

the soil gave us the crop and we valued it...

TYCHE

Tyche of Antakya (Antioch) is the luck goddess who determines the city's fortune, welfare and faith symbolising Antakya with all its elegance.

The spike bouquet she holds in her hand symbolises the city's prosperity while the man she steps on symbolises Orontes (Asi) River and the tiara at the beginning symbolises the 22 km long walls surrounding the top of Habib-i Neccar (Silpius) Mountain. Tyche is almost the owner of Antioch.

Our plant was founded in antakya organised industrial area located in Amik Plain in the year 2001. It is a modern plant which has got the capacity of producing various kinds of food products in an area of 20.000 m² in total 8.500 m² of it being closed area.

Production in our plant is being realised by processing the agricultural products grown in Amik Plain and Cukurova. Reaching high aromatic values given by the very territorial texture is only made possible by using suitable technology, overseeing the climate and soil characteristics so to obtain products exclusive to the region.

We are producing foodstuff respectful to nature, fit for human health and appealing to the taste in our facility which has got this technology. Our main products are tomato paste, pepper paste, various sauces, roasted eggplant and pepper, Antakya appetizers, pomegranate molasses, olive oil, dairy products, dried products, pickles, jams and daphne soap bar.

Besides the local products, products from the national and international markets are put on the market in all kinds of packaging and amount (glass, tin, pet, etc.) in our modern facility and they are exported to many countries.
