

Meraklı Karga

Meraklı Karga Nedir?

Established in 2020 at Hacettepe Technopolis Incubation Center, our company focuses on educational technologies, designing distance learning platforms and self-learning environments.

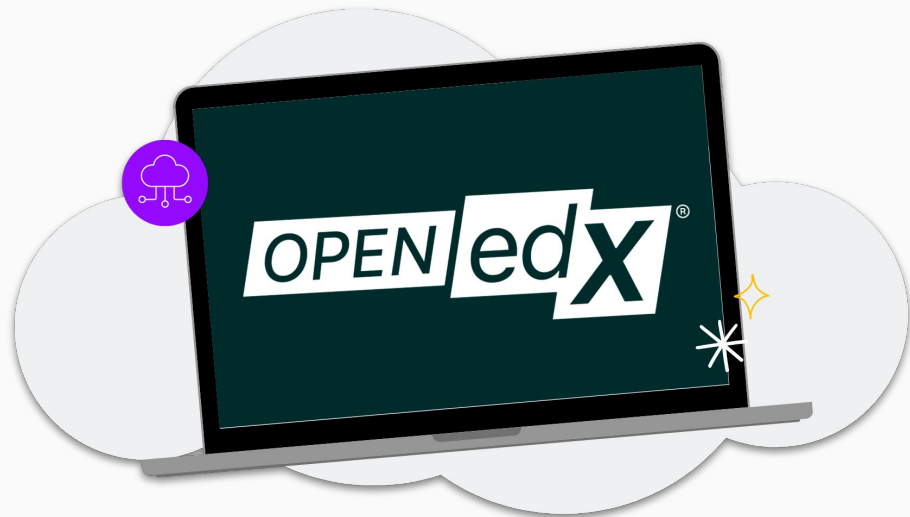

Our Services

- Distance education infrastructure services
- Installation and maintenance of distance education systems
- Lesson planning and content development services
- Organization of educational events, hackathons, and competitions — either remotely or live
- Open edX consultancy

Open edX Consultancy

Providing guidance and expertise on setting up, customizing, and managing Open edX platforms.

Kağıttan Devreler

We keep a close eye on global efforts to develop educational materials that are outcome-oriented and designed to strengthen problem-solving skills.

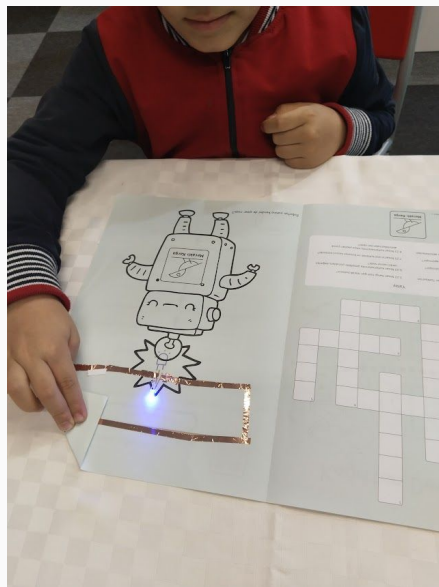

Kağıttan Devreler

Bringing STEAM learning to every child (4–12), anytime, anywhere — no internet required.

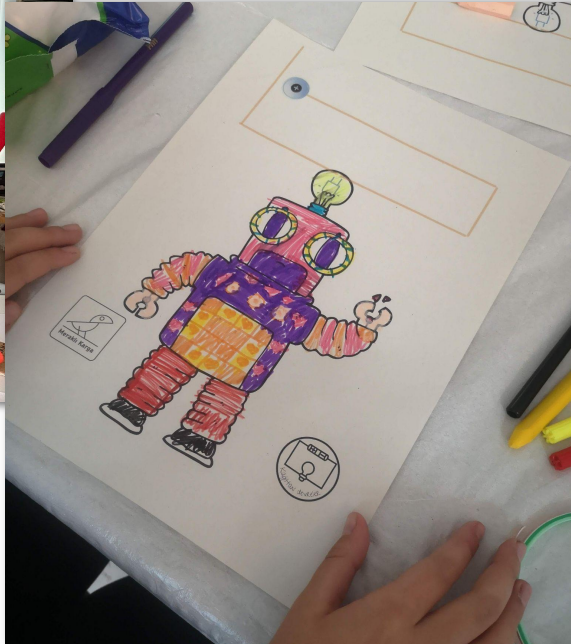

Our Goals and Achievements to Date

- Expanding access to high-quality learning materials for children.
- Empowering children to move beyond basic tech literacy from an early age.
- Creating affordable and impactful educational products rooted in our homeland.
