

COMPANY PROFILE

DORCE is one of the sector's leading and first established companies as Turkish global brand with worldwide experience in prefabricated modular steel structures including manufacturing, export and international contracting services.

www.dorce.com

DORCE Production Plant

DORCE completes prefabricated modular steel structures towards meeting all kinds of needs on a turnkey basis in different geographical regions under harsh climatic conditions at the same time with in-house engineering, procurement, production, logistics, assembly, infrastructure and superstructure works, including testing and commissioning.

DORCE, with its 40 years of experience, owns one of the largest prefabricated steel structure production facilities in Europe, operating within the scope of local and international quality standards. DORCE is able to build prefabricated modular steel and conventional structures with the support of engineering and contracting services.

DORCE
is one of
the **'biggest'**
manufacturers
of light gauge
steel structures **in Europe**

DORCE

AS A GLOBAL PRESENCE
IN MORE THAN **60 COUNTRIES**
AND HAS **40 YEARS OF EXPERIENCE**

✓ **Industrialist/Manufacturer identity;**

DORCE is one of the biggest manufacturers of light gauge steel structures in Europe. The production facility is located in Ankara, Turkey.

✓ **Contractor identity;**

DORCE is one of the biggest 250 contracting companies in the world according to ENR (Engineering News-Record) for the last 10 years.

DORCE manages entire lifecycle of a project with in-house design, construction and operation services by using **Building Information Modeling (BIM)** rather than traditional methods, by catching the necessities of the era with **Modern Methods of Construction (MMC)**, **Design for Manufacturing and Assembly (DFMA)** and **Designing for Industrialized Methods of Construction (DIMC)**.

SERVICES

- Field Research and Digital (Numeric) Measurements
- Conceptual Design and Feasibility Studies
- Front-End Engineering Design (FEED)
- Supply Chain Management
- Design, Manufacturing, Construction and Operation with Building Information Modeling (BIM)
 - Superstructure and Infrastructure Design
 - Building Production
 - Construction Works
- Furnishing and Industrial Equipment
- Infrastructure Works
 - Electric Power Generation Plants (Natural Gas and Diesel Generators, Solar Panels)
 - Water and Sewage Treatment Systems
- Maintenance & After Sales Services

INTERNATIONAL TERMINOLOGIES FOR MMC

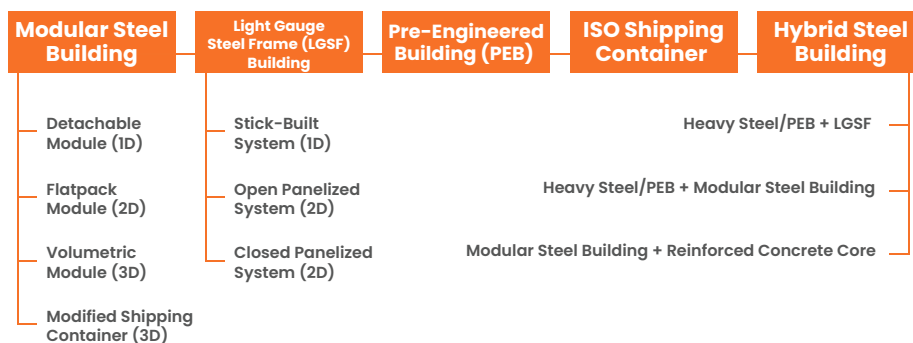

FUNCTIONAL PROJECT TYPES

Ability to deliver as an EPC Contractor:

- Worker / Labor Accommodation Camps
- Hospitality Projects (Hotel & Holiday Villages)
- Housing Projects (Affordable / Social Housing / Upper Medium/ Luxury)
- Hospital & Clinic & Health Center
- Mobile Hospitals
- PODS (WC & Shower)
- Schools & Student Dormitories
- Workshop & Warehouse & Storage
- Offices & Commercial Facilities
- Military & Base Camps
- Refugee, Emergency & Earthquake Camps
- Office / Embassy / Administrative Buildings
- Vehicle Inspection Stations
- Police Station & Prison
- GSM and System Cabins
- Specially Designed Modules

DORCE ACCREDITATIONS

- Overseas Contracting Certificate
- Domestic Contracting Certificate
- ISO 14064-1 Greenhouse Gas Verification Statement
- ISO 9001 Quality Management System Certificate
- ISO 14000 Environmental Management System Certificate
- ISO 45001 Occupational Health & Safety Management System Certificate
- ISO/IEC 27001 Information Security Management System Certificate
- TSE-HYB Service Adequacy Certificate (Türkiye)
- EN 1090-2 EXC.2 Factory Production Control Certificate (CE Certificate)
- EN ISO 3834-2 Certificate of Welding Quality System
- GOST-R Certificate of Product Conformity (Russian Federation)
- GOST-R ISO 9001 Quality Management System Certificate (Russian Federation)
- GOST-K Certificate of Product Conformity (Kazakhstan)
- ST RK ISO 9001 Quality Management System Certificate (Kazakhstan)
- TS EN 16034 Certificate of Conformity for Fire Rated Wooden Doors
- QCDD Certificates (Wall, Floor, Column, Door, Ceiling Assemblies)

- Fire resistance certificates within the range of 30 minutes to 180 minutes for the building system sections which are tested in accordance with the regulations and the standards of the country where the project took place.
- Accreditation for sound insulation tests requested according to the regulations and the standards of the country where the project took place.

DORCE ACCREDITATIONS FOR DEFENCE SECTOR

- Presidency of Defence Industries – Turkish Republic / Industrial Competence Assessment and Support Program (EYDEP) Certificate
- Ministry of National Defence of Turkish Republic / Qualified Supplier Certificate (Production & Manufacturing)
- Ministry of National Defence of Turkish Republic / Qualified Supplier Certificate (R&D and Design)
- Ministry of National Defence of the Turkish Republic / Facility Security Clearance Certificate

OUR SUSTAINABILITY POLICY

We carry on our activities for a greener world based on fair social and economic development in which environmental values and natural resources are protected for the benefit of present and future generations.

We provide rapid modern modular steel solutions under severe climatic conditions (desert, poles, etc.) in different geographies with our in-house engineering staff taking into account of the importance of environmental protection.

The United Nations Global Compact, Sustainable Development Goals (SDGs), The European Union's Green Deal, the effect of the circular economy and technological developments with digitalization, led the construction industry evolving into prefabricated modular steel structures in developed countries.

Within this framework, DORÇE adopts and implements the following in order to serve sustainable development;

-  Reducing the environmental footprint,
-  Implementing zero-waste policy,
-  Adopting a recyclable product lifecycle,
-  Giving importance for employee-centered organizational structure,
-  Establishing Long-term sustainable stakeholder relations by taking into account their expectations,
-  Responsible to the social difficulties,
-  Creating projects to support social development in all geographies where we operate,
-  Creates value by developing smart modular construction projects in line with R&D, innovation studies, digitalization and developing technology,
-  All our activities are operated with the principle of energy and resource efficiency ,
-  Protection of biodiversity and natural resources is our priority,
-  We embrace sustainable supply chain management,
-  Adopts and implements Business ethics and code of conduct in its entire business ecosystem.
