About Us

OMAC has several stainless steel, aluminum, carbon fiber and ABS plastic automotive accessories production facilities in Europe with hundreds of professionals since 1995.

OMAC GmbH Germany, the first international OMAC distribution business was founded in North Rhine - Westphalia district in the heart of Europe in 2006. OMAC is one of the biggest European automotive accessories distributors with its over 76.000 sq feet warehouse, over 30.000 SKU and professional logistics, administrative and customer service teams. OMAC focuses on e-commerce, retail, B2B and OEM projects distribution in whole Europe through its Herne, Germany warehouse.

OMAC USA Inc., the second international OMAC distribution business was founded in Houston, Texas in 2018. OMAC operates in 81.000 sq feet warehouse building with its professional logistics, administrative and customer service teams.

OMAC brought its budget friendly, European quality roof racks, bike racks, running boards, stainless steel exterior trim, TPE floor mats and over 30.000 SKU automotive accessories to USA market. OMAC has its own scanning and product development R&D team in USA and focuses on e-commerce, retail, B2B and OEM projects distribution to North and Central and South America markets through its Texas, USA warehouse.

OMAC France SAS, the second European and third international OMAC distribution was founded in Paris, France in 2022. OMAC aimed increasing service quality in its second biggest European market with this new distribution investment. OMAC France focuses on e-commerce, retail, B2B and OEM projects distribution through its Paris, France distribution warehouse.

OMAC is a very well-known brand with its European quality automotive accessories mainly; floor mats, trunk mats, roof racks, running boards and stainless steel exterior trims.

Medium and long term OMAC global vision is; expanding its international distribution with direct investments, international distributors and international franchise sales of OMAC brand in strategical countries.
