

Our company is active Since 30 years in this business. We are a company with foreign capital, which leads its activities under the name "Pia Frucht".

The company became in the shortest time to one of the largest export companies in Turkey. Our enterprise is equipped with most modern Technical equipment and machinery and with our private food laboratory we can provide you to each time best food quality secure and guarantee.

The company Pia Frucht has three packing stations at the points strategically most important for Cherries, Figs, Table-Grapes, and Citrus Fruits. The packing stations are in Isparta-Uluborlu, Manisa-Alaşehir and Bursa-Ovaakca. The fruits are cleaned, automatically sorted, inspected for defects and packed in one of the most modern machines.

Our laboratory has been taken into operation in 2006 and from the beginning of 2007, our laboratory has completed the accreditation procedure for the international standard norms. In 2016, in addition to our laboratory in Alasehir, we also set up a new laboratory in Bursa. We are able to analyze up to 500 active substances in both laboratories which includes high polar pesticides like Fosetyl, Ethephon and Glyphosate.

Our producers are all certified with GlobalG.A.P./GRASP and our company has IFS.

Since most contract farmers are not aware of the situation, how important it is, to produce quality without pesticides in a production method near to the nature, we went to another way, and since the year 2005 we are operating on our own farms "Integrated Agriculture" out of consideration to nature and for the protection of the earth.

Today Pia cultivates over 200 hectares of cherries and 100 hectares of table grapes. Furthermore, a new fig plantation/orchard is planned.

To the consequence we are now in the position to be guaranteed that our products are under the EU - MRL regulation.

Our company has the largest export share of cherries in Turkey and therefore we are the largest exporter in comparison of Turkey. Cherries, Figs, Table grapes, Pomegranates and Satsumas are one of our export products.

We brought a new confidence by quality control and assurance and the vision with the name Pia.
