PF
Piping

- ▶ VI series has cutting-edge technology
 - ▶ No cartridge
 - ▶ No hydraulic
 - ▶ No pressurized pipe
- ▶ Nozzles have non clogging feature
- ▶ Nozzles have wide nozzle coverage

▶ WIDE NOZZLE PROTECTION AREA

VIVA

OTHERS

▶ THERMO BULB

- ▶ Thermobulbs have fast detection feature
- ▶ Thermobulbs have wide detection rate
 - ▶ 130°C
 - ▶ 141°C
 - ▶ 182°C
 - ▶ 260°C

▶ The wide system size selection

- ▶ 8 Flow : VI 8
- ▶ 12 Flow : VI 12
- ▶ 18 Flow : VI 18

- ▶ The wide system size selection helps to achieve best cost effective solution
- ▶ The pressurized cylinders save the cost of maintenance
- ▶ The both automatic and manual activated mechanism save the manual unit cost

- ▶ %60 less cost according to equivalent piping cost
- ▶ Less installation time and labor cost
- ▶ No clamp, threading machine, hand clipper
