E-commerce Infrastructure

Ultegra combines the power of digital commerce with a user-friendly platform!

- 🔗 Unique customer experience on every page
- 🔗 Pricing in local currency
- 🔗 SEO in local language
- 🔗 Mobile compatible
- 🔗 User-friendly interface

Marketplace Infrastructure

Ultegra takes your business further!

 By providing multi-directional integration with sector-based marketplaces, we enable you to reach a wide customer base with your products.

 We help you increase your sales and expand your customer base and support you to become a leader in digital commerce.

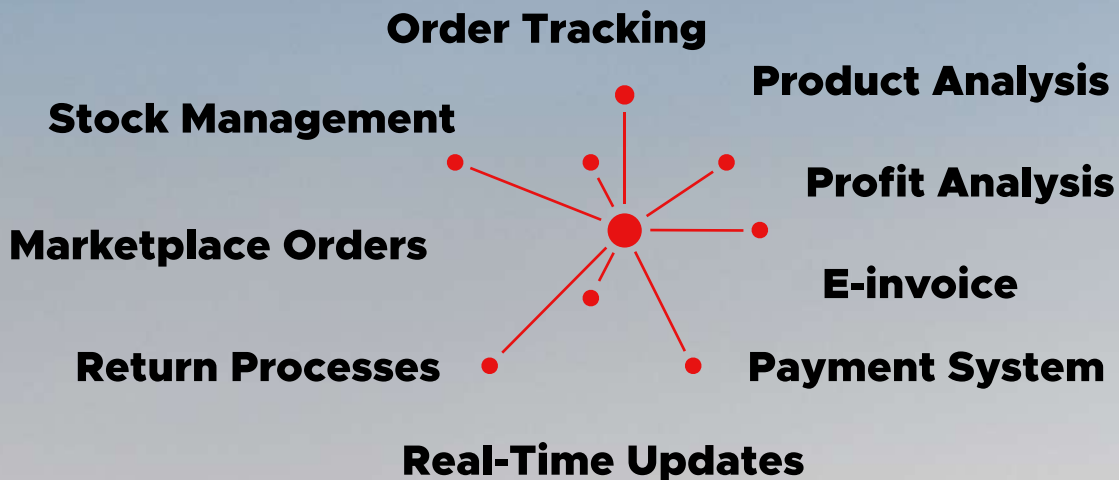

Central Inventory System

All channels in one system!

The Ultegra central inventory system allows you to manage all your sales channels from one platform, so you can track and update the inventory of both your offline and online stores in real-time.

With the integrated system, stock discrepancies are prevented, and all processes become efficient.

Cloud Technology

SPEED

All Ultegra components, installed on the cloud, work in harmony to speed up your processes.

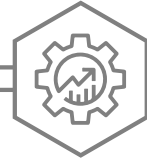

ACCESSIBILITY

Access your business from any device, regardless of time and location.

SECURITY

Regular DDoS stress tests keep your business and data secure 24/7.

SCALABILITY

Easily adapt to the changing demands of your business workloads.

