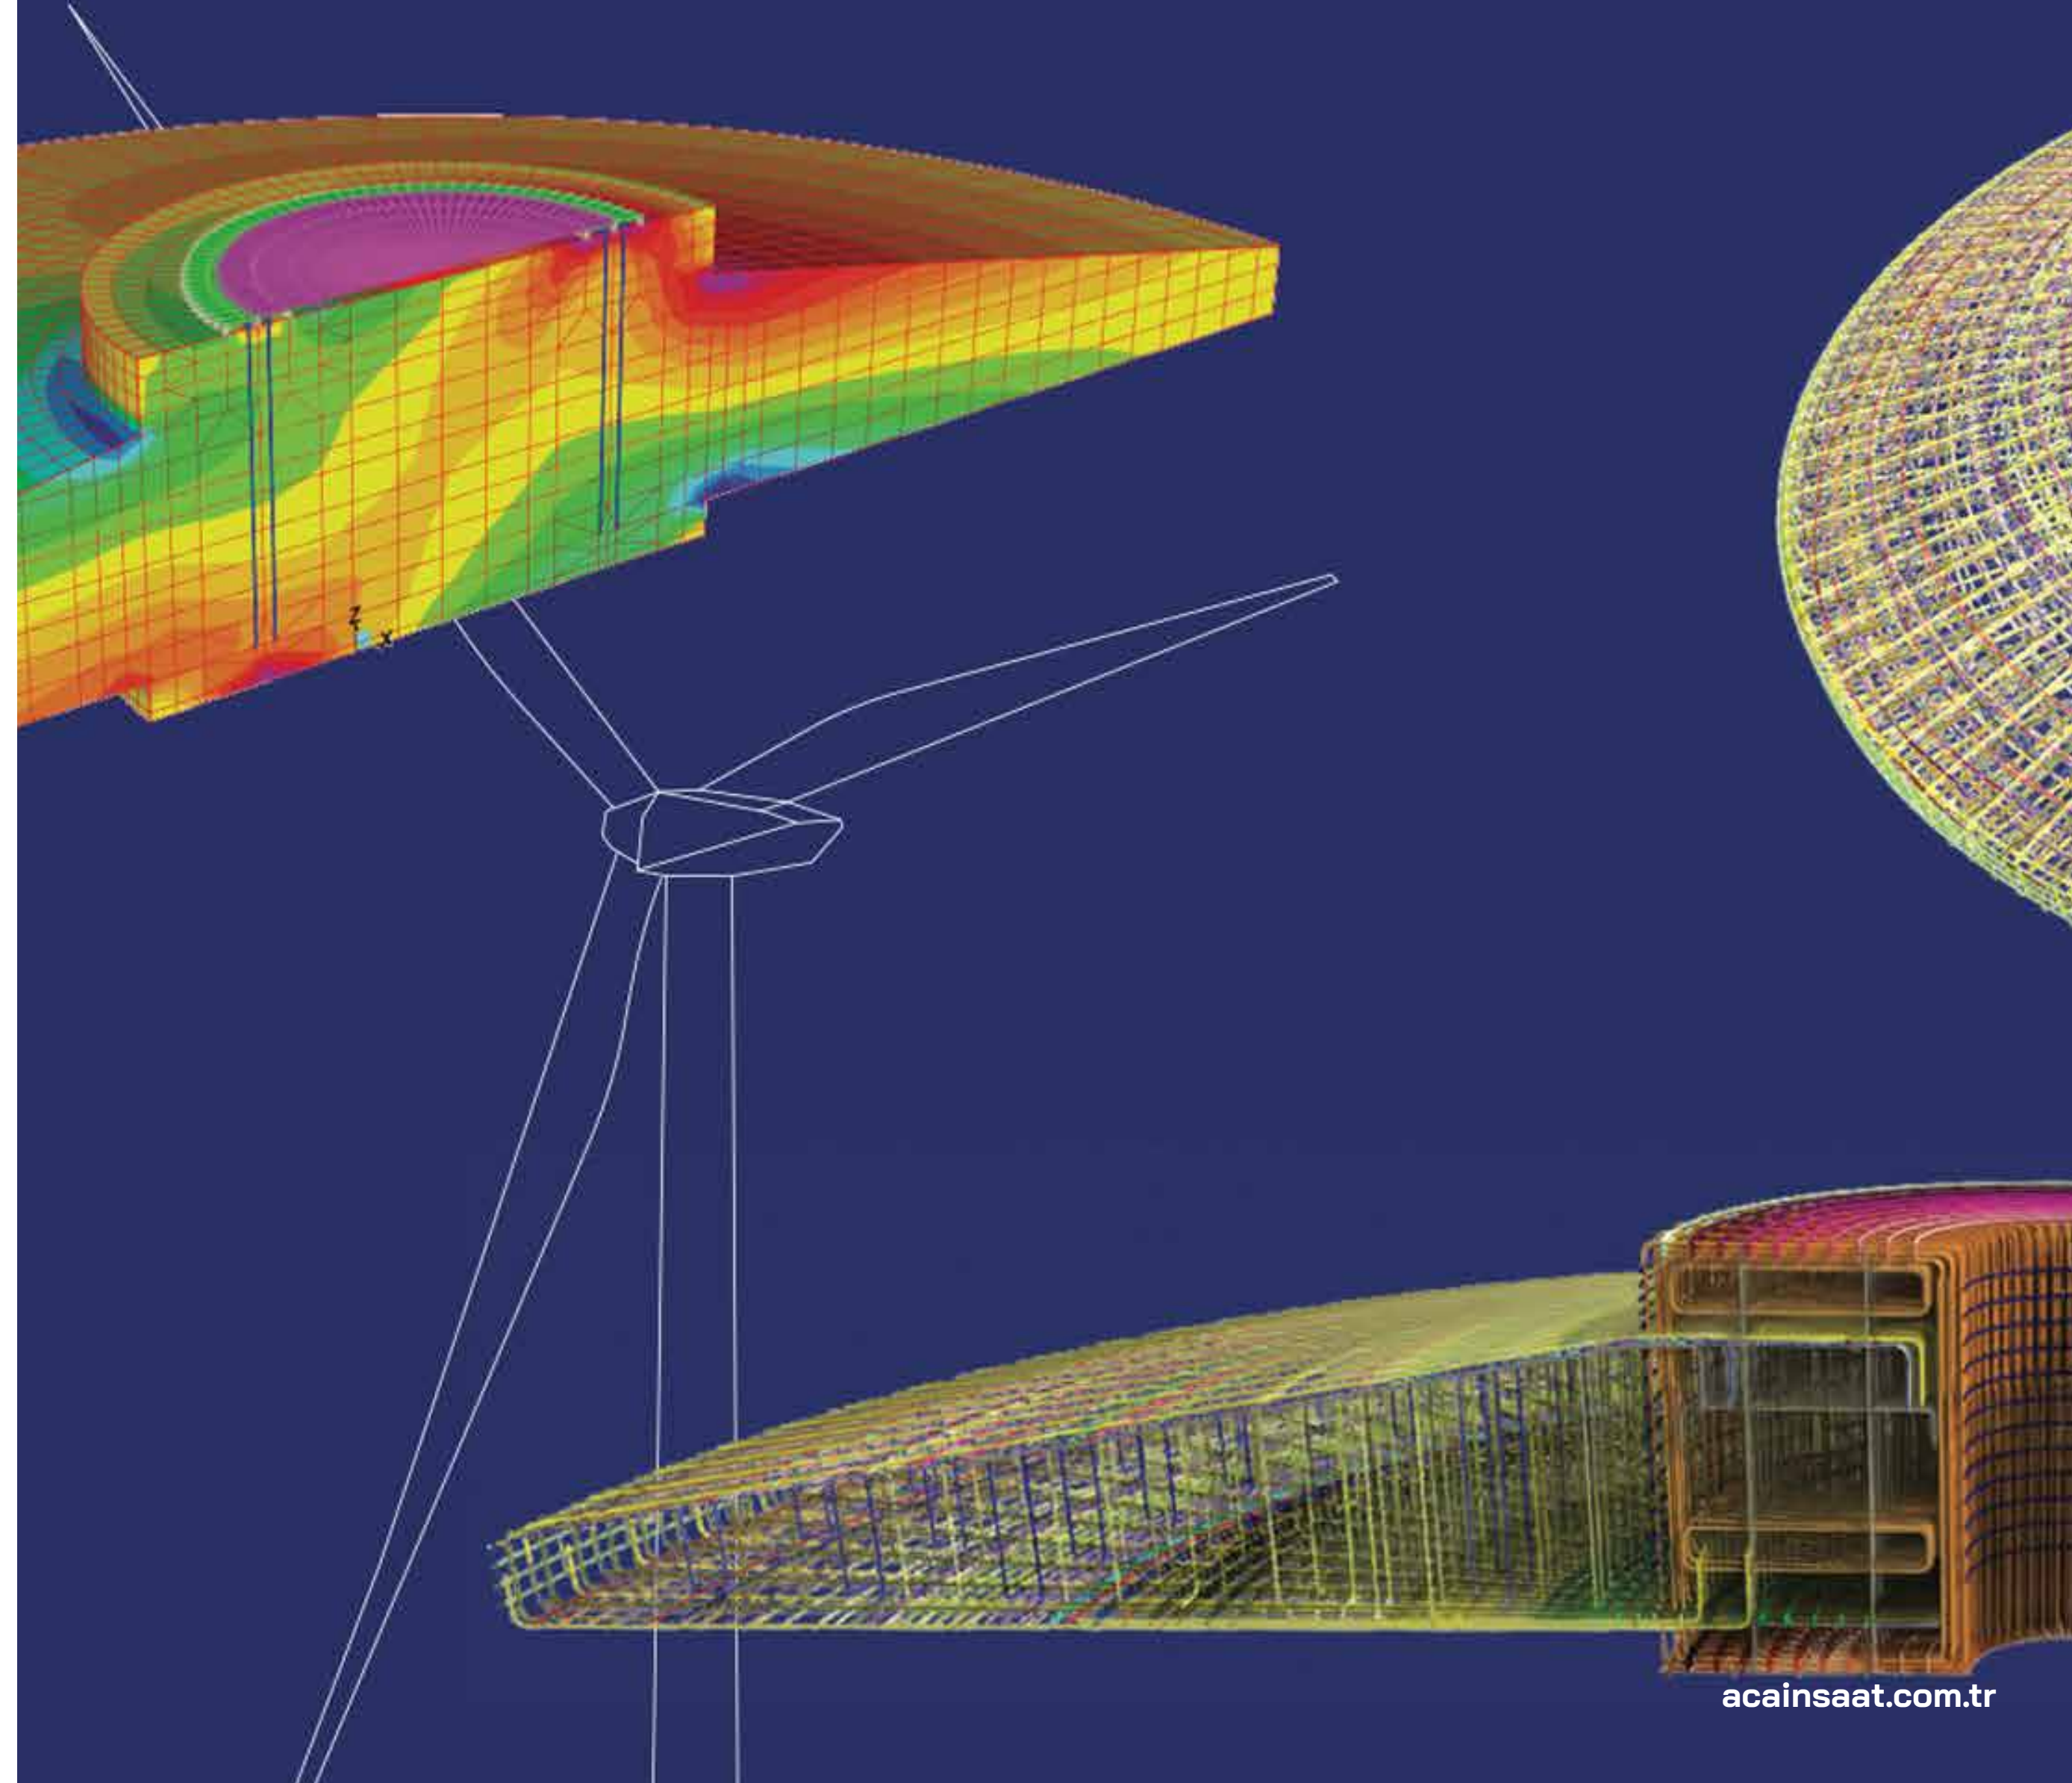

ACA Teknik İnşaat is not only a leading company in the sector, but also a company that specializes in industrial structures. In this context, it has successfully completed various industrial projects such as production facilities, factories, warehouses, hangars and power plants.

ACA, which can also produce solutions for complex and technically challenging projects, **uses modern design principles and the latest technology.** The company builds industrial buildings tailored to its customers' specific needs and within their budgets.

