1945

Our journey began with Mehmet Çevik, in his twenties, traveling across the hills of Aydın on camels to engage in fig trading.

1976

With years of reliable and fair trading, we stood out in the market. The second generation, led by Ali Çevik, brought in new vision and development-focused goals.

2011

Under Ali Çevik's leadership, the third generation, Mehmet Çevik, joined, and we established our dried fig processing and packaging facility. After 67 years of experience, we made our first export in 2012, aiming to introduce Turkish dried figs to the world with a focus on quality and branding.

2024

With 79 years of experience, we are excited to introduce our new products to the world.

is a family-owned business that has been trading figs for three generations in Aydın. We source our figs directly from farmers, leveraging our extensive experience in the fig industry.

Our mission is to combine tradition with global trading standards, and we take pride in developing innovative dried fig products. Our factory, situated in Aydın—the heart of Turkey's fig production—covers an area of 8,000 m², with 3,500 m² dedicated to production. Using cutting-edge technology and a skilled team, we strive to add value to people's lives by offering a diverse product portfolio that emphasizes nature, health, and future generations.

Our vision is to be recognized as one of the premier brands in the worldwide dried fruit market, providing exceptional service to both suppliers and customers.
