

# URAY DESIGN

Prepared by Esra OZ

- WHAT WE OFFER

Global textile market is changing rapidly in both production and consumption. The competitive playing field is being contested by companies of all sizes from all corners of the world in response to the consumer's rapidly changing requirements, tastes and purchasing patterns.

We offer Non-stop creation, successful and profit oriented results, Professional management of business plan, unique ideas and analysis. We create winning organizations by investing in talented people and best technology. Let's grow your business together.

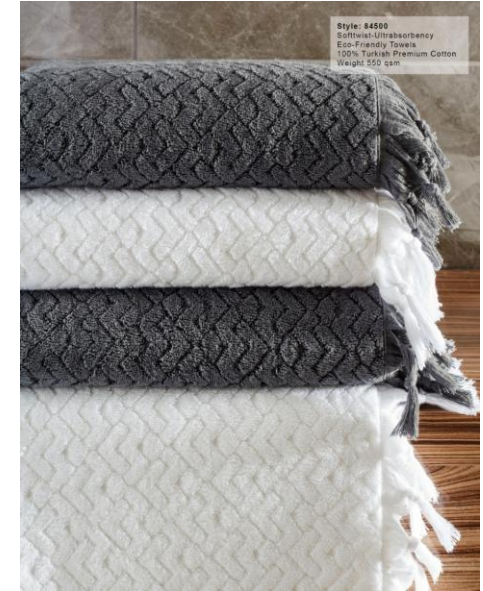

- WHAT WE DO

Our inspiration is our clients. We create, activate and manage your business plan reflecting your expectations. We develop a clear vision of success factors for the greatest future of your business. Think of us as an integral but discreet part of your team that exists behind the scenes to ensure your success. Leverage our knowledge, infrastructure and resources with your key insights and intimate knowledge of your target market, industry and product in order to build a sustainable business. We think 'outside the box' through innovation and creation of new products, product concepts and services.

- HOW WE DO

Quality and our customer's demands are the major key to our business. Our production is certified with third party audits that enables us to fulfill the clients expectations and needs. From the yarn production till the shipment, our quality team ensures these standards are highly fulfilled. In addition to third party inspections, our quality department is capable of inspecting our very own in-line and final inspections. We aim to deliver the best quality under all cases.

- A b o u t u s:
- Uray Design is a boutique Procurement and Supply Consulting company based in Denizli, Turkey. Since 2001, we have been experience about home textile. Our goal is to connect wholesalers and retailers with manufacturers capable of delivering quality , competitively priced products.
- 
- We work with large and small retailers and wholesalers of luxury , trendy and affordable products. We aim to establish long-term relationships with bulk purchasers so that it can maintain a steady revenue-stream and expand its business in a way that benefits both their clients and their own bottom lines.
- 
- We are specialised in home textile. We run production plant and business development centers primarily focuses to sustainably be innovative and creative. We perceive globalisation a benefit, rather than competition because our dynamic and agile team acts very responsive.
- More than that, we believe that there is a real story behind each product we offer to our clients.
