EVERYTHING YOU NEED FOR A CARING MEDICAL EXPERIENCE IN TURKEY

About Remed Health

Everything concerning your treatment and your stay can be expertly arranged by Remed Health:

To ensure a convenient, pleasurable experience, Remed Health guides you through the process by offering you a personalized treatment plan based on a thorough assessment of key health facilities which boast the very best standards in high-quality care, technological infrastructure, and accomplished health professionals. Taking into account your individual needs, your schedule, and your budget, Remed can also organize comprehensive, customized packages to guarantee stress-free medical experience in Turkey.

Remed Health provides:

- Air ambulance for urgent cases
- Medical assistance for the evaluation of medical records
- Preparation of plans and arrangement of appointments at the hospital/clinic
- Personal reception at the airport
- Transfers between the airport, any destination in the city, your hotel, and the hospital
- 24/7 Personal assistance and interpreter services
- Medical monitoring by dispatching physicians during treatments
- Emergency center available 24/7
- Complementary services

Even after your return, Remed Health will be available for any future requests. Since 1993, Remed Health has provided impeccable service to hundreds of thousands of international patients, guiding them towards the best hospitals which can offer them the finest treatments.

Here are the treatments that Remed Health provides:

Check-up

Aesthetic Surgeries

Transplantology

Ophthalmology

Stem Cell Therapy

Oncology

Fertility Treatments

Orthopedics

Dental Treatments

Bariatric Surgery

Cardiovascular

How It Works

1

Quote Request

Contact us through our website www.remedhealth.com or our representative agency. Send us your medical reports (if necessary) and please fill out our application form.

2

Quote Preparation

To receive your customized treatment program arranged by Remed Health, the medical management team, made of specialized experienced doctors, will review your file, contact the appropriate hospitals and clinics, and set up a personalized treatment program tailored to your needs. The resulting estimate which is subject to your approval, includes your treatment, accommodation, assistance, and transfers.

3

Arrival

Once you have accepted our offer, Remed Health agents and their partners will guide you through the visa and hotel reservation processes; they will also explain the procedures and send you an official invitation letter. A personal assistant delegated by our team will meet you at Istanbul airport, take you to the selected hospital or your hotel and provide you with any necessary translations to ensure that you have a hassle-free medical experience.

How It Works

4

Hospitalization and Stay

Hospital

During your stay at the selected hospital, you will be accompanied by the medical team, which will be in constant contact with the hospital staff, as well as your multilingual personal assistant.

Hotel

After your treatment and during the recovery period, you will be able to relax at your hotel and enjoy everything the city has to offer.

5

Return

Following the approval of the final reports from the medical management team and the referring physician, our team will arrange your return journey and your personal assistant will bring you to the airport. Remed Health keeps patient information secure to efficiently respond to any future requests.

About Antalya

Antalya is more than just a tourist destination. While receiving your treatment, experience Antalya's breathtaking natural beauty, and immerse yourself in its fascinating history.

Here are some key reasons why you should visit Antalya for your medical experience:

- High-quality healthcare services
