AKDO-TRADE

Who we are...

Silkar Madencilik Sanayi ve Ticaret A.Ş. was established in 1990 to offer its services in natural stone production, trade and installation.

Silkar granite factory was built in Bilecik Industrial Zone in 1994, on a land of 20.000 m². With the marble and mosaic factories built in 2001 on a land of 90.000 m², Silkar reached a marble slab production capacity of 400.000 m², marble tile production capacity of 150.000 m² and mosaic production capacity of 100.000 m² annually. Finally, after the establishment of the mosaic factory in China in 2008, Silkar has become one of the few enterprises in the world which engages in the production of marble, mosaic, and laminated stone panel production all at the same time, while exiting the granite business.

With its quarries in Sivas, Bursa and Balıkesir, Silkar is one of the major natural stone companies in Turkey. Dark Olive (operating since 2005) is the quarry in the province of Sivas, Cafe Latte Dark is the quarry in Bursa region and Vega Light in Balıkesir region. Finally, the newest quarries Coastal Gray and Terra Gray has started to operate in 2020 in Balıkesir and Astra White in Greece.

The mosaic production facility, in operation since 2008 in China, is focused on the production of labour-intensive mosaic models to achieve the highest cost efficiency without compromising the quality.

In 1994, Silkar took a major step, by branding all its products as "AKDO" and entered the North American market through its sister company AKDO Intertrade Inc.

Developing new products by closely following the trends in the U.S., Silkar gained a new perspective in producing mosaics for other foreign markets as well.

With its ability to produce marble, mosaics, and innovative products all together, Silkar continues to lead the natural stone sector with its strong international network and its brand "AKDO".