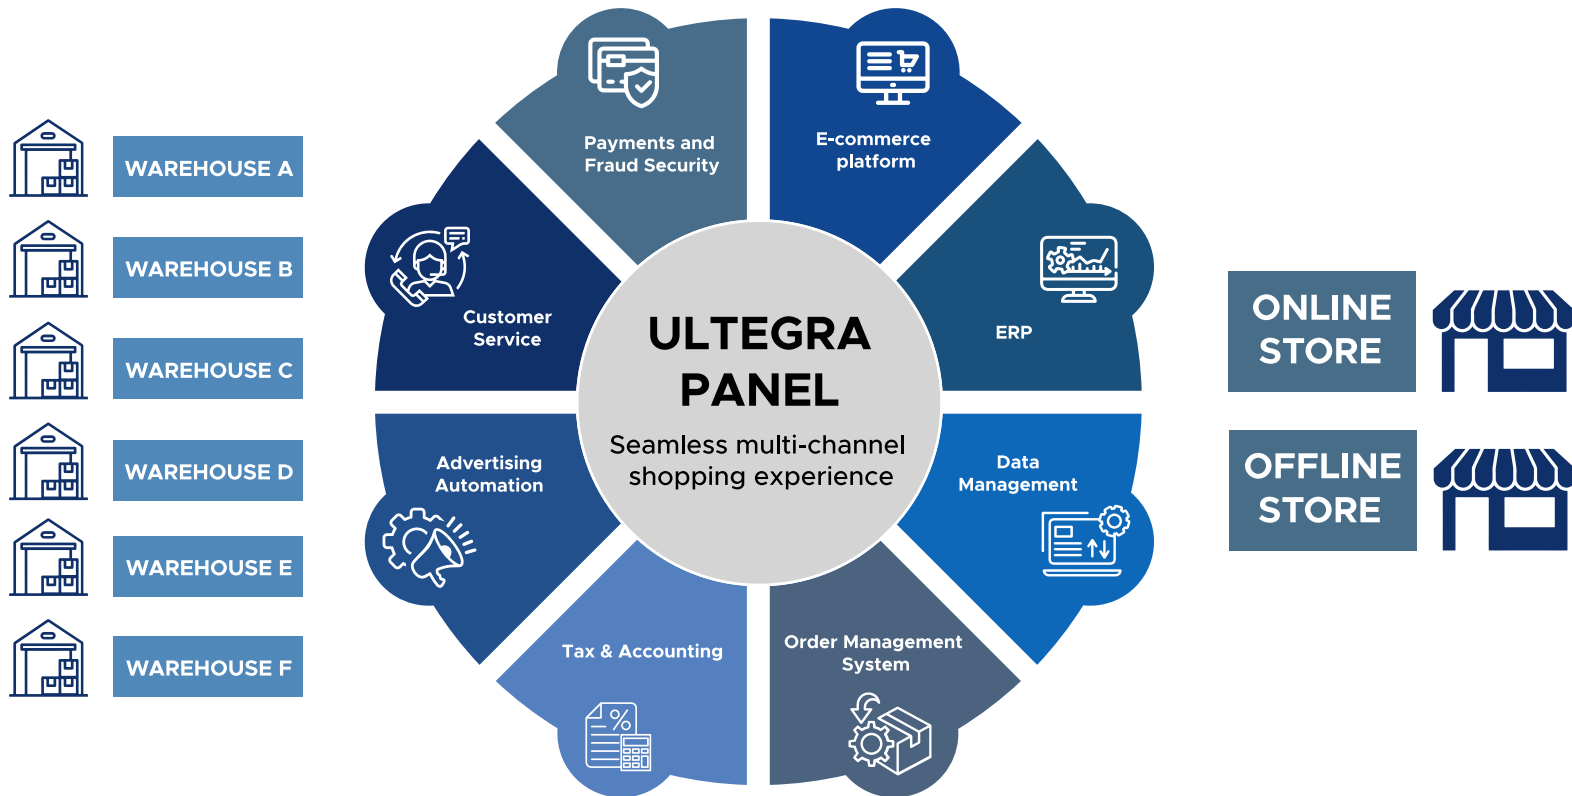

Easily manage all order processes from a single panel

The image displays five overlapping screenshots of the Utegra software interface, illustrating its capabilities for managing order processes from a single panel.