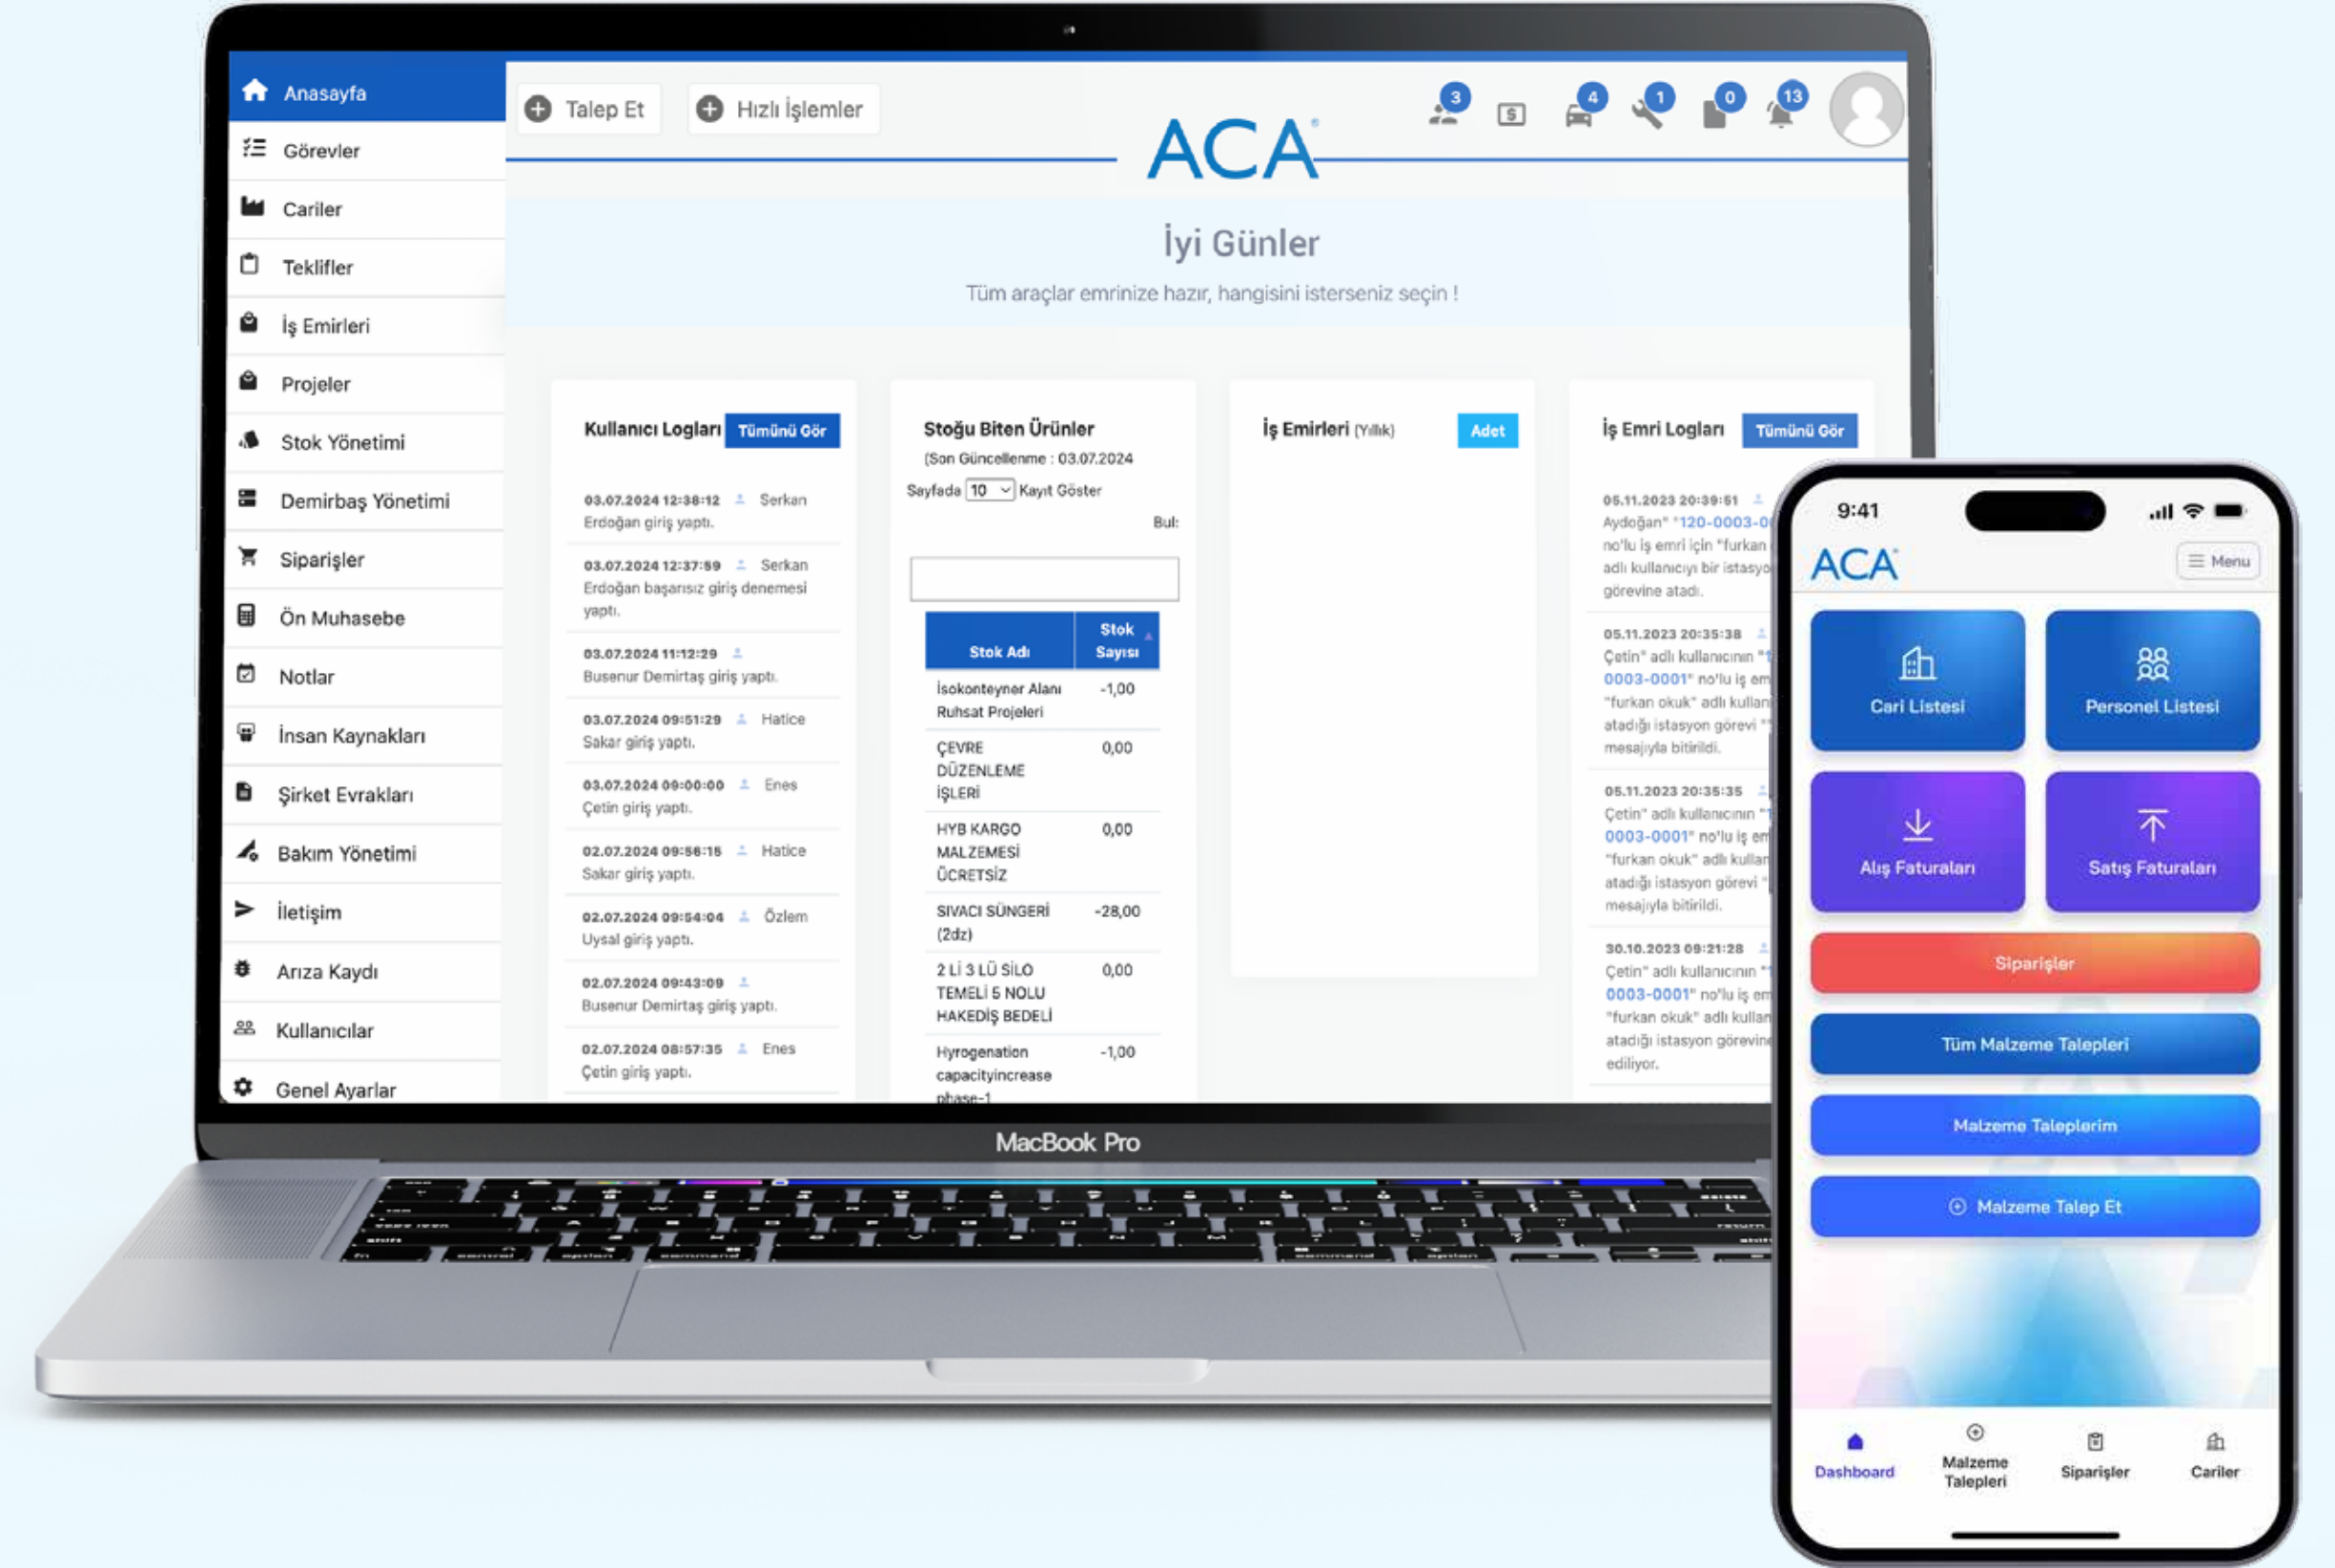

FAB Teknik, a member of the ACA group of companies, also plays an important role in **renewable energy projects** such as solar power plants, wind power plants and treatment plants.

FAB follows technology closely and produces innovative solutions and uses the latest technology in its advanced engineering projects. It completes its projects with the **highest efficiency by effectively using software** such as Allplan, SAP2000, Prota, AutoCAD, Autodesk.

NANO, a member of the ACA group of companies, makes a difference in the industry by developing innovative solutions such as enterprise resource planning (ERP), production planning and control system (MRP) and mobile applications.

Continuing to invest in technology and produce innovative solutions, ACA is on its way to becoming **one of the pioneers of digital transformation** in Turkey's construction industry. With this awareness, it aims to contribute to a more modern, more efficient and more sustainable construction industry.