- Main Order List:** The top-left screenshot shows a table listing multiple orders. Columns include 'Fatura No', 'Belge No', 'Belge Tarihi', 'Cari Ad', 'Fatura Önceki', 'Kaynak', 'Tutar Döviz', 'Entegrator', 'BT Tipi', 'Fatura No', and 'Statü'. The table lists various orders with their respective details and status indicators.
- Order Details View:** The top-right screenshot shows a detailed view of a specific order, displaying fields for 'Fatura No', 'Belge No', 'Belge Tarihi', 'Cari Ad', 'Fatura Önceki', 'Kaynak', 'Tutar Döviz', 'Entegrator', 'BT Tipi', 'Fatura No', and 'Statü'. It also includes a 'Fatura Önceki' section with a list of previous invoices.
- Customer List:** The bottom-left screenshot shows a list of customers, with columns for 'Fatura No', 'Belge No', 'Belge Tarihi', 'Cari Ad', 'Fatura Önceki', 'Kaynak', 'Tutar Döviz', 'Entegrator', 'BT Tipi', 'Fatura No', and 'Statü'. The list includes customer names and their associated order details.
- Invoice Details View:** The bottom-right screenshot shows a detailed view of a specific invoice, displaying fields for 'Fatura No', 'Belge No', 'Belge Tarihi', 'Cari Ad', 'Fatura Önceki', 'Kaynak', 'Tutar Döviz', 'Entegrator', 'BT Tipi', 'Fatura No', and 'Statü'. It also includes a 'Fatura Önceki' section with a list of previous invoices.
- Payment Summary:** The bottom-right screenshot shows a payment summary screen, displaying fields for 'Fatura No', 'Belge No', 'Belge Tarihi', 'Cari Ad', 'Fatura Önceki', 'Kaynak', 'Tutar Döviz', 'Entegrator', 'BT Tipi', 'Fatura No', and 'Statü'. It also includes a 'Fatura Önceki' section with a list of previous invoices.

Order Management System

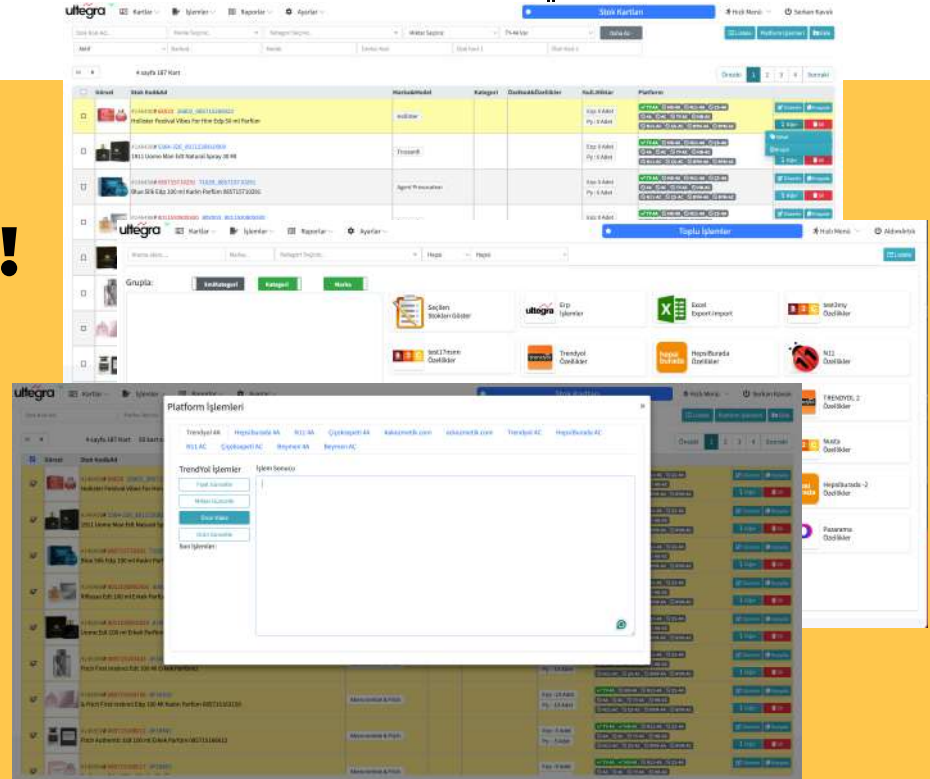

Omnichannel commerce with ultegra
